STUDENT LIFE

GRADUATES

Did you really want to come here? You were asked, persuaded, or purchased in some negotiation that culminated in you ultimately choosing Lehigh. You must have applied to other universities, and chances are that whatever motivated you to pick the Old Lady on the Mountain has escaped your consciousness now. In lieu, thoughts of extra-long sheets and general provisions of occupancy replace AP credits and the National Honors Society.

Step back for a second.

The fact that you *are* here, starting in sync with nearly one thousand others embarking on such

new beginnings is testament to your private list of achievements. The odds of being accepted to Lehigh will decline further still as you attain degrees of seniority here; contacts will be forged, friendships will blossom. As the anxiety of the first round of Four o'clocks passes, and you find yourself shopping for fewer plastic crates and other such useless accoutrements each summer, forget not when you stood beside your classmates freshman year, in Packer Chapel, dressed better than you would have preferred, sweating, listening to the President's address and wondering where you'd be at this very moment.

A WHOLE NEW CHAPTER

A FRESH NEW START

For most students, the *college experience* is best defined by the transition from living in a family unit to living in peer groups; decisions being primarily motivated by our own intuition rather than the influence of our guardians. While this change holds almost universally relevant to incoming students, there are those of us who are experiencing alternate progressions. Perhaps we attended a single-sex school, or one with a religious affiliation. Maybe we've had a uniform for twelve years of our lives. Maybe we were home schooled. Whatever the case may be, this *new game* applies to everyone nonexclusively: we are responsible for our own growth. Granted, it is a sheltered growth, one with a heated dormitory, faculty advisory board, and a dining plan. To whatever degree may be personally applicable, it remains to be a *new beginning*.

TOGETHER WE WILL SUCCEED

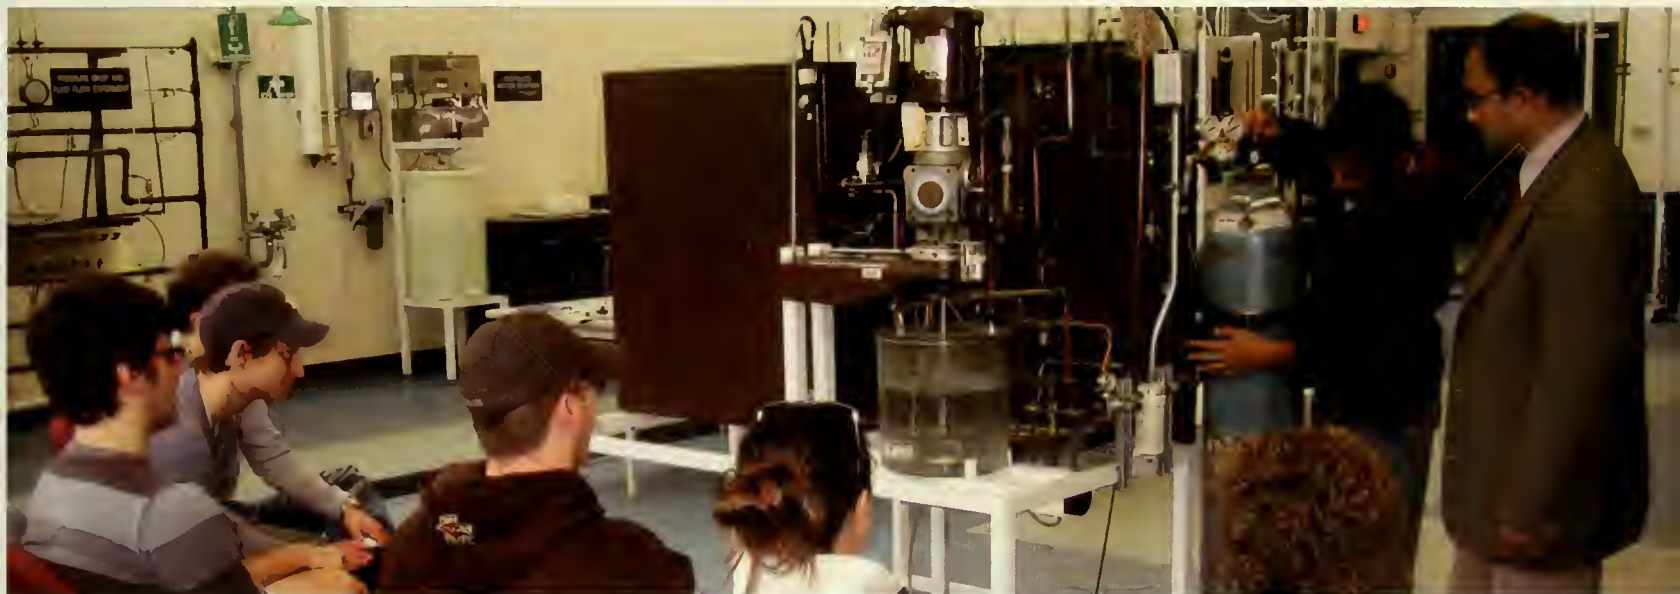

READY, SET, GO!

You're not going at it alone. Chances are, during your freshman year, there were at least one hundred other peers with identical academic demands. Part of what makes university life so very separate is that we are all approximately the same age and grade. Pedigreed or public schooling aside, there will be no other opportunity in life to interact in such a community. How then do we make the most of our time spent here? With differing backgrounds come differing interests, and, from fencing to football, from robotics to journalism, Lehigh holds within its intangible community element a variety of very physical laboratories. Such labs may be more traditional, such as a newsroom or a field house, while others may be more nouveau, such as a meeting place on the quad. In either case, save for whatever interpretation you might have had for the team building exercises of freshman orientation, we actively hone our ability to live and work in tandem with those around us through our clubs and sports.

FROM ONE IN ONE HUNDRED

TO ONE IN TEN

Do you remember your *first* lecture? Did you bury your head in your hands, wondering what country your professor was imported from, and how anyone else in your class could possibly follow what you interpret to be an unintelligible babble? Maybe your experience was completely different – you forged a bond with your professor, even amid the hundreds of other students, and felt a filial connection each time he or she began to lift the chalk and orate. By now, you may have figured out that college operates in a sort of pyramid theory: you start out in herded masses, and somehow work your way down to classes of five from twenty. Whereas you fought to be heard by your professors of introductory calculus or chemistry, you now may shy from your ethics professor, fully aware of his penchant for picking on you when it comes to the tough questions. But, isn't that what college is all about – after all, success does not stem from a fear of such conundrum.

ON YOUR OWN

MAKING IT WORK

So, you've followed the color-coded signs, enjoyed the impermanent view offered by Lookout on the drive towards the dorms, and had your unassembled furniture strike the rear of your head as your car navigated the unusually steep grade. This is Dravo, the highest freshman dorm, and this is, or was your home. That is, of course, unless it wasn't – such scenes replicated themselves among the various building complexes in the wee days of August however many years ago it might have been. Loyalties are established among floor mates, and amidst discussion over laundry rooms and midnight fire alarms are the inevitable whose hall is the best arguments. The Centennials are the most modern, but the smallest; Richards offers the views of Dravo with fifty less steps. M&M is a pit with kitchen cabinets in lieu of dressers; yet the occupants will never admit such an assessment. Dravo is among the more spacious, more remote dorms – a mixed blessing. Residence hall living epitomizes a purgatory between your bedroom at home, and a true-to-life efficiency apartment. You likely share a bathroom, you have no utility bills, and your interim voice-of reason resides in the position of the Gryphon. This aphoristic appraisal is certainly a requisite of classical college life; can you recall how yours began?

REMEMBERING THE PAST

FORGING THE FUTURE

Part of the joy of attending a gracefully aged institute of higher education is the historical nature of the campus surrounding us. The thought that Lee Iacocca and Don Most passed through the same doors at Linderman and studied under the glow of the same stained glass is certainly something to chew on. Perchance the celebrity effect has no bearing on your perceptions; a relative alumnus might be more compelling. Could your father have met your mother in the same hallway at Chandler-Ullman that you now pass through each day? Did your grandfather nap in the same seat in which you engage in active quasi-political discourse in Packard 101? The legacies that surround us, wrought by long-passed financial campaigns and class gifts give us an active, living contribution to our daily grind, most noticeably in the form of steps – a most apropos nostalgic testament, considering the lay of the land. We may add a handicapped ramp, or a cappuccino bar, as we had done to the Linderman complex during the past few years, yet the roots of the architecture and the soul of the buildings remain, such as the 1929 reading room – unmolested since 1929. These legacies bear witness to our new beginnings, as they have done so faithfully in years past.

Lehigh— a dynamic community,

FEATURES

a constant home!

For many students, the “best four years of our lives” are filled with momentous events that we wish we could keep in a capsule to look back upon in our later days. Many of these events spring new beginnings into our lives and ultimately change us into the people we are to become. For freshmen, it begins with day one; living without our parents and adjusting to the college life. Freshmen then experience their first holidays at Lehigh, including their first Lehigh-Lafayette weekend and Greek Week. For all students, this year brought about numerous new beginnings at Lehigh. For some, this year marked the first Sundaze where the sun decided to show its face. Everyone at Lehigh adjusted to the absence of Gregory Farrington as president, but also warmly welcomed Alice Gast as she proficiently filled his gigantic shoes. Opening its doors after two years of construction, Linderman Library was filled with students eager to spread out and begin a new tradition of studying habits. These events and a surplus of others launch new experiences and are why we remember Lehigh.

Moving In

Class of 2010 joins the Lehigh family

The Class of 2010 began moving into their dorms in the last weekend of August. The members of the Greek community volunteered to help the freshmen carry numerous bags and boxes into their new rooms. The roommates met in their rooms, yet their faces were already familiar. Excited about the new stage of their lives and equipped with Lehigh e-mail addresses, the Class of 2010 took full advantage of Facebook to befriend their peers over the summer.

After a picnic with their families on the front lawn of the University Center, students began a four-day program consisting of workshops, games and discussions designed to introduce them to the fun and responsibilities of college life. The incoming class signed an academic integrity contract, drafted by the Student Senate, to begin their commitment to the highest standards of scholarship.

Nevertheless, it was still the weekend. The first night of orientation began with a carnival complete with cotton candy, caricatures and games. Over the next couple days, the students explored the campus and South Bethlehem, met Lehigh's new president, Alice P. Gast, and participated in their first Lehigh rally. Orientation ended with an annual hypnosis show by Tom DeLuca.

□ Alla Miroshnik

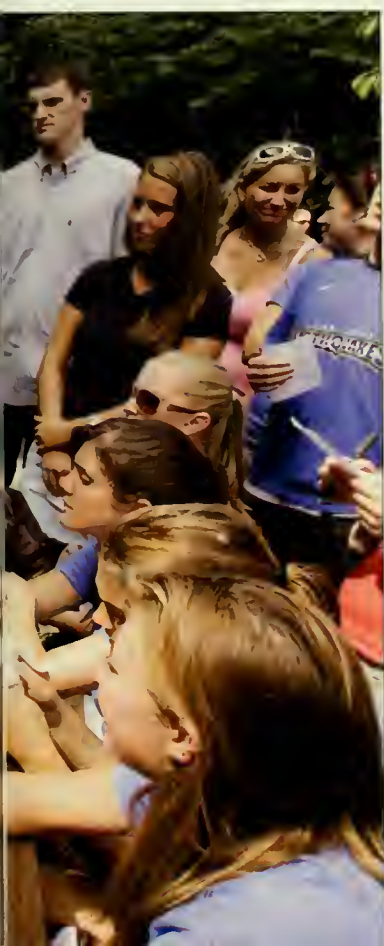

Twin setup

New roommates test out their setup. Many freshmen find themselves in rooms much smaller than they are used to and must find creative ways to arrange their rooms to maximize their space.

A break on the UC front lawn

Students, parents, and volunteers take a break and enjoy a BBQ lunch on the signature UC lawn in beautiful weather.

New beginnings

1,215 students made up one of the largest first-year classes in Lehigh's 141-year history. Together they set out to pursue their passions, develop life-long friendships and prepare for their journey into the world.

Instructions....

On move in day, there are many things to be taken care of, and students find themselves with a lot of paperwork.

Remembering a Tragedy: The September 11th Memorial

Association of Student Alumni designs, funds, and builds "living memorial" to

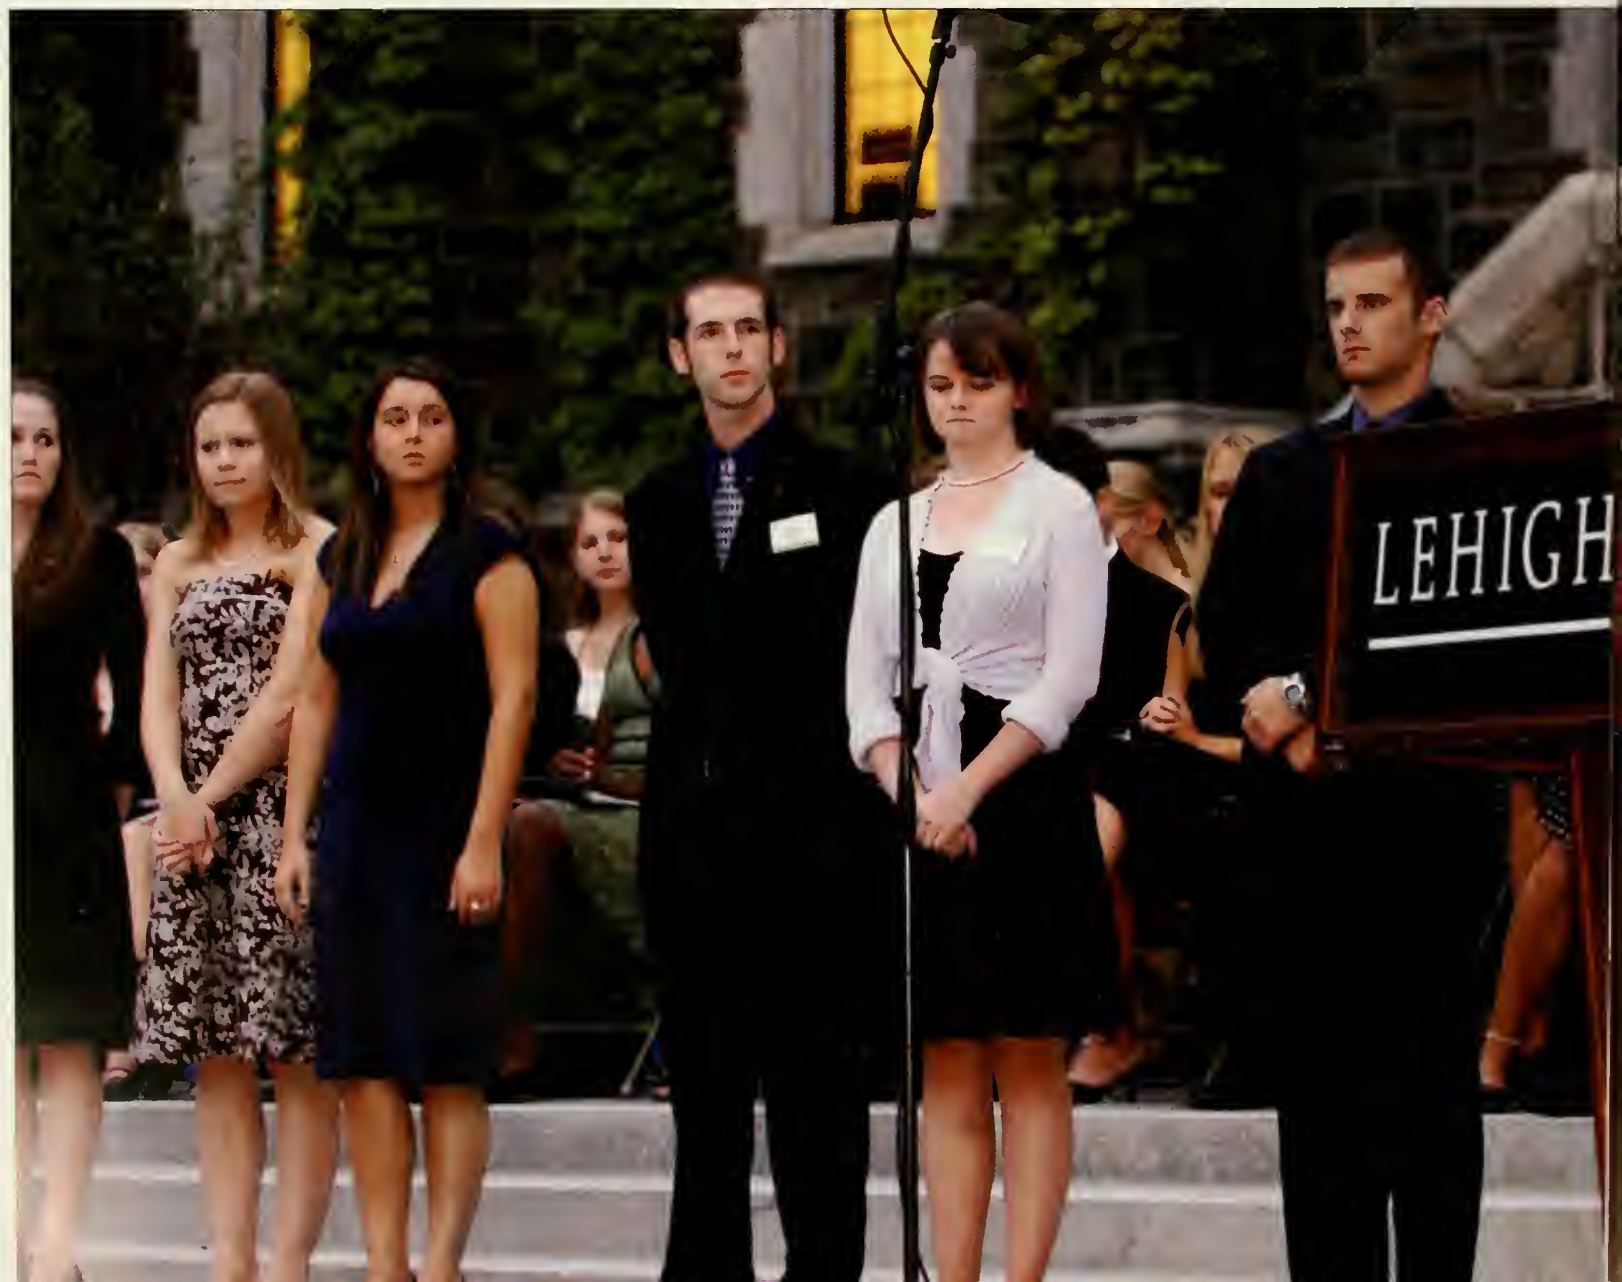

Debates carry on about what properly depicts a formal remembrance of an event. A wall of names, faceless and simple, or perhaps an obelisk or flagpole: totemic reminders of incidents past. Simple? Ornate? A scanty existent middle ground?

The Association of Student Alumni, or ASA, wished to remind the entire Lehigh University community of the void that the attacks of September 11th, 2001 left when it set out to plan, fund, and bring to fruition a monument that would adequately remember the true cost of such senseless acts of terror. As a consequence, ASA's project gave testament to our school's ability to fracture the stagnant indifference frequently surrounding such a grave event.

The monument, a curved pathway with twelve trees, each

representing a lost alum, passes gracefully and humbly beside the Alumni Memorial Building, making it particularly visible to visitors and candidate students. Each tree, a variety that noticeably blooms in September, is marked with a brown and brass plaque bearing the name and class year of each of the lost alumni.

President Alice P. Gast presided over the dedication ceremony, along with student chaplain Dr. Lloyd Steffen. The monument was described as: "a symbol of commitment; a pathway that will guide our steps as we move in this learning community, a pathway of hope where we are humbled, our feet on the ground, as we move forward and go about the business of daily living. A place to stop and reflect and be inspired by their memory."

11th Memorial

im alums

ASA termed the pathway a living memorial, because the trees will continue to grow and flourish - an appropriate metaphor for the untimely loss of so many young people. Benches were placed along parts of the path to facilitate private meditation and prayer.

Passing the memorial on the way to class, one notices a folded American flag on one of the plaques. Another bears a waving flag posted close to another name. Potential students congregating for tours in Leadership Plaza can be frequently observed meandering through the new memorial, stopping to take in the aesthetic ambience that could only exist here at Lehigh.

Founder's Day

Past and present students mark 128th year with festivities

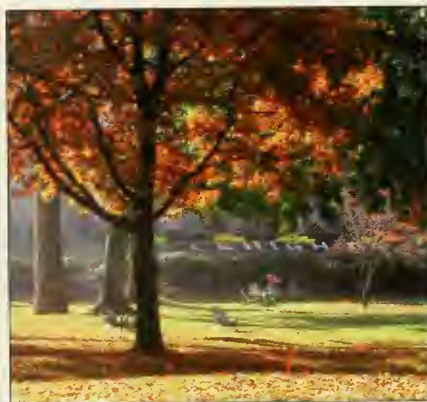

There's something special about seeing a procession of professors in traditional caps and gowns. Once perceived as a mark of respect, and largely dismissed during the post-war years as a swath of elitism, the colorful robes hold a certain formality – one that was out in full regalia during the 128th Annual Lehigh University Founder's Day.

Held on October 20th, an auspiciously crisp fall afternoon, this year's Founder's Day reflected largely on the financial aspect of Asa Packer's five hundred thousand dollar endowment to the university in 1865. The Lehigh community welcomed the newly settled President, Alice P. Gast, who gave the keynote speech in Packer Memorial Church.

Gast remarked on the importance of endowed departmental chairs and how Lehigh must increase its number to better compete with other institutions. A new program of highlighting names in gold on the benches of Leadership Plaza of donors whose contributions were in excess of ten million dollars was also introduced by Gast.

A reception on the recently completed Memorial Walkway took place immediately following President Gast's address. Traditionally, a variety of special events mark the Founder's Day festivities, such as a festival in Campus Square in 2006, or a march around Bethlehem led by Asa Packer impersonator extraordinaire George Miller.

□ *Trevor J. Drummond*

Holly | Canada

Asa Packer campus in fall

A spectacular and varied arrangement of trees and other decorative landscape blanket the Asa Packer campus in color in the fall. This is no less true on Founder's Day, when students past and present set aside time to remember the man and the mission that founded Lehigh University.

Halloween Week

Double, double, toil and trouble

This Halloween brought about some creative costumes that were indicative of this year's events, including Steve Irwin with a stingray through his chest and Samuel L. Jackson covered in cobras. Students got into the holiday spirit by attending Terror at Twilight, a drive-in showing of "The Shining" in the parking lot behind Stabler Arena. Students who wanted to get away from campus were able to attend Halloweekends at Dorney Park. Because Halloween fell in the middle of the week, students had the opportunity to dress up as somebody else for two weekends of festivities. People were seen in costumes roaming the Hill, hitting up local bars, and even cheering on athletic teams in the freezing cold.

But Halloween was more than just an excuse to party; students volunteered their time to help out at Lehigh's 5th annual Spooktacular. The Community Service Office sponsored this event, which provided numerous Halloween activities for the children who live in the Lehigh area. Other activities that students were involved in included aiding in a nursing home's Halloween party and assisting at the Boys and Girls Club of Easton for its Halloween events. This holiday was an enjoyable way to forget about classes and spend time with friends while supporting the surrounding community.

Elizabeth S. Lehman

We're not in Kansas anymore...

Heidi Shanbeck '09, Sarah Miller '09, Liz Jenkins '09, and Mairin Augustine '09 pose for the camera dressed as various characters ranging from the land of Oz to the wives of Stepford during a Halloween party held on Summit Street.

Trick or Treat!

Two boys from Bethlehem are all ready for this year's Spooktacular, complete with chilling costumes and candy bags to be filled when trick-or-treating at the Trembley Park apartments.

Team Zissou unite!

Greg Patchak '09, Michael Casella '09, and Chris Caputo '09 join forces as characters from The Life Aquatic with Steve Zissou during a Halloween party at Sigma Phi Epsilon.

Holiday spirit

Two jack-o-lanterns carved by South Bethlehem children are proudly displayed at the Psi Upsilon Frot.

Family Weekend

Parents and students enjoyed a beautiful fall weekend together

After two long months without parents and family around, Family Weekend comes just in time to help students de-stress and have fun with their families. This year, Family Weekend was full of exciting events for everyone including open houses, guided tours, dinners and more. On Friday, parents had the opportunity to join their children in their classes, participate in a number of different tours of the campus or historical South Bethlehem, as well as view the work of some of the best and brightest artists at Lehigh in the NCC Fowler Family Center.

Saturday was a packed day. In the morning, families had the opportunity to attend sessions about the core courses of each college. In addition, each major offered in the Engineering College opened its doors for family members to visit. Faculty from the Business School made themselves available for any parents who had questions. However, the event many family members looked forward to was the Lehigh football game! This year we played against league rival Colgate, and the fans in the crowd were both Lehigh students and their family members cheering for the Mountain Hawks. Colgate was defeated soundly, 23-15, in an exhilarating game. Afterward, there was a luncheon in the Rauch Field House with delicious

food, which was so good it was sold out! For dinner, families had the chance to join Lehigh's president, Alice Gast, and her family for an evening of food and good conversation.

On Sunday morning there was the Family Weekend 5K Walk/Run to raise money for children in Southside Bethlehem and a Multicultural Affairs "meet and greet" brunch. That afternoon there was a sold out architectural tour of campus given by Professor Christine Ussler, a faculty member of the Art and Architecture department, and Pat Chase, Director of Facilities Planning, which highlighted the unique architectural features of the Asa Packer Campus.

During the weekend, families and students also had the option of going to see some of the performances at the Zoellner Arts Center. The play, *Inherit the Wind*, is based on the 1925 Scopes Trial which resulted in the conviction of John Scopes for teaching Charles Darwin's theory of evolution. Also, the Philharmonic and Choral Arts teamed up for Carl Orff's ever-popular *Carmina Burana*. There is no doubt that Family Weekend was a blast for everyone involved! There were many fun and exciting activities, and everyone was able to relax with their loved ones.

Erin E. Pichlak

Quality time with mom

Many of the students enjoyed the game with their parents on a beautiful Saturday afternoon.

Packed stadium

With it being Family Weekend, the Lehigh-Colgate game drew a large crowd. The Lehigh side was filled with families and students cheering for the Mountain Hawks.

Fun for all!

While some students spent time with their parents at the football game, others tailgated with their friends.

Enjoying the game!

Parents and students watch the Lehigh vs. Calgate game while sitting on the stadium lawn.

It's Showtime at Zoellner

A variety of shows were performed this fall season

Zoellner started the year off with a bang! The Say Word! Hip Hop Festival brought students and residents from Bethlehem together for a two week long festival filled with workshops and performances. GuildWorks set up kites and the band Nickel Creek performed. Different aspects of hip hop culture from beat boxing to women in hip hop were discussed. There were giveaways, raffles and an overall good time by all who were able to partake in the events.

The Department of Theatre also had their share of performances in Zoellner this fall. They started off with *Inherit the Wind*, directed by Anna Benziger, '07, a courtroom drama about the theory of evolution and the 1925 Scopes Monkey Trial. Around the same time, the theatre department also put on a few Blackbox Theatre productions, including *The Mercy Seat*, *Bug*, and the well known musical *The Fantastiks*.

LU Choral Arts, Wind Ensemble and the LU Philharmonic also had several performances. The *Carmina Burana* performance included both the LU Philharmonic and the LU Choral Arts together to put on a celebratory 10th year production. There was also the Christmas Vespers concert in Packer Chapel during the holiday season by LU Choral Arts. LU Wind Ensemble had a unique performance of music from around the world in *Winds of the World* that included a nice mix of American and many other composers.

□ Brittany A. Lewis

A busy season!

With nearly 50 performances and gallery exhibits in the fall the Zoellner Arts Center had plenty of different choices for everyone to enjoy.

The Lehigh-Lafayette Rivalry

An annual tradition with spirited and unyielding vision

November 16, 2006's Lehigh-Lafayette game was the 142nd meeting of the two teams. Armed in brown and white, Lehigh students swarmed Lafayette's stadium for the game. The players and fans of both teams were ready for a fight; although Lafayette had won the last two meetings, Lehigh had a strong Patriot League record.

Lehigh fans began preparing for the game before their arrival at the gates. While many fraternities and off-campus houses boasted the regular Lehigh-Lafayette parties, the social scene was a bit quieter this year. University organizations promoted spirit events that included the entire campus. On Monday, the Association of Student Alumni passed out Mardi Gras beads to students. Students could be found standing in line in the UC on Tuesday to receive Mountain Hawk tattoos. The next day, students and faculty braved the frigid temperatures and torrential rain for the intramural office's annual Turkey Trot, a road race that wound itself around Lehigh's campus. Later in the evening, students, football players, and Head Coach Andy Coen flocked to the Hawk's Nest for The Brown and White Ice Cream Social. The Spirit of Lehigh Parade sponsored by the Class of '09 was a new

event this year, where students were invited to parade around campus on "floats." Later in the evening, the annual Rally on the Hill called more than 800 students to its stage for an evening pep rally on Chi Phi's front lawn.

Coen, Lehigh Assistant Football Coach for six years, took the title of Head Coach in the 2006 season. The 142nd Lehigh-Lafayette game was his first as Head Coach. The start of the game thrilled the crowd with Lehigh's opening kick-off. After just the start of the first quarter, Sedale Threatt, '08, scored a touchdown to give Lehigh a 7-0 lead. Much of the rest of the first half was grim for Lehigh. In a last-ditch effort for the first half Threatt scored a touchdown on a three-yard run with fifteen seconds remaining. After the final play, the crowd and players were riled up to begin the second half. Unfortunately, Lafayette dominated most of the second half, and beat Lehigh, 42-27. The season ended with a win for both teams, however, with a share of the 2006 Patriot League crown. Although it was an upset for Lehigh, we must applaud both teams for their valiant efforts and sheer determination and look forward to the 143rd game at Lehigh next year.

□ *Kimberly N. Gagnon*

Lehigh is burning up!

Four sisters of Alpha Gamma Delta sorority push their penguin, Christine Pacioretti '08, down Memorial Walkway in a home-made float during the Spirit of Lehigh Parade.

A fierce battle!

Frank Travato, '07, runs hard as he dodges two Lafayette players in a close game.

Burning spirit

The crowd celebrates when Lehigh scores! The enthusiastic Lehigh supporters cheered on the players during the entire game.

Cheering on the team

Lauren Korzeniewski '09, Samantha Stillman '09, and Lauren Campo '09, are bundled up and ready to cheer on their team from the bleachers of Lafayette's Stadium.

Starting a Tradition to Fight for the E

Students and faculty attended various events to learn about the importance of s

This year marked the first annual Sustainability Week, sponsored by Students for Sustainable Development and the Global Union. Throughout the week, events were held to demonstrate the importance of using the Earth's resources so that future generations will be able to sustain life. The events also promoted awareness of the poor conditions of food and water that exist in other countries.

Students had the opportunity to interact with David Dunham from Smarter Fuel, Gary Falasca, Director of Facilities Services, Dr. Al Wurth, Associate Professor of Political Science, and Dr. Edward Levy, Director of the Energy Research Center in a green energy discussion panel. One of the main concerns was that energy consumption from transportation at Lehigh was too great with the majority

of it stemming from personal vehicle use. It was agreed that in order for Lehigh to change as a whole, many students need to undergo lifestyle changes regarding energy usage. Students debated over whether competitions among residential halls to reduce energy would be a viable idea.

During a luncheon held for students and faculty, Stanley Laskowski of the Philadelphia Global Water Initiative, presented the importance of water in the world. A short movie was shown in which it became evident that too many people do not have access to clean drinking water. Mr. Laskowski discussed the progress of the millennium goals, specifically the UN's 2015 initiative to reduce half of the percentage of people who don't have clean water or basic sanitation.

Environment Sustainability

Slow Food USA came to represent its nonprofit organization, which promotes the food traditions of local areas and the idea of taking time to enjoy a meal. Slow Food International started in Italy in 1986 and quickly expanded through its chapters called Convivia, and its Terra Madres, world meetings of food communities held every two years.

To cap off Sustainability Week, a distinctive dinner was held at Rathbone called "A Taste of Latin America." Locally grown foods contributed to a Central American theme complete with decorations and a Mariachi band. This week was a great way to get students to try and live a more green life while teaching them about the importance of sustainability.

□ *Kevin W. Myers*

Say cheese!

Nick Kastanga '09, Eric Putnam '09, and Gemma Kite '07 pose with Stanley Laskawski after his presentation on the importance of water.

Polly quiere una galleta

A colorful parrot graces Rathbone Dining Hall as part of the decorations for the Central American themed dinner.

The Green Team

David Dunham answers a student's question as the rest of the panel; Gary Falasca, Dr. Al Wurth, and Dr. Edward Levy attentively listen.

Linderman Library Returns

130 Year Old Library Restored to Turn of the Century Opulence

To many students, past and present, the very idea of changing Linderman Library brought a sense of fear – fear that the place where they studied for their first final or met their first friend would be sterilized. The image of a reborn stalwart of learning, whitewashed and plastered, cleaned and organized, encompassing all the details that simply don't fit into the classical picture of academia, was whispered and editorialized in the months following the closure. Articles and underground preservation movements challenged former President Gregory Farrington and Anthony Corallo, Vice President for Development, on their freshly sketched brainchild.

Following a “soft opening,” on March 19, 2007, the entire campus was welcomed to explore Linderman. Maps and tours were given, the dust settled, and the general consensus seemed to be best summed in the word: “wow!” Bathrooms featuring period tile motifs on every floor, new stonework on the outside of the building masking ramps and emergency stairs, hidden plumbing and electrical work, and *real* Terrazzo flooring in rebuilt areas were largely overlooked yet intrinsically important features of *new* Linderman.

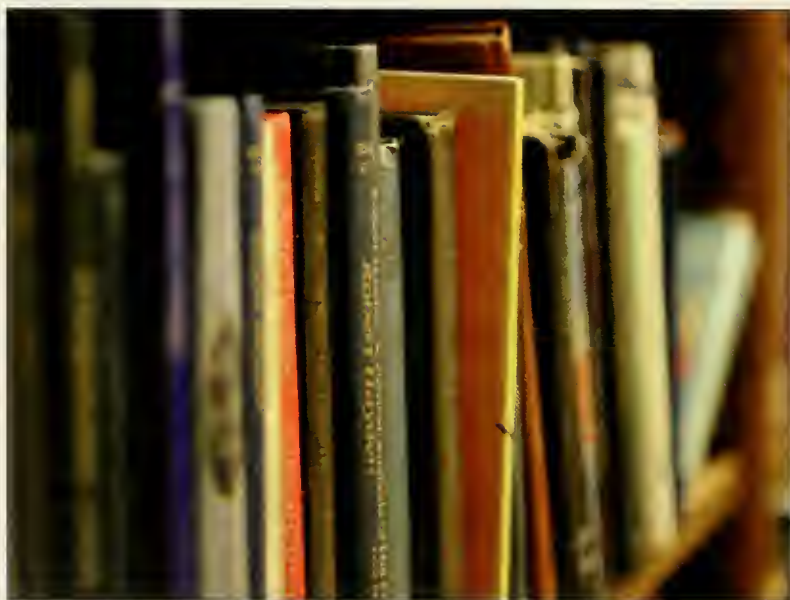

Fourteen shades of gold were tested before one was picked to

restore the ceiling of the famous 1929 Reading Room. Modern touches were sparse and subtle in their execution – computers hidden in desks that appear to have always been there, and wireless routers that are largely invisible create the mammoth infrastructure improvements that were so badly needed before the renovation.

And yes, Virginia, there is a café. Arguably the most disputed of the new features, the café fills the space in the first floor of the 1879 Rotunda. Warm wood and metal touches, as well as well-crafted new old-looking nooks make the café unobtrusive and private – something few expected. No expense was spared; those comfortable black office chairs in almost every seminar and class room? Those are Knoll Chadwick chairs, which the Knoll lists as costing approximately \$1,085 per basic chair.

It is anticipated that this renovation of Linderman will be the last major overhaul for the building for many years to come. After all, why settle for years of small and not so subtle “quick-fixes” that only detract from a unified space, when all the small problems that exist with old spaces can be wrapped and repackaged so elegantly in one sweep?

□ Trevor J. Drummond

Shane M. Teresi

Back where they came from

Linderman's centuries-old book collection, having been in storage for over two years, has been carefully returned & re-catalogued. Many books still retain their punchcards - a holdover from Lehigh's technological past.

1929 bay window seats

Refinished oaken detailing compliments a set of leaded glass windows, set for eternity in gray college gothic stone. Podded seats provide nooks for informal studying and sleep.

Settling in

New lighting, evocative of the 1929 Reading Room's period, graces the original oak tables. Students took advantage of the sprawling space that Fairchild-Martindale's study carrels just don't offer.

Preservation & protection

Linderman's unique rotundo - one of the first of its kind in the nation, is complimented by interior Victorian motifs in both the signature stained glass skylight, and four-story spiral staircase.

Welcome Dr. Gast

Lehigh's Lucky #13 kicks off her term

Accreditation committees, offers of tenure, and Presidential Inaugurations all belong to an exclusive league of events which only happen once in a decade or more. The ceremonies following the selection of Dr. Alice Petry Gast as Lehigh's 13th University President took place from April 12th - 14th, 2007. A symposium series featuring notable students in the subjects of politics, science, and the liberal arts kicked off the celebration, followed by a formal inauguration on Friday the 13th – appropriate, considering that Dr. Gast is Lehigh's 13th President.

The program of events from the ceremony featured Dr. Gast's previous colleagues from her positions as Vice President for Research and Associate Provost at MIT and friends from her time at Stanford and Princeton. Gifts ranging from a copy of Lehigh's first course catalogue to an honorary Mountain Hawks jersey were presented to Dr. Gast. Blessings from University Chaplain Dr. Lloyd Steffen and The Right Reverend Frederick Borsch were also proclaimed in the spirit of the event.

A Family Day of Service extended the inaugural celebration into Saturday where Dr. Gast participated in the creation of a public mosaic and mural along the under-construction Bethlehem Greenway – a beltway of public parks taking the former railway right-of-way, which will act as a symbol of community and campus unity.

□ *Trevor J. Drummond*

The new President and her family join the Lehigh family

Dr. Alice Gast and her family walk down to the stage. Her husband is Bradley J. Askins, a computer scientist specializing in the performance of large scale databases and computer systems. The couple have two children: Rebecca, 11, and David, 9.

Special gift

Scott W. Wojciechowski '09, representing the university's undergraduate students, unveiled a personalized football jersey with "Gast 13" on the back while the crowd roared with laughter.

Formal investiture

Mace Bearer, Dr. James R. McIntosh presents the university moce to Dr. Gast.

President address

Newly inaugurated President Gast addresses the crowd. She outlined three areas where the university "can help change our community, the nation and the world."

Spring Spectacles

Music, art, and theater were all in full swing.

During the spring semester, many performance groups were busy preparing for plays, concerts, and songs for the Lehigh community to enjoy. The two major plays were *Three Sisters* by Anton Chekhov and *Red* by Chay Yew. *Red*, the first Asian play performance at Zoellner, described how the ancient art form of Beijing Opera became a dangerous game of new politics versus tradition at the time of the Cultural Revolution. In addition to these two plays, there were several Black Box Productions including *Polaroid Stories*, directed by Rowan Meyer, '07, and the One Act Festival, six one act plays directed by the students of Beginning Directing.

The LU Choir and Choral Arts performed *Life is a Cabaret*, Stravinsky's *Symphony of Psalms*, and Faure's *Requiem*. The orchestras and bands played throughout the spring with notable acts such as LU Philharmonic's *UNPLUGGED II* and the *French Connection* and the LU Wind Ensemble's *Sunday in the Park* program.

Also, there were many guest performances including appearances from Cirque Eloize, the State Ballet Theatre of Russia, Spain's dance troupe, and artist Anoushka Shankar to name a few. Britain's oldest opera company also came to perform *Pirates of Penzance*.

Besides the many performances, students and the public enjoyed the exhibits in the art gallery that included the Visual Semantics of Diaspora and the Bach Choir.

□ Regina R. Du

Three Sisters

Three Sisters portrays the lives of a group of sisters played by Leigh Dugan, '07, Nicki Hunter, '09, and Bess Rowen, '09, in a once privileged family during the approach of the Russian revolution as they struggled with love, life, and loss.

International Bazaar

Cultural organizations across campus came out for the 20th bazaar

On a beautiful, sunny Sunday afternoon, the International Student Bazaar celebrated its 20th anniversary with more than 20 native performances, 34 table displays and ethnic food stands. The bazaar was held in front of Fairchild-Martindale library and allowed students of all cultures and countries to express and share their culture with the Lehigh community. Some of the participating organizations include the African Caribbean Cultural Club, Asian Cultural Club, Hellenic Club, and the Indian Club.

There was traditional dancing from Indonesia, Philippines, China and Thailand. Middle Eastern belly dancing, Irish dancing and salsa were also performed. In addition to the dances from around the world, swing dance was also part of the program as well as a performance from the Lehigh University dance team showcasing American dancing.

The wide array of food is always a main attraction of the International Bazaar. Many organizations prepared ethnic food. This year it included Thai, Gyoza (Japanese dumplings), Korean barbecue, Niku jaga (Japanese beef stew), Turkish shish-kabobs and many other dishes. People can try almost anything at the Bazaar with so many different choices.

Besides the food, other tables presented a variety of crafts and jewelry for the visitors to enjoy. Among them, the Global Citizen's program booth sold merchandise with the hopes of raising money for South African students.

The annual fashion show allowed participants to show off their traditional clothing from around the world. It ranged from Korean kimonos, African robes to "American" jeans. The participants not only got to dress in their traditional clothing, but they also had the opportunity to speak in their native languages.

Besides the dancing and fashion show, there were other performances. Students played the accordion and traditional Chinese music on the piano. Also, several students displayed their skills with the Chinese yo-yo.

The bazaar has gained popularity over the years with an increase in non-international students present this year. It is truly a unique and fun experience for students to see, eat, and learn about other cultures. This year's bazaar was a great success with its diverse display of cultures and increased popularity among the students at Lehigh.

Greek Week 2007: Let the Greek C

The traditional weeklong celebration united the Greek community under a com

Greek Week once again demonstrated the camaraderie and fellowship that the Greek system is meant to embody. The weeklong celebration brought together fraternities and sororities in a number of events from sporting activities to beauty contests. Although Alpha Omicron Pi and Theta Chi took top honors, everyone enjoyed the fun activities and friendly competition.

The opening ceremonies really set the pace of the entire event as DJ Scrilla got the crowd moving. The festivities continued into the evening as Chi Phi and Alpha Chi Omega let brothers and sisters release some pent-up aggression with sumo wrestling and an intense game of tug-of-war. Each sorority and fraternity sported their unique themed costumes

as they ran relay races and competed for points, for glory and for pure fun.

Traditional bowling was turned on its head with a new addition to the event roster this year. Sigma Alpha Mu and Alpha Phi turned students into bowling balls with the help of a few Slip-N-Slides, and the game hasn't seemed the same since.

The celebrations continued throughout the week, including Theta Chi Sweetheart, where members from each sorority participated in a beauty contest with evening wear, swimsuit, and talent competitions. Gladiator, which was hosted by Delta Tau for the first time due to Crow's absence from the hill, was also another event that took place.

Times Roll!

on bond of fraternal friendship

By the end of the week, all were eager to show off their dancing skills and bust a move in the annual dance competition. After hours of practice, each sorority and fraternity gave great performances. Lambda Chi Alpha and Alpha Omicron Pi walked away as the winners of the dance competition.

Change may have affected the events themselves, but the spirit of Greek Week lived on this year unaltered. As the Greek system had its festivities, it still gave back to the community with funds collected during the Penny Wars. All in all, Greek Week 2007 showed just what it means to be a sorority sister, a fraternity brother, and a member of the Lehigh family.

Bull riding was one the individual games that Greek members were able to participate in.

Sundaze

Fun in the sun for everyone

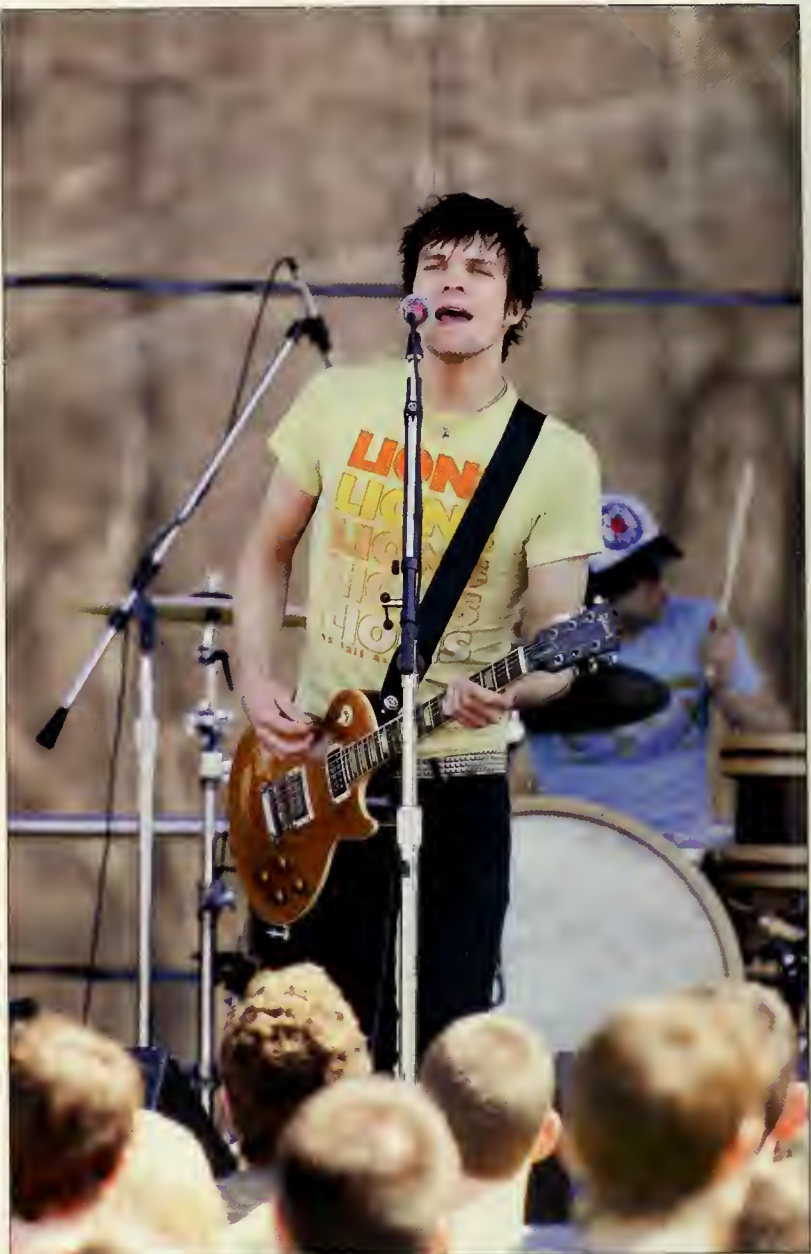

At the end of April, University Productions capped off Greek Week with a free giant music festival, bringing in some great bands as well as the most important component; sunshine. Students and others gathered on Sayre field to enjoy a beautiful spring day filled with frisbee, inflatable gladiator, and upbeat musical groups.

The headliner of Sundaze was Hellogoodbye, whose enthusiastic antics included colorful confetti and female students dancing on stage during the performance. Other bands included The Blue Scholars and Boys Like Girls. The Hush Sound was unable to attend because of transportation difficulties. The opening band of Sundaze was the winner of Lehigh's Battle of the Bands, J. Wok and the Pedestrians.

Students took full advantage of the nice weather by throwing footballs and frisbees, as well as playing soccer. There were also numerous inflatable games to play, including laser tag. Concessions were available, and students left with prizes and free giveaways. It was also a great day to just lie in the grass, relax with close friends, and listen to live music.

With such a great line-up of rising bands, University Productions will be hard-pressed to top this event next year.

A fight to the death

Two students play around on the inflatable gladiator, each one trying their hardest to knock the other onto the ground.

Rockin' out

A plethora of Lehigh students gather in front of the stage patiently waiting for Hellogoodbye to start their next song.

Mountain Hawks

ATHLETICS

soaring toward one goal

There is no greater rush than the feeling of cheering on fellow Mountain Hawks as we score a goal, go for the touchdown, or make the winning basket. Whether a team is battling it out against rival Lafayette or one of our other Patriot League competitors, the pride we have for our teams is undeniable. The work hard attitude we have in the classroom is carried out into the athletic arena, because giving anything short of our best is unacceptable. The score may not always show us as coming out on top, but our hard work ethic, teamwork and desire to compete will always keep us at the top of our game. As athletes at Lehigh we pour our hearts out on the fields, courts, tracks, and pools. We give it our all because as students at Lehigh, we give nothing less. Each time an athlete steps out to play in yet another match, game or meet, we leave a piece of ourselves out there, in the name of Lehigh, because the Brown and White is what we stand for.

Another winning year for the Lehigh Mountain Hawks *Champions Year Round*

Led by 25 seniors this season, the Mountain Hawks experienced a rollercoaster of highs and lows, ups and downs, triumphs and moments of despair. The season never ceased to amaze fans and was nothing short of exciting.

Andy Coen spent his first season with the Hawks, becoming Lehigh's 28th head football coach in the school's history.

The team got off to a rocky start, beginning the first six games of the season with a record of 2-4. The Hawks, however, were able to turn around their game and win the next four games in a row, which started with a home-turf trouncing of Patriot League rival Bucknell, 38-7.

The team's winning streak was cut short in the last game of the season, when the Hawks lost to Lafayette in the 142nd meeting between the battling schools. After overcoming a second-quarter deficit, the

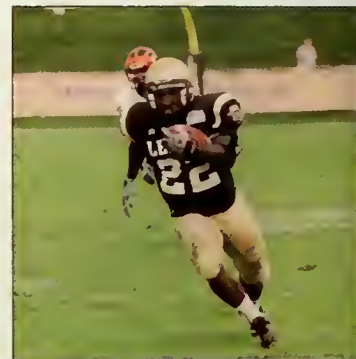

Hawks bounced back in the second half, only to have the Leopards come back with an even stronger force. The final score of the game was 27-49.

Lehigh ended the season 6-5, with a record of 5-1 in Patriot League play. The Hawks shared the 2006 Patriot League crown with Lafayette, who also had an in-league record of 5-1.

The share of a Patriot League championship title was the eighth for the Hawks, which is the most of all teams in the Patriot League.

Overall, the season was a success for the Hawks, who had fourteen players recognized with All-League honors. Sophomore Jason Leo was named the Patriot League Special Teams Player of the Year, and the Hawks placed a league-best ten players on the first-team and four on the second-team.

Record 6 - 5

Seniors and freshmen lead *Finishing Strong*

The women's cross country team was off to a great start even before their first meet. In pre-season, the Patriot League ranked the team second out of eight teams.

The Mountain Hawks lived up to expectations by placing first at the Lehigh Valley Championships held at Goodman Campus. Seven runners were among the top ten finishers. Seniors Jennifer Schappert and Sarah Seiler led the team with first and fourth place respectively, while freshman Kaitlin Grimm came in fifth.

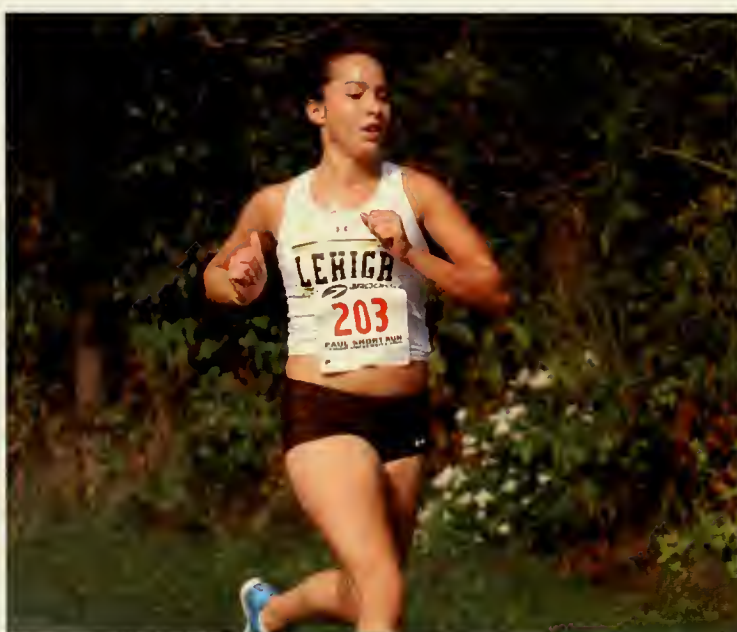

The second race was another win against rival Lafayette for their 22nd meeting. Schappert took first place, and Shannon Alejandro, '09, placed third. In late September, Lehigh hosted the Paul Short Invitational, where the team placed 14th. The team participated in two additional meets, and then finished the season at the NCAA Mid-Atlantic Qualifiers.

The Patriot League named Kaitlin Grimm the Rookie of the Year, and seven Lehigh runners were named to the Patriot League's Academic Honor Roll. Schappert was selected as an All-Patriot League Performer and the League's Scholar Athlete of the Year. Although the team is losing several outstanding seniors, they are excited about the many talented members returning for the 2007 season.

□ Julie K. Ellis

An impressive debut

Kaitlin Grimm, '10, became the first ever Lehigh athlete to be named the Patriot League's Rookie of the Year.

Race to the Endline

With six seniors leading the Mountain Hawks this season, the team was never far from the finish line. Seniors Sean Swift, Victor Vientos and Brendan Glover proved to be a fast, competitive trio and a threat to the competition.

One highlight of the season was Lehigh's victory over rival Lafayette in a dual meet. The men outran the competition for the eighth year in a row, with eight runners finishing in the top ten. Swift earned the individual title in the 8K.

Lehigh hosted the 33rd annual Brooks Paul Short Run, which included more than 220 collegiate and high school cross country teams. In the race, the Hawks finished 13th out of 42 teams. The race also was a personal success for Swift, who ran his fastest time of the season, as well as his fastest Paul Short time, as he ended with a time of 24:33. For his accomplishments, Swift received the title of Patriot League Runner of the Week.

In the Patriot League Championships, the Hawks were also successful, finishing fifth out of eight teams with a total of 119 points. Swift was the first of the men to finish, placing 17th. His teammates were not far behind, as seniors Glover, Vientos, Steven Rosinski and sophomore Jonathan Wetzel claimed places 24 through 27.

Racing for the finish

Steve Rasinski, '07, shows speed and determination as he runs ahead of the competition at the Paul Short Invitational. Rasinski finished 136th out of the Invitational.

After a successful season, Lehigh looked to dominate

Remaining Close to the End

The 2006 season began with lofty expectations. After a record setting season, the Mountain Hawks were the preseason pick to win the league. They battled a string of injuries to key players but still managed to qualify for their third consecutive Patriot League tournament, largely in part to the contributions of the most successful senior class in program history.

A rash of injuries, combined with a more challenging out-of-conference schedule, did not make things easy for the Hawks, who finished the season at 8-9-1. Lehigh, however, did have a penchant for late-game heroics as ten of the team's 25 goals came in the 75th minute or later.

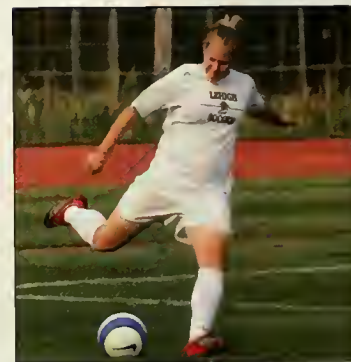

The trend began on opening night when Lehigh, trailing visiting Marist 1-0 in the 90th minute, scored the equalizer as sophomore Hailey Coonrad headed home a free kick to tie the game with just

12 seconds remaining, which led to senior Daniela Piper's overtime game winner.

Needing a win in the regular season finale vs. Holy Cross, Lehigh spotted the visiting Crusaders a 1-0 lead after an opening minute goal. Junior Jen Fetsick scored the tying goal early in the second half, and then scored the game winner in the 88th minute to propel Lehigh to the Patriot League tournament, where the Mountain Hawks fell to the eventual tournament champion, Navy, 0-2.

Lehigh's senior class leaves Lehigh with 43 total victories, three Patriot League Tournament appearances, one Patriot League Championship game appearance, and one Patriot League regular season co-championship. Despite the loss of the prolific senior class, a strong returning group will give Lehigh plenty to look forward to.

Record 8 - 9 - 1

First time appearance in the 3rd round of the NCAA *One for the Record Books!*

Before the start of their Sweet 16 game against Duke, the Mountain Hawks had already achieved much success. Lehigh became the first team to go undefeated in Patriot League play without a tie in the league's history, broke multiple program records, combined for twenty six weekly awards that came from the league or national level, had five players named to the All-League teams, earned the Patriot League Coach of the Year and Defensive Player of the Year honors and placed one player on a national All-Rookie team. The 2006 team also became the first team in program history to advance past its opening game of the NCAA tournament.

During the regular season, the Mountain Hawks went on a seventeen game winning streak. In the postseason, Lehigh fell to Bucknell 4-2 in a shootout in the semifinals of the Patriot League Tournament after

playing to a 1-1 draw.

However, that did not stop the Mountain Hawks from advancing into the NCAA Tournament, as Lehigh not only received a bid to play, but also was one of the 16 teams to earn a first-round bye. In the second-round game against Rhode Island, the Mountain Hawks erased a 1-0 deficit with 6:34 remaining. Lehigh and Rhode Island battled to a 1-1 tie at the end of double-overtime. After a 5-4 shootout, Lehigh advanced to the third round against top-seeded Duke. The Blue Devils defeated Lehigh 3-0 to advance to the quarterfinals of the NCAA Tournament.

Much of the team's success has been attributed to the team's desire to achieve the same goal. As a result, Lehigh concluded the season 15-2-3, recording the most wins in program history.

Team overcomes key losses *Putting up a Good Fight*

After qualifying for the Patriot League tournament in each of the previous two seasons, expectations were high for the Mountain Hawks in 2006. Lehigh's Field Hockey team continued to work hard and were able to raise their level of play, but the team finished with a frustrating 5-12 mark and missed the postseason. Still, the season left some positive impressions. With a number of key contributors returning, there's no reason why the Mountain Hawks won't get back to where they want to be next season.

One of the defining moments for Lehigh in 2006 was the senior day contest against perennial Patriot League champion, American. The Eagles led 5-1 with just under 30 minutes remaining, but the resilient Mountain Hawks put together an incredible comeback to force overtime. In overtime, Lehigh nearly won the game when Christine Smith, '08, hit the post. Despite the incredible comeback, American prevailed in double overtime.

Lehigh bounced back by winning its final non-league contest at Drexel and controlled its destiny for the postseason, heading into the finale at Colgate. However, the Mountain Hawks could not hold an early lead and fell 3-1.

□ *Kristen A. Dalton*

Team huddle

Mountain Hawks gather for a pregame huddle before facing the opposition. The Hawks have a number of key players returning next season.

Hawks endure winless season

Hope is Still in the Air

Despite the Mountain Hawks not winning a single game this season, they were still able to walk away with their pride and much hope for upcoming seasons. The team was extremely young, with nine freshmen on the roster, which is a positive sign for the future.

Michelle Schwendenmann, '07, was a guiding force for the team, never letting her leadership skills on the court disappoint her teammates. Throughout the course of the season, Schwendenmann earned five Patriot League awards, which were given out weekly. In addition, Schwendenmann was the only member of the team to earn All-League honors as a member of the Patriot League's Second-Team. Her senior year ended in high spirits, as she completed the year with the team's single season-best totals in kills and digs with 394 kills and 258 digs. Schwendenmann's personal achievements also included four straight double-double games at the start of league play.

Some of the underclassmen talent came from Brittany Thurston, '10, who ended the season on a positive note, as she was the only team member to record double-doubles against Army and Holy Cross in the final two games of the season, where she totaled 26 kills and 25 digs during the two matches. For her efforts, Thurston received a Patriot League honorable mention.

□ *Stephanie T. Magnuson*

Teamwork pays off

Hawks send seven to NCAA Qualifiers

Always Standing Out!

Always a strong program at Lehigh, the Wrestling team did not disappoint this season under the guidance of six senior wrestlers. Despite a few bumps along the way, the Hawks still boasted a strong winning record on the whole.

After winning five EIWA titles in the past five years, the Hawks were not able to make it a sixth this year, placing fourth overall in the tournament. However, the EIWA's were still a success for the team. Senior Matt Ciasulli captured Lehigh's 192nd individual EIWA title. He scored a first period take down and was then able to defeat Army's Matt Kyler 2-0 in the finals. Ciasulli was the first of seven Mountain Hawks who were able to earn berths to the NCAA Championships as a result of their play after the EIWA's.

Although the Hawks didn't have any seeded wrestlers for the first time in the last 16 years, their showing of seven wrestlers at the NCAA's was still a strong force. Among those who made it to the Qualifiers included seniors Ciasulli, Matt Cassidy and Paul Weibel, junior David Nakasone, sophomore Matt Fisk, and freshmen Seth Ciasulli and David Craig. Although no titles were won, Nakasone triumphed against the opposition in the first session of the NCAA Championships.

□ Krista A. Eccleston

Overpowering the enemy

Seth Ciasulli, '10, dominates his opponent. At a weight of 133 pounds and boasting a record of 19-16, Ciasulli was a strong force in his weight class.

A force to reckon with

David Craig, '10, takes down a member of Cornell's wrestling team in a meet between the two schools. As a freshman, Craig had one of the team's best records: 31-11.

Going for the basket

Melissa Rich, '09, goes up past an opponent on her way to the basket during a game against Princeton University. Rich averaged the fourth highest points per game with 8.

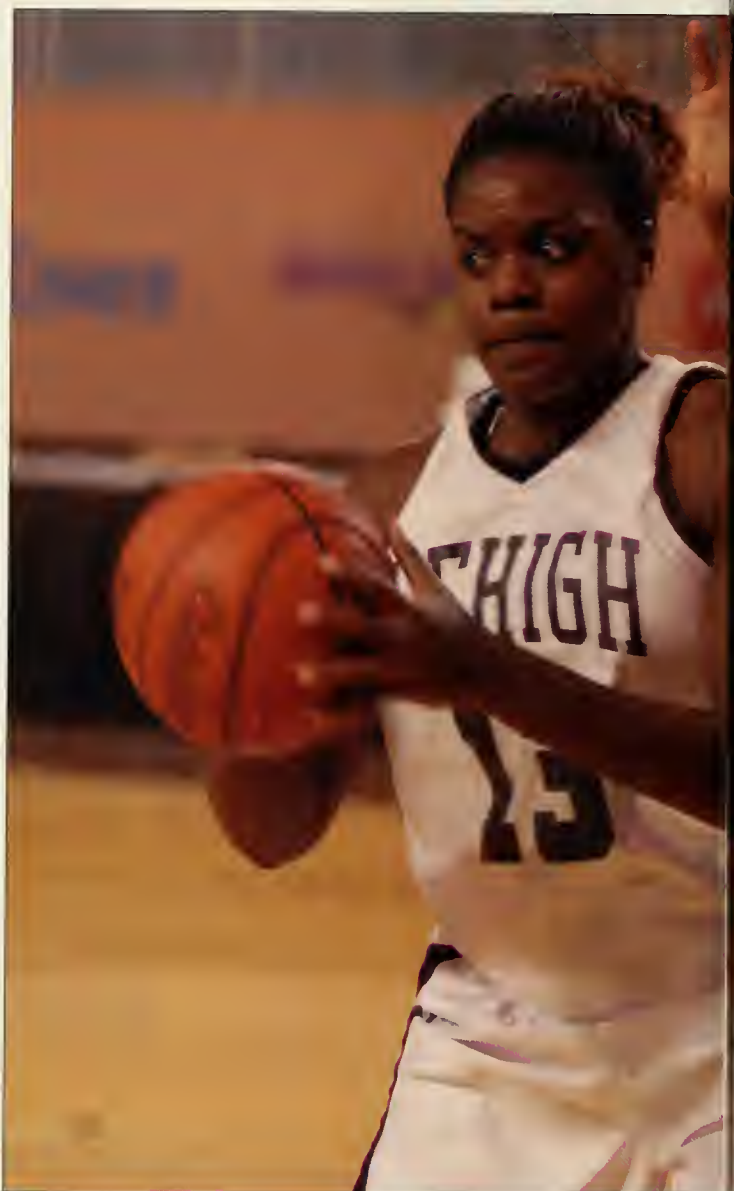

Soaring past the competition

Sara Ellis, '07, was a senior all-star and leader for the team, as she demonstrates going for the shot after defeating an opponent. Ellis averaged 9.5 points per game.

Women's basketball shows true potential

Ballin'

After losing two starters from the previous year due to injuries, Tricia Smith, '09, and co-captain Claire Sullivan, '08, knew there were some adjustments that needed to be made in order for the gears to shift smoothly into motion.

Led by co-captain Sara Ellis, '07, and forward Adrienne Blount, '07, the Hawks dominated Gardner Webb in the first round of Lehigh's Christmas City Classic. They faced Seton Hall in the finals, where Blount nailed a clutch three-pointer to tie the game at 48. With seconds winding down, Seton Hall hit a desperation shot from half-court, and the Hawks watched a chance for an overtime victory fade away. This was one of the six games they lost by five points or less.

Despite an adverse season, the Mountain Hawks came together during tournament time and defeated defending champions, Army, to advance to the semi-final round. Blount led the team with a game-high 25 points and grabbed 15 rebounds. They fell three points short to eventual champs, Holy Cross, who shattered their hopes of bringing home a title. Blount earned All-Tournament Team honors and was recognized by the league by winning a spot on the All-League second team.

They demonstrated a high level of play and an enormous amount of heart down the stretch that promises a positive future.

□ *Kristen A. Dalton*

Blount with the ball

Forward Adrienne Blount, '07, decides what her next move will be with the ball. Blount was a powerhouse for the team, scoring on average 12.5 points per game.

Team huddle

Members of the team gather for a huddle during a time out this season. While the women ended the season with an overall record of 11-19, they were 5-9 in league play.

Going for the jumpshot

Matt Shamis, '10, gets his feet off the ground to take a jumpshot from right inside the arc. As a freshman, Shomis contributed to the team by averaging 1.3 points per game.

Underclassman strength

Morquis Hall, '10, goes up for the shot as a defender makes an attempt to block the ball. As a freshman, Hall earned recognition as Patriot League Rookie of the Year.

Record 12 - 19

Seniors and freshmen guide the Hawks

Shooting for Success!

With an overall record of 12-19, the Hawks managed a .500 record in Patriot League play with an in-league record of 7-7. The team was led by senior guard Jose Olivero, who led the team in scoring with an average of 16.4 points per game. Olivero was named to the First-Team All-League for the second year in a row, becoming only the second player to receive this recognition in the school's history.

Right behind Olivero was freshman guard Marquis Hall, who averaged 10.9 points per game and was named Patriot League Rookie of the Year. Hall is well on his way to a career 1,000 points, with a total of 339 in his first year with the team. Hall, along with teammate Zahir Carrington, '10, were named to the league's All-Rookie Team, becoming the team's first duo to earn such recognition since the 1996-97 season.

The Hawks came out even in competition with rival school Lafayette college this season, with one win apiece. The Hawks were able to defeat the Leopards on their home court, but in the second meeting between the two teams, Lafayette came out on top after an intense double-overtime period.

The Hawks ended the season in the Patriot League Quarterfinals after a one-point loss to Army.

□ *Krista A. Eccleston*

Winning the jump ball

Philip Anderson, '09, out-jumps the competition during a tip-off to start off the game on a positive note. As a forward on the team, Anderson averaged 5.1 points per game.

Huddle it up

The team gathers around Head Coach Billy Taylor for a pep talk during a game. The 2006-07 season was the fifth for Taylor as head coach of the Mountain Hawks.

Four women make All-League teams

In the Fast Lane

The Women's Swimming and Diving team welcomed ten new swimmers and divers this year which added to the returning nine athletes. Although the season did not get off to a winning start, there were many successes by the end of it.

The Mountain Hawks unfortunately fell short against rival school Lafayette College with a score of 165-129. The Hawks hosted Army for their second meet at Jacobs Pool, which ended in a tight two-point lead over the Black Knights and their only regular season victory.

Despite a poor record in its dual meets, at the end of the season, the team went on to the Patriot League Championships and placed 5th, only two points behind Army. As for individual successes, the team placed four women on the Patriot League's All-League team. Melanie Rolish, '09, made the First Team, while teammates Julie Mitchell and Betsy Balaguer, '07, and Allison Rolish, '10, were named to the Second Team. Balaguer, who earned her 4th All-League honor, also won the team's Scholar Athlete award.

Melanie Rolish also broke the pool and team record in the 100 and 200 yard breaststroke and in the 400 medley relay. Balaguer and Mitchell were also on the relay team, along with Julie Sicherman, '10.

Ready to Dive in!

A Lehigh diver performs a pike for the competition.

Striving for *Solid Swimming*

The Men's Swimming and Diving Team began the season solidly at the Lafayette Relays, where they won eight of nine events. After a loss to West Chester, the team rebounded with consecutive wins over both Colgate and Rider. The men defeated rival Lafayette in a decisive 186-100 victory, where they won 13 of 16 events.

They then traveled to California, where they placed 5th of 7 teams and then returned to the East Coast, where they rounded out the season with meets against Patriot League teams Army, Bucknell, and La Salle. The men competed in the Patriot League Championships, placing fourth overall.

Several individual honors were earned by Lehigh athletes throughout the course of their successful season. Senior Tom Gilbert broke his own school record in the 200 meter backstroke. Senior Dan Johnson was the Patriot League Swimmer of the Week, while junior Clark Cohen was named the League's Diver of the Week.

Kevin McGrath was named Freshman of the Year for the team. Lehigh had five Student-Athletes placed on Patriot League All League Teams, and Tom Gilbert was the Men's Swimming and Diving Scholar-Athlete of the Year for both Lehigh's team and the Patriot League.

Women make it to the League finals

Batting Champions!

The Softball team saw yet another successful season with a virtually flawless Patriot League record of 17-1. Despite ups and downs outside of league-play, the Hawks kept their eye on what mattered most and made it to the Patriot League Championships before falling to Colgate in the finals in a closely played game, 0-1.

Although the loss was heartbreaking, the Hawks still have plenty to be proud of. The team placed a league-best nine players on the All-Patriot League teams. Kate Marvel, '08, was named the league's Player of the Year, while Lisa Sweeney, '09, earned Pitcher of the Year for the second year in a row. The third award was given to Head Coach Fran Troyan, who was named Co-Coach of the Year after guiding her team to a ninth straight Patriot League regular season title.

Marvel was the Patriot League's leading hitter with a batting average of .404 and was named to the All-League first team for the third straight year. Marvel also led the Patriot League in triples, runs scored, slugging percentage and on-base percentage. Not only did Marvel excel in the Patriot League, but she also led the nation in triples per game at 0.17.

Along with the talent and leadership of Marvel, the Hawks had seven seniors guiding the way to victory, and by the end of the season, they boasted a respectable overall record of 35-18-1.

Record 13 - 30 - 1

In a season of ups and downs

Hawks Keep on Hitting!

Persistence had new meaning for the Mountain Hawks in their 2007 season. After a rocky start, the team seemed to be picking up momentum at the Clearwater College Invitational. The Hawks defeated the Pioneers 11-10 to earn their first win of the season, a trend that continued as they went on to conquer Duquesne 11-3.

The team later celebrated two consecutive wins over the Davidson Wildcats, with 3 runs at the top of the 9th inning of the second game. This victory overshadowed their previous loss to Cornell, 7-6, a close game where the Hawks gave it everything they had and gave the Big Red a run for their money.

Shortly after, the Hawks received special honors as the Patriot League recognized Liam O'Connor, '08, as player of the week for two consecutive weeks. Joel Hockman, '07, Joe Matteo, '08, Andrew Berger, '10, and Billy Swenson, '10, also received honorable mention.

The success continued as Temple experienced a 14-4 defeat after the Hawks pulled off a ten-run first inning. Although the season came to a somewhat disappointing defeat at the hands of Army, the Hawks played their season through with a great deal of heart and determination, and such a season is never really a disappointment.

□ *Natasha A. Burns*

Up at bat

A player swings at a pitch while he is up at bat. Overall on the season, the team's batting average was .259. While the team was 13-30 on the whole, it was 5-10 in league play.

Sliding into base

A member of the baseball team slides into base head-first to avoid being out. Nick Bet, '07, had the highest number of RBIs for the team this season, with a total of 34.

Crews slice through the water

Racing Hard

Lehigh's Men's and Women's Crews started off the fall season against the University of Delaware. Varsity men's 8 cruised to a 36 second victory over Delaware, and the varsity women's 8 lost in a close battle by 0.11 seconds. The rest of the season included the Navy Day Regatta, the historic Head of the Charles Regatta, the Shore Boys Invitational Regatta, and the Frostbite Regatta where the teams finished strong with six wins.

Lehigh kicked off their spring racing season versus Drexel, Delaware and St Joseph's. Though both sides had victories, ultimately, the men's and women's varsity 8s fell. The Hawks came back at the Murphy Cup where all the Lehigh lightweights took gold medals home, and both the men's and women's varsity light 8s took first place. Against Drexel, the varsity women started the day by defeating Drexel after a dramatic come-from-behind sprint, and the varsity men's 8 won by 1.5 seconds. Lehigh traveled to the Cal Cup at the San Diego Crew Classic before placing 4th at the Patriot League Championships. At the last competition of the season, the prestigious Dad Vail Regatta, the Men's JV8 2nd place and V8's 7th place represent the best finishes for the men's team. The Women's Novice 8+ and W2-, as well as the varsity women's 8, raced hard in their semis but just missed qualifying for the Grand Finals. Overall, it was a successful season, and Denise Julian, '07, was named to the All-Patriot League team.

After a record breaking year *Another Stellar Season*

In their '06-'07 season, the Women's Golf Team truly showed the competition just what it means to be a Mountain Hawk. Starting strong in the fall and finishing strong in the spring, the team showed that golf isn't a boys' club anymore.

The team started September by finishing first at Kutztown and fourth at the Princeton Invitational, with Captain Yvonne Kukora, '08, finishing on top in both games. They followed up these victories with a score of 633 at the Bucknell Invitational, second to their hosts by only one point.

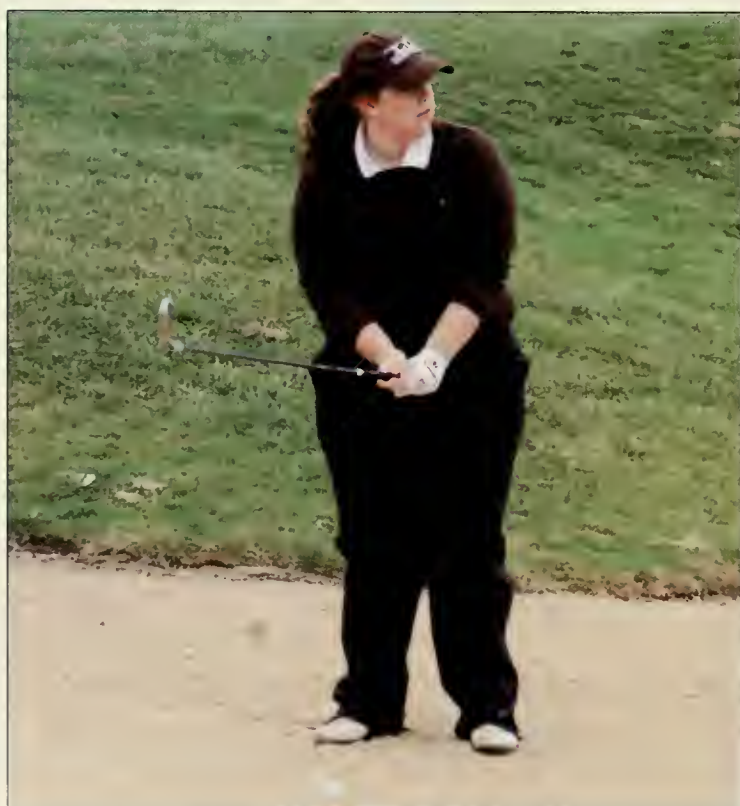

Unfortunately, the ECAC Division I Women's Golf Championship was rained out, but they didn't let this slow down their momentum as they took third at Rutgers and fourth at the Lehigh-hosted Don Mershon Invitational, closing the fall season in a respectable position.

The spring season started a little shakily at the Georgetown Invitational, where Lehigh achieved 11th place after a tough second day. Yet, the team quickly found their footing again and went on to take 5th at the Columbia Invitational. The girls finally ended the season where they began, at Kutztown, with a second place finish only 6 points behind St. Francis. A great overall season for the team, and the Lehigh community couldn't be prouder of these ladies.

Teeing off to success

Men Conquer Course

Lehigh started off the season with solid results at the Colgate, Bucknell, and Cornell Invitationals, finishing 8th, 5th, and 12th respectively. At the Yale Invitational, the team placed 6th out of 18 teams, led by senior Alan Borowsky. Borowsky finished in a tie for third place with a three round score of 219, just four strokes away from the top spot.

The team finished their fall competition schedule strong at the Don Mershon Invitational. The Hawks were tied for 2nd out of 11 teams. Borowsky had another strong showing by shooting a 151, good for 5th place.

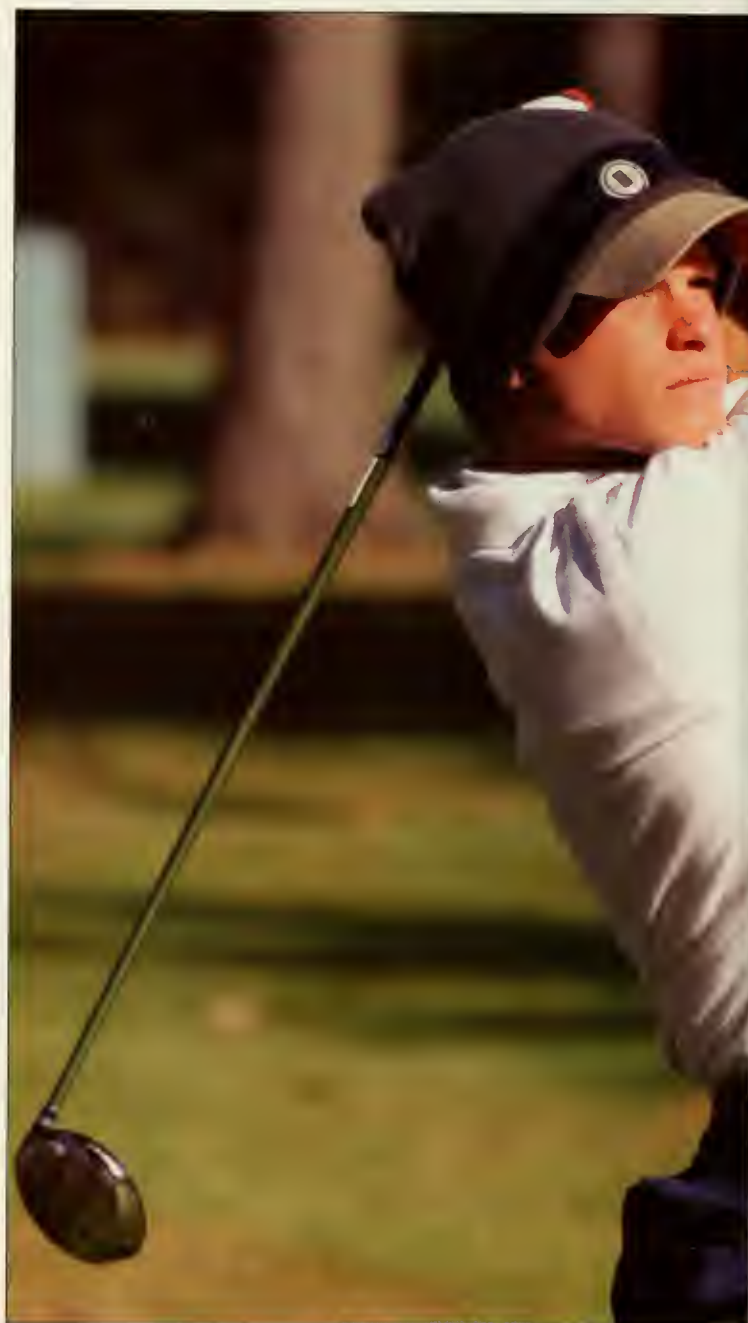

Lehigh returned to the courses at the George Washington Invitational. Borowsky and Steve Suarez, '10, led the Mountain Hawks with a pair of top-20 finishes. After a disappointing finish at Navy, Lehigh bounced back to win the Lafayette Invitational and Lehigh Valley Collegiate Invite.

Lehigh finished competition at the 2007 Patriot League Championships in 4th place. Lehigh shot a 295 led by the 2007 Patriot League co-Rookie of the Year Steve Suarez, and Matt Denison, '10. Suarez and Denison both collected First-Team All-League Honors with their performances. Suarez tied for fourth as he shot a 220 for the three-round tournament.

Underclassmen lead *A Solid Season*

Despite losing three seniors, the Mountain Hawks had high expectations for this year's season. The team got off to a great start with a win against Central Connecticut State due to the strong performances from senior Amy Chamberlain and freshman Inneke Carmola, each scoring three goals.

After losing four straight games, Lehigh won five out of the next seven games. A highlight of the season was the game against Colgate. Lehigh won for the first time in ten years, 16-14. The underclassmen showed off their skills with Carmola scoring seven goals and Sara MacIntyre, '09, scoring five.

After an exciting 10-9 victory over American in double overtime, the Hawks clinched the number-two seed in the upcoming Patriot League Tournament. Meghan Tranter, '09, scored off of a rebound for the winning goal.

Unfortunately, Lehigh could not duplicate the win and lost to American in the Patriot League Tournament. However, the season was still successful with the most wins since 2003. Christy Smith, '08, was named to the *ESPN the Magazine* Academic All-District II at-large second team, and Carmola was the 2007 Patriot League Rookie of the Year. Lehigh also placed four athletes on the 2007 Patriot All-League Teams, including First-Team selections MacIntyre and Carmola, Second-Team pick Sarah Fudin, '09, and At-Large selection Smith.

Senior quartet lead team during season

Hawks Never Stop Playing Hard

The Men's Lacrosse Team ended its season with an overall record of 4-9 and a Patriot League record of 2-4.

The Hawks started off the season with a loss to Delaware but rebounded quickly by beating Drexel in an 8-6 decision. After losing a tight game to Penn, they went on to win in an exciting overtime victory versus Patriot League contender Holy Cross.

After three consecutive losses to nationally ranked teams Navy, Villanova and Army, the Mountain Hawks rallied against long-time school rival Lafayette. In a come-from-behind 8-3 victory at the Ulrich Sports Complex, senior Jeff Wiener had three goals, while fellow senior Alec Hooff had two scores, as well as an assist.

The team played twice more at home, where they soundly beat Saint Joseph's before traveling to Bucknell and Villanova.

They then finished out a tough season against Notre Dame at the end of April.

Despite the struggles of the season, Wiener led the team in scoring with 22 goals, while senior Stephen Marino had 18 assists to aid the Hawks. Hooff and Marino were honored by being named to the All-Patriot League Second Team. Senior David Gaunt received an honorable mention.

Although the Hawks are losing their most valuable quartet of players to graduation, they are looking to improve next year with help from rising sophomore Kyle Gentile. He had 26 ground balls and won 47 face-offs this season.

Gentile's efforts combined with those of sophomores Matthew Diehl and Ricky Cornetta and junior goaltender Eric Spirko make next year's season look promising for the team.

Strong performances from seniors to freshmen

Swinging Hard all Season

After falling just short of a Patriot League championship last year, the Mountain Hawks started off the season with high hopes of a Patriot League championship. Even though the team lost one senior and a team captain, co-captains Gwen Dwyer, '07, and Francesca Murasko-Blank, '07, were more than capable of being the new leaders.

Lehigh opened on a positive note by edging Fairleigh Dickinson 4-3 for the win. The Hawks and Knights split six singles matches on the afternoon, but Lehigh's sweep of the three doubles matches helped propel the Mountain Hawks to victory in their season opener.

After three disappointing losses, Lehigh managed to snap the losing streak with a 5-2 victory over Towson. Lehigh claimed the doubles point, winning two of three matches, and then won four of six singles

matches. Dwyer had a strong performance, winning in both her doubles and single events. Freshman Julie Arthofer also played well by clinching the victory with a three set win.

Although Lehigh lost to the top three seeded teams during the regular season, Lehigh came back in the Patriot League Tournament with a convincing 4-0 win over arch rival Lafayette to make it to the semifinals. With this win, Lehigh has won the past six matches against the Leopards. However, Lehigh's season came to an end after being ousted by the top seed, Army.

On a high note, two Lehigh tennis players were named to the All-Patriot League Women's Tennis Team. Co-captain Dwyer captured first team all-league honors for the third consecutive year, while Arthofer capitalized on a strong showing in league matches to earn second team honors.

□ Regina R. Du

Eyes on the ball

Gwen Dwyer, '07, keeps her eyes on the ball as she patiently waits for it to come. As a senior, Dwyer was essential to the team's success and boasted an individual record of 10-9.

Freshman shows talent

Julie Arthofer, '10, came onto the team as a freshman this season and gave opponents a reason to be worried. Here, Arthofer concentrates on the ball as she gets ready to do some damage.

Even with injuries, Hawks played with heart

Rallying from Behind

After a successful year, the Mountain Hawks looked forward to another strong season. Lehigh started off at the Cornell Fall Invitational where the team won two singles and two doubles matches. The Hawks then competed at the ECAC Men's Open South, where the team came in second overall.

After five straight losses, Lehigh needed a win coming into the match against Drexel. With strong plays from several members of the team and the efforts of Mike Gordon, '09, the Hawks won their first match of the season. Gordon rallied from a set down to net the match and break the 3-3 tie for a 4-3 win.

One of the highlights of the season was the match against Lafayette. It came down to a third set tiebreaker in the final singles match of the day, and Lehigh Brent Herbert, '08, overcame severe cramping

to defeat Lafayette's Lee Kojanis 8-6 in the tie break to win the match and propel the Mountain Hawks to a 4-3 victory over their arch rivals. Lehigh erased an early 2-0 deficit to pick up its third straight win over the Leopards.

The Mountain Hawks' 2007 season came to an end as Lehigh fell to Bucknell 4-0 in the opening round of the Patriot League tournament. It had been a tough season with a difficult schedule and injuries. Co-captain Ryan Lloyd, '07, was out for a large portion of the season.

However, the Hawks have plenty of positive things to take away this year. Senior Alfredo Fernandez-Concha had been named to the All-Patriot League first team. Fernandez-Concha went from being a walk-on to Lehigh' number one singles and doubles player. Also, Lehigh has a number of talented returning players.

□ Regina R. Du

Determination is key

Alfredo Fernandez-Concha, '07, puts on a determined look while gearing up to hit the ball. In singles play, Fernandez-Concha was 7-7 for the season and 4-1 in the Patriot League.

Never missing a beat

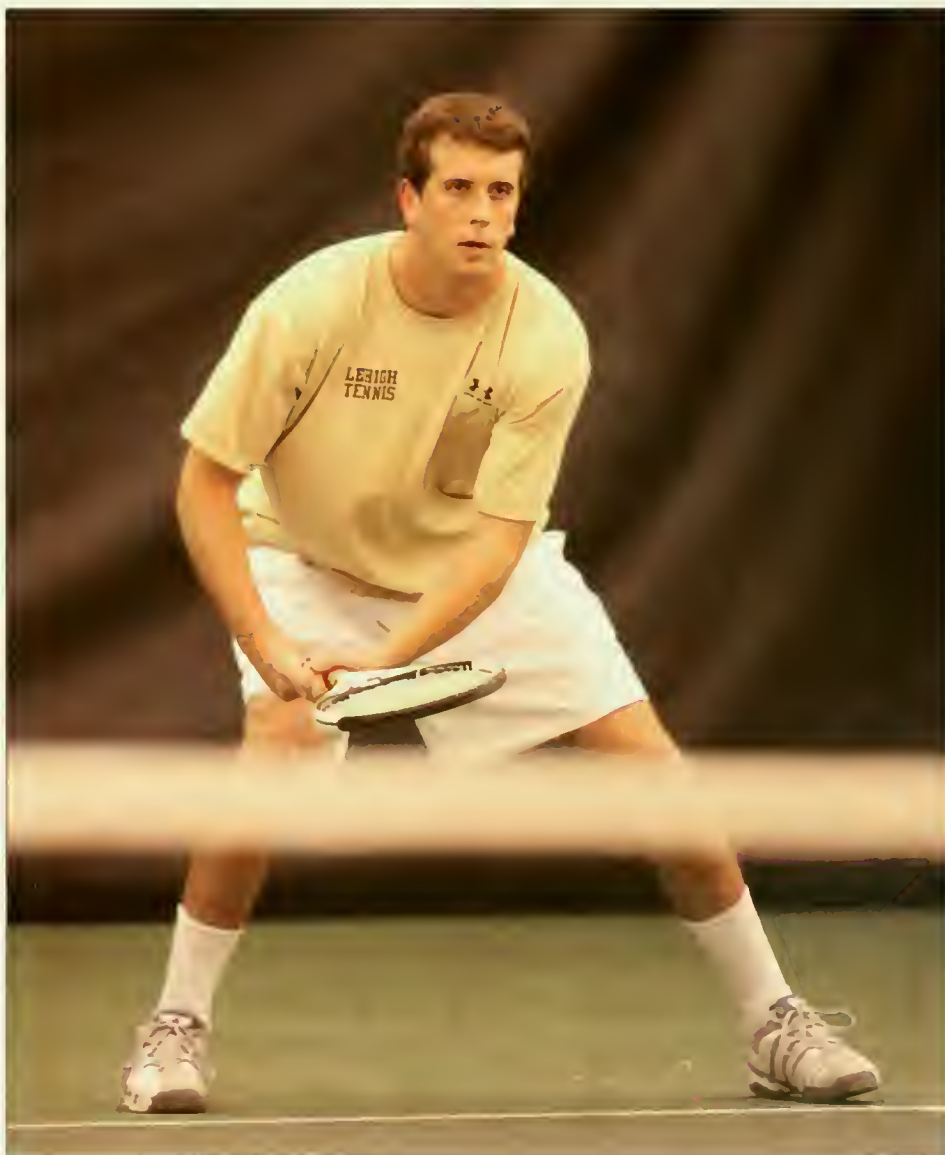

Ryan Lloyd, '07, prepares to hit the ball over the net. Unfortunately, Lloyd did not make it through the whole season due to a leg injury that left him on crutches.

Victory only a race away

Women Work for It!

The Women's Track and Field team had a number of victories this past season, on both the team and individual levels. The women ran in two dual meets against rival Lafayette, and unfortunately lost to the Leopards 80-101 and 50-116. The meets against Lafayette were the only dual meets the women competed in this season, but there were also a number of invitationals and relays that gave the women a chance to shine and prove their prowess on the track and in the field events.

The Penn Relays and the Lehigh Games were highlights for the team. In the Lehigh Games, the Hawks placed 1-2 in two events. The first was the 5000 meter run, where Caitlyn Kennedy, '09, ran to a 1st-place finish, with Hana Baskin, '10, in second. The 3000-meter steeplechase was also a strong event for the team, with Dana Stellar, '10, in first place and Katie McClelland, '09, following in second.

In the final week of Patriot League honorable mentions, Stellar received recognition for her finish in the 3000-meter steeplechase. Stellar was joined by Nicole Montegary, '07, who was recognized for her 17'10 1/4" leap in the long jump during the Penn Relays. This was a great accomplishment for Montegary, as it was her second-furthest mark in the event this season.

In the Patriot League Championships the women placed fifth out of eight teams, as Montegary and fellow seniors Carolyn House, Lauren King and Jenni Schappert paved the way for the team.

Up, up, and away!

A Lehigh jumper throws her body up as she tries to clear the bar.

Leaping for distance

Nicole Mantegary, '07, flies through the air in the long jump.

Men come up fourth in Patriot League Championships

Sprinting and Jumping till the End

Ending the season fourth out of eight teams at the Patriot League Championship, the Hawks walked away from the season with success on their minds.

In the men's Championship meet, Lehigh's 4x800 meter relay team of Kevin and Brian Ahearn, '07, Kyle Manning, '08, and Garrett Zambrows, '09, placed third with a time of 7:31.56. Victor Vientos, '07, also saw success at the meet, as he ran 31:43.48 in the men's 10,000 meter run to place fifth, while fellow senior David Falk advanced to the finals of the 100 and 200 meter dashes, where he finished third and fifth, respectively. Sean Swift, '07, won the steeplechase by three seconds.

Lehigh had two athletes finish second in their events as Greg Horn, '07, raced 52.98 in the 400 meter hurdles and Nick Ray, '10, set a personal record in the shot put with a 54'6" throw. Zambrows took fourth in the

800 meter run with a time of 1:51.28, while Steve Rosinski, '07, was able to contribute to the team effort by scoring points in the 3000 meter steeplechase and the 4x100 meter and 4x400 meter relays.

In the last set of Patriot League honorable mentions, Swift and Khalil Uqdah, '10, both received recognition for their hard work on the race track. It was the third mention for Swift, and the second for Uqdah. With his mention, Swift became only the second Mountain Hawk, along with Ray, to receive three recognitions during the Spring season.

Other successes earlier in the season included a close victory over rival Lafayette, 103-100, as well as strong competition and individual finishes at the Penn Relays, Muhlenberg and Bucknell Invitationals and the IC4A Championship.

□ Krista A. Eccleston

Swift leads the pack

Sean Swift, '07, leads three Lehigh runners. He is followed by Victor Vientos, '07 and Rich Little, '08, respectively. Swift was a strong attribute to the team, earning three PL honorable mentions.

Challenging minds **ACADEMICS** *within the classroom and beyond*

As one of the most well renowned institutions in the country, Lehigh University provides students of all kinds with opportunities to explore future endeavors. Offering more than 70 undergraduate programs spanning across four different colleges, Lehigh's primary goal is to develop personal relationships between students and faculty. With academic excellence as a top priority, the University allows students to not only be engaged in the classroom but to conduct research and gain work experience through the portals of independent study, internships, cooperative education programs, and the Integrated Product Development program. This contributes to the University's distinctive ability to cross academic disciplines to provide an integrated learning experience. By blending the theoretical with the practical, Lehigh's unique interdisciplinary programs encourage intellectual curiosity and cooperative learning. Students can not only learn about other cultures through textbooks but also have the chance to study abroad in 40 different countries. All in all, the opportunities provided by the University, its generous alumni, and corporate leaders have allowed students to discover and build personal strengths.

"I love being in the CAS--it encompasses many different fields of study. I can take classes in Religion or Modern Physics!"

- Adam Kasper, '09

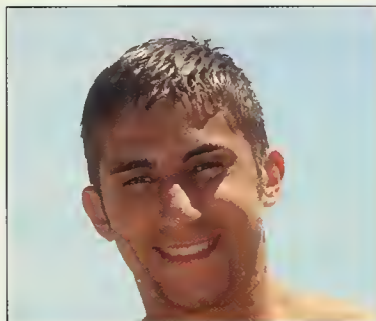

"I like the College of Arts and Science because of the flexibility it gives you to try a broad range of classes before having to pick a major."

- Annie Hong, '09

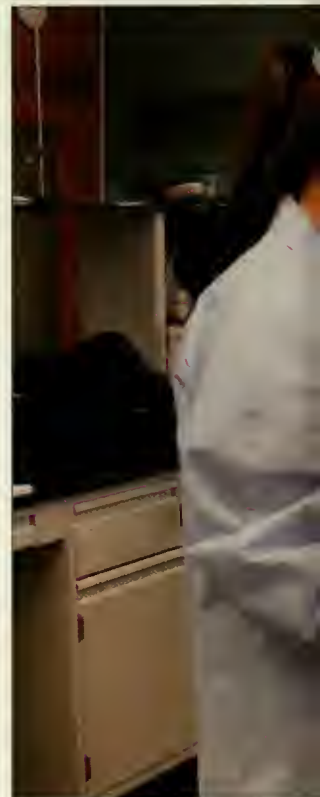

"One of the greatest things about Lehigh is walking past the old gate house, knowing you are not the first or the last that will be entering campus."

- Joe Loguidice, '09

Coppee Hall

Home to the Weinstock Center for Journalism as well as the Communication program, Coppee Hall's renovation in 2003 allowed continued growth for *The Brown and White* as well as *The Epitome*.

College of Arts and Sciences

... community of educators who share a passion for the pursuit of knowledge...

Facts

College

- The Linderman Library was donated by Lehigh's founder, Asa Packer, and named for his daughter Lucy.
- Although Packer Hall, completed in 1868, is the oldest building built by Lehigh University, it is not the oldest building on campus. That title belongs to Christmas Hall, now part of Christmas-Saucon Hall, which predates the founding of the University and was originally a Moravian church.
- As Lehigh's largest college, the College of Arts and Science is the home to the social sciences, arts, humanities, and natural sciences. The College consists of 1,900 undergraduate students and 235 full-time faculty.

© Lehigh University

The joy of discovery

Research is one of the many opportunities for students in the College of Arts and Science. From biology to psychology, there are plenty of professors willing to have undergraduates in their lab.

Architect in training

The CAS offers a variety of classes, including architecture classes, where students are able to build actual models of buildings and bridges which they designed.

"We hear back from students via email three to five years later, telling us that the course shaped their lives and how they think about the world."

- Professor Don Morris

A Costa Rican Experience

Studying Abroad

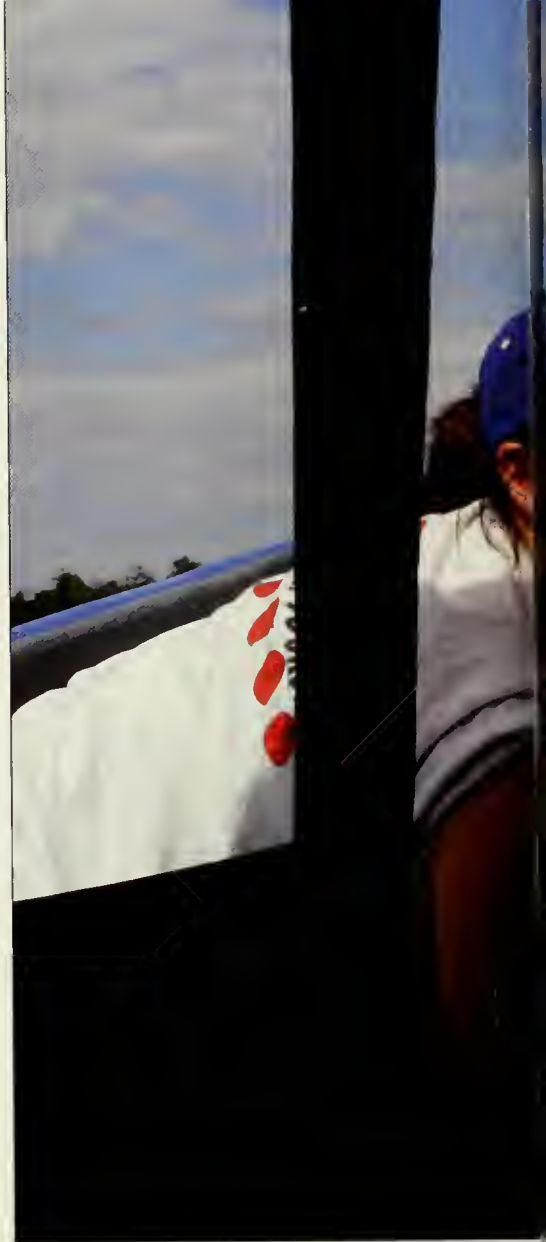

For the eighth straight year, a group of Lehigh University students studied the issue of "Sustainable Development" abroad in Costa Rica over the winter break. Twelve students representing all three undergraduate colleges learned about Costa Rica's economy, political structure, social programs, and environment. In a country the size of West Virginia, over a quarter of the land is set aside for national reserves and parks. Since the oil crisis of the 1970's, Costa Rica has invested heavily in renewable power. These reasons make it the ideal place to examine the economic effects of a push for sustainable development.

Several classes were held in the Fall 2006 semester to give the students background on diverse research areas and lay a foundation for the trip. Facilitating Arts 196 since its inception are Associate Professor Don Morris and Professor Richard Weisman. The students come from a variety of majors and are mixed together into project groups to provide an interdisciplinary experience.

Each group looks at a different area of sustainable development. These include the effects of conservation on politics, economics, social programs, international development organization, and tropical ecology within Costa Rica. Guest lecturers come throughout the fall and speak on the various topics. Once abroad, the students traverse Costa Rica in a MicroBus—hitting 8-10 locations from the Caribbean Sea to the Pacific Ocean. The students actively participated in "Ecotourism", an industry that represents 8% of Costa Rica's Gross Domestic Product.

Professor Morris is proud of what this program has accomplished: "We hear back from students via email three to five years later, telling us that the course shaped their lives and how they think about the world."

□ Karl L. Fetzer

Fun in the sun

Eileen Mazzachette, '09, and Nikolas Baptiste, '07, enjoy a fun filled afternoon while exploring all the scenic views Costa Rica has to offer.

Calming waters

While hiking through the forest, Elizabeth Bonham, '07, and David Janes, '07, took an opportunity to rest by a stream they discovered.

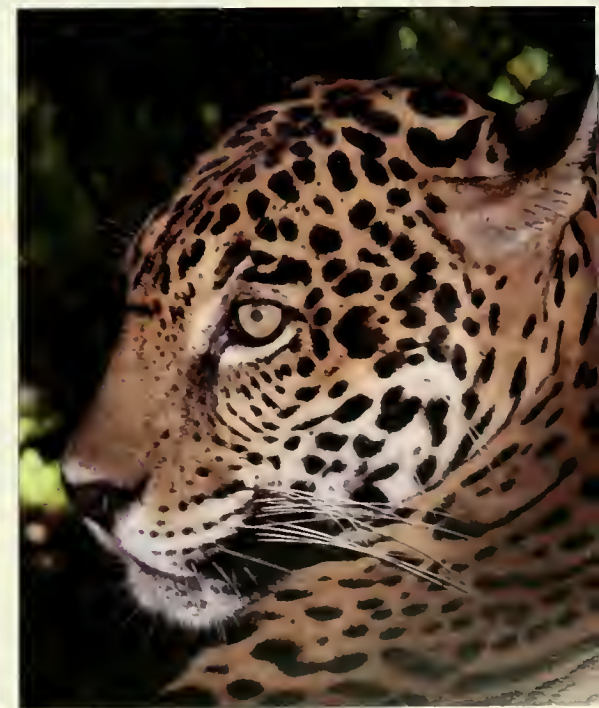

Love birds

Brittany Hamilton, '07, and Jahn Reichlein, '07, take a chance to relax and peacefully watch the sun set above the calming waves of the ocean.

Chumming with the locals

While taking a break from their work, many Lehigh students came across natives of Costa Rica and took the opportunity to learn more about the country.

The eye of the cheetah

While working in Costa Rica, Lehigh students encountered numerous exotic animals, including cheetahs, parrots, and alligators.

Christopher D. Ferenzi

A Little Foresight with Forsyth

Professor Amy Forsyth discusses her passion for students, design, and music, and how she incorporates them into her curriculum.

In the recently-created furniture design classes, Professor Amy Forsyth is able to share her true passion with her students. Although she originally pursued a degree in Architecture, Forsyth found furniture design to be her true calling.

Since coming to Lehigh in 2001, Forsyth has also taught the Design

Foundations I and II classes. She says that she will often use music to inspire a furniture project as well as words or stories to inspire a three-dimensional project.

Music is also an integral part of Professor Forsyth's life, as she both plays the fiddle and is actually building a fiddle herself at the moment.

Although she pursues independent projects, Professor Forsyth truly enjoys the classroom setting and its diverse atmosphere. "I can make a limited number of things in a given time," says Professor Forsyth, "but when I work with students and help them make wonderful things, I feel as if my output is magnified."

□ Daniel S. Fox

A new, unconventional minor program makes its way into Lehigh University's academic experience.

Peace Studies: A Minor Change

This spring semester a new minor in Peace Studies was designed at Lehigh. The course was started by Professors Addison Bross of the English Department and Chaim Kaufmann of the International Relations Department.

The idea arose three years ago when Bross taught a freshman seminar entitled, "Considering Peace and Nonviolence." Students displayed a particular interest in the course material, and soon they started a petition. Bross said, "The students got many positive responses from the Dean of the College, the committee to develop

the Global Citizenship program and others."

The course is focused on the history, theory, and practice of nonviolent direct action and introducing key concepts by which practitioners seek to create peace in a violent world through guest lectures.

This new area of study will hold introductory level courses, and there will even be internships available for students. Bross and Kaufmann, the co-advisers, designed the course to work with humanities and social science credits.

Cycling for Change

DREAM Ride

On August 3, 2006, three Lehigh alums, Chris Wells, '03, Eamon Aloyo, '04, and Walter Scheirer, '04, organized and participated in a two week DREAM Ride from Boston to Maine, New Hampshire, Vermont, Canada, and then back to New York to benefit humanitarian aid programs. DREAM stands for development, relief, education, aide, and mobilization. They ride to promote basic human rights and improve the standards of living for some of the worst off people on earth by raising money for three areas including women's rights or empowerment, education, and health care.

In addition to the Lehigh alums, Andrew Glancy, '07, participated in a similar ride last summer, and is also participating this year. Glancy says, "I was attracted to the idea because of the opportunity to help the less fortunate and I knew it would change my life as well."

This year's ride will benefit six international humanitarian organizations. "With so many organizations, both large and small, to choose from, we narrowed down our list to those with proven track records in development and either an established working relationship with our group or a willingness to work with us to promote their cause," Scheirer says. The beneficiaries include Doctors without Borders, Partners in Health/Medicins Sans Frontiers (MSF), CARE, Emory Vaccine Center at Emory University, International Peace Initiatives, and The Canaan Foundation.

□ Regina R. Du

The long winding road

On average, participants cover 80 miles a day

Riding for a cause

Andrew Glancy, '07, smiles as he bikes across the northeast.

"The courses are not only challenging but they are also practical so I know that I will be prepared when I start my career."

- Diana AuYeung, '07

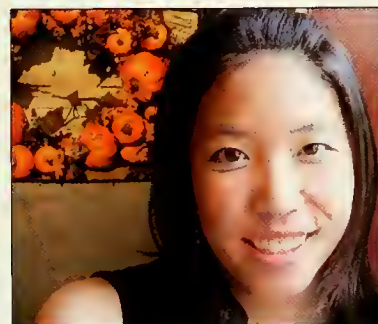

"The CBE is successful because of the hands-on approach the instructors take and their willingness to challenge students."

- Corrada Altomare, '09

"The CBE has strong ties with many large companies, like the Big Four, providing us with opportunities for incredible internship experiences."

- Stefie Kan, '09

Coffee break

Business students and professors take the opportunity to enjoy coffee and lunch at the cafe located in the basement of Rauch Business Center, Common Grounds.

Shane M. Tanaka

College of Business and Economics

...powerfully positioned to develop leaders
with an interdisciplinary approach...

Facts

College

- Philip Rauch, '33, established the Rauch Center for Business Communications in 1981. Later on, his \$5 million leadership gift played a key role in the construction of the Rauch Business Center, completed in 1990 at a cost of \$18 million.
- From 2000 to 2004, the Lehigh University Small Business Development Center helped clients to obtain \$175,558,558 in start-up and expansion funding.
- Based on a permanent endowment of \$3.5 million, the mission of the Financial Services Laboratory, located in the Rauch Business Center, has been to establish Lehigh University and the College of Business and Economics as a world-class leader in financial services, information technology, and health and bio-pharmaceutical economics.

The current market

The Financial Services Lab provides students with an opportunity to not only research the stock market, but to also put their business skills to the test by investing in simulated stocks.

Late afternoon work

While enjoying the beautiful view of Rauch's courtyard, this student diligently works on her homework.

Sharon M. Lefkowitz

"The course is a meaningful exposition to the way others think and solve problems, and it is interesting to see the dynamics between the students."

- Dean Joe Sterrett

Thinking Above Par

Collaboration Across the Fairway

The construction of a new golf driving range and practice facility on Goodman Campus is one of the latest projects of the Integrated Learning Experience (ILE), a program designed to give students real-world experience in designing, planning and sometimes executing projects which enhance Lehigh's athletic facilities in some way.

Co-directed by Dean of Athletics Joe Sterrett and Vincent Iacocca Professor of Business, ILE (also known as the Athletics Complex Design Course) has been in existence for more than a decade and is offered for one semester every year. Although the course originates in the College of Business and Economics, students from the other colleges (such as architecture, engineering and journalism) are invited to participate. This past fall semester saw students planning for a new executive golf course to complement the golf facilities already under construction.

Business students not only benefit from collaboration with students from the other colleges, but the hands-on experience is also valuable. Although not all ILE projects lead to a tangible end result, the experience of planning and preparing the projects to possibly be carried out can in many ways be more important to the overall experience. Cost-benefit analyses and marketing analyses take business students beyond the classroom and into the real world.

In the end, the ILE program provides a unique capstone experience for the undergraduate career of those involved, and they gain the satisfaction of knowing that they were a part of something important to the Lehigh community. "The leadership experience I gained from it was invaluable, along with the friendships I made by getting to meet a truly great group of fellow classmates," says Jerre Lieberman '07, who took part in the program this past fall.

□ Daniel S. Fox

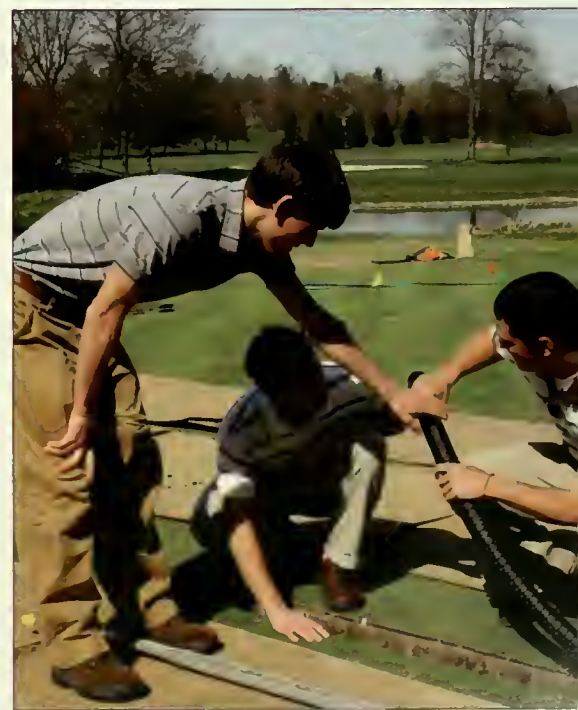

Just one more look

Always remembering to double-check measurements and data is good practice when working on a project where small details are crucial.

Preparatory work

Before the ILE students' final plans could be drawn up for the Goodman Campus facility proposal, they visited a nearby golf facility for additional data.

Getting along nicely

In designing the golf course, working well with the topography is especially important; these students determine the optimal soil density for installing an irrigation system.

Talking it out

As with any group project, communication is key – these students are discussing sand trap design.

Choices, choices

This group of students evaluates different irrigation tubes to see which fits best and is most efficient.

Words of Economic Wisdom

Professor Frank Gunter brings real-world experiences to inspire and teach his students at Lehigh.

Since 1984, Professor Frank Gunter has been a member of the College of Business & Economics. His area of specialty is economic development in countries and how it influences political transitions. His work is widely noted, as he recently finished his duty serving the government in Iraq. His duties entailed analyzing

economic data and how it might affect the political changes in Iraq. Now, he continues to teach undergraduate students. He says, "Teaching is the best; there is nothing better." Each day he finds his students keep him alert and on his toes as he teaches them how to think in an economic mind set. It is good to think in terms

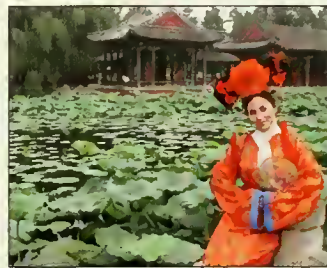

of incentives, and as he describes it, "Don't fall behind."

Being his first year back, he is happy to be reunited with his family and get back into the swing of things.

In his free time he enjoys reading and running. Overall, Gunter continues to add value to the College of Business & Economics here at Lehigh.

□ Lisa M. Luzzi

Arthur C. Tauck's annual Scholarship Program gives three ambitious CBE juniors a chance to intern abroad.

Engaging in Global Internships

As one of the scholarships offered to students in the College of Business & Economics, the Tauck Scholars Program provides international opportunities during their junior and senior years. Endowed by Arthur C. Tauck, '53, the program offers international summer internships that will help them in their future career goals and provide exceptional learning experiences to students in cultural settings that are new and "foreign to them." Along with this amazing opportunity, Tauck Scholars serve as goodwill ambassadors, helping new scholars prepare for their internships, and

take part in special CBE activities.

Students in the CBE are invited to apply for this program during the fall of their junior year. Selected students then have a chance to interview with the Tauck Scholar Steering Committee. This opportunity is available to approximately three CBE juniors, as this program is dependent on a continuous endowment each year. Pelin Seyhan, '07, was a Tauck Scholar recipient who interned in China. Pelin commented, "It was a great experience, topped with a real time internship, helping to distinguish my skills from others."

Shane M. Tarrach

Shane M. Tarrach

"This is a very high honor for the business school because it recognizes the contributions of our faculty, alumni, and students. *BusinessWeek* thought highly of our cross-disciplinary programs and was impressed by our entrepreneurial spirit."

- CBE Interim Dean Tom Hyclak

CBE ranks in Undergrad Top 20

High Honors in BusinessWeek

Lehigh's College of Business and Economics (CBE) captured the eighteenth position in *BusinessWeek* magazine's first-ever undergraduate business program rankings consisting of the most innovative and competitive undergraduate programs in the country.

Students and recruiters played a crucial role in their examination of 1,400 American colleges and universities for business programs accredited by the Association to Advance Collegiate Schools of Business and met three criteria based on test scores, selectivity, and the number of students from the top 10% of their high school classes. While more than 90 schools met these benchmarks, only 84 schools agreed to participate. *BusinessWeek* conducted a 50-question survey among students from these schools about academics, facilities, student life, etc. and polled almost 2,000 corporate recruiters for companies that hire thousands of business majors every year as well as each institution about median starting salaries and graduates in top MBA programs. Finally, an academic quality measurement of five measures: average SAT scores, faculty-student ratio, average class size, percentage of business majors with internships, and the hours students spend every week on schoolwork. Together, these measures composed the rankings' sources of data.

Additionally, Lehigh's Accounting Program was listed among the nation's top 10, placing ninth place based on its strong alumni network and relationships with the Big Four public accounting firms.

"But the new ranking also shows just how much good company Wharton has these days," wrote *BusinessWeek*. "Schools that had never been thought of as top business programs, such as Lehigh University's College of Business & Economics, turn out to deserve more recognition."

□ Stefie Kan

Business conference

In between classes, business students conjugate in Rauch Business Center to discuss classes and the current happenings in the business world.

"The engineering college offers small class sizes, friendly faculty, and a high quality of education."

- Brian Monetti, '10

"I hope to use my engineering skills in developing countries doing work related to water and sanitation."

- Stacy Sommerfield, '08

"The professors are knowledgeable and accessible and you know they can make you into the best engineer you can be."

- Karyn Kesselring, '10

Small, smaller, smallest

Luckshitha Liyanage, '09, examines a wafer in his pursuit of making smaller transistors for our computing needs.

P.C. Rossin College of Engineering and Applied Science

...educating students through the integration of teaching and research...

Facts

College

- Peter C. Rossin, a member of Lehigh's Class of 1948, established a \$25 million endowment for the college in 1998, which was the largest gift ever made to Lehigh.
- Michael Faraday and James Watt appear as statues on top of Packard Laboratory.
- Distinguished alumni from the P.C. Rossin College of Engineering & Applied Science include Lee A. Iacocca, James W. Packard, Terry Hart, and Dr. William Pierce.

Environmental research

Kevin Myers, '09, looks for a pathogen called cryptosporidium from samples taken from Bethlehem's waste water treatment plant.

Cut, grind, polish, etch

Andrew Stockdale, '07, grinds the sample in Whitaker Lab in preparation of examining the microstructure of it.

"Lehigh's strong reputation of problem-solving and research has led to great advancements in nanotechnology research."

- Professor Martin Harmer

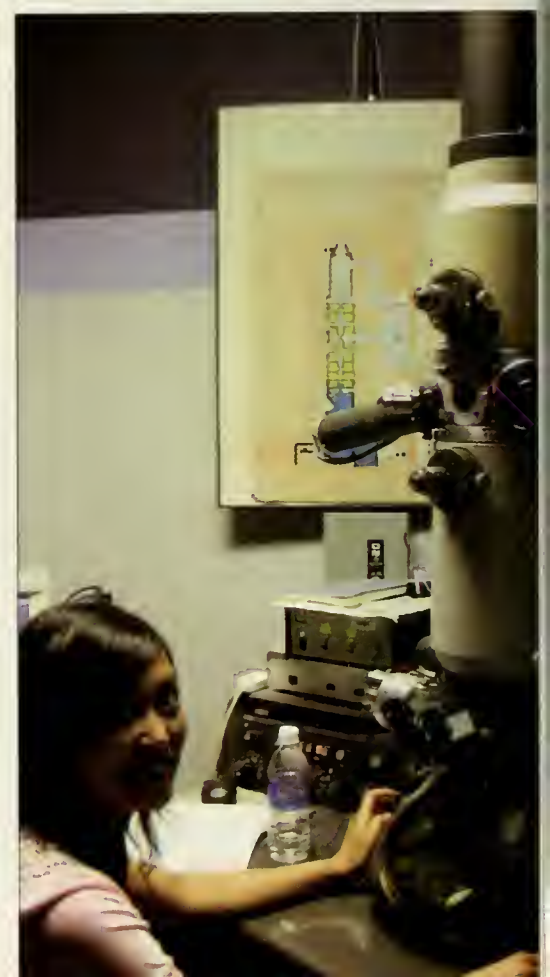

Innovative Research

Nano World

Nanotechnology, or the creation of materials and devices through the control of matter at the atomic level, is an up-and-coming field, and specifically a field of interest at Lehigh. Lehigh was the only university this year to receive two National Science Foundation nanotechnology research grants, the maximum number of grants awardable. Lehigh received grants through the National Science Foundation's Nanoscale Interdisciplinary Research Team (NIRT) and Nanoscale Exploratory Research (NER) programs. NIRT grants run for four years and provide \$1 million or more in funding, while NER grants run for one year and provide \$100,000 in funding. In addition to the NIRT and NER grants, Lehigh also received numerous state grants. These state grants not only enhance the research capability of Lehigh, but also allow Lehigh to have a greater influence on the surrounding community and economy.

Keeping up with the nanotechnology trend, Lehigh is the only university in the world with two aberration-corrected transmission electron microscopes, which determine the chemical identity of individual atoms in crystalline materials. There are also many courses offered in the P.C. Rossin College of Engineering and Applied Science which introduce students to the field of nanotechnology. The Nanotechnology and Society class, which is taught by a collaboration of professors in the engineering college, allows students to not only learn in a classroom setting, but to also perform research with Lehigh's state-of-the-art electron microscopes. "Nanotechnology is definitely a start to a new era, allowing for professionals from various fields to collaborate," stated Professor Martin Harmer of the Materials Science and Engineering Department. Professor Harmer, as well as many other faculty members here at Lehigh, have contributed to the emerging field of nanotechnology.

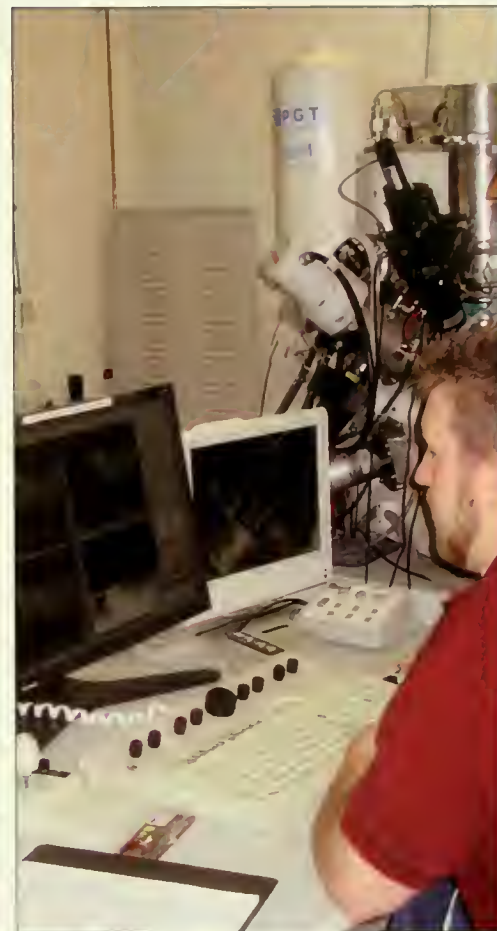

□ *Laura M. Ricles*

State of the art technology

Graduate student Ryan Deacon uses a high-end scanning electron microscope. The microscope is used to cut samples in order to view them under the transmission electron microscope.

Research on the atomic scale

Graduate student Hui Li conducts research with the transmission electron microscope (TEM). The TEM has the ability to image individual atoms in a sample!

Clean room

Matthew Buckner, '08, and Luckshitho Liyanage, '09, stands outside the clean room. A clean room has a very low level of particles which is required for some nanofabrication techniques.

Nanotechnology in Society

Professor William Von Geertruyden talks to a nanotechnology class about the importance of nanotechnology and its applications in our world.

Inspiring Achievements

Professor Anand Jagota's cross-discipline work has greatly contributed to the achievements of Lehigh University.

A relatively new professor to the Lehigh community, Professor Anand Jagota is already making an impact on many students. Teaching since January 2004, Professor Jagota not only educates students in the field of Chemical Engineering but is also the director of a rather new addition to the P.C. Rossin College

of Engineering, the Bioengineering Program. This up-and-coming field allows many new research and career opportunities for students, and also allows Professor Jagota to apply his expertise in Mechanical Engineering.

When asked what he felt was his greatest accomplishment, Professor Jagota spoke about his work on

laminated glass, "In simple terms, this specific glass is used on car windshields."

The accomplishments of various faculty members, including Professor Jagota, have contributed to Lehigh's strong reputation as a research facility and educational institute.

□ *Lauren B. Ostaszewski*

Inspiring young women to embrace a field both intellectually and physically challenging.

CHOICES

Sixty local middle school girls anxiously await beneath the Iacocca Hall tower as a dozen eggs drop down towards them. The girls are all part of CHOICES (Charting Horizons and Opportunities in Careers in Engineering and Science), an annual event sponsored by the P.C. Rossin College of Engineering and Applied Science and the Society of Women Engineers.

The outreach program attempts to stimulate students' interest in science, math and engineering. As part of the CHOICES program, the middle school girls had a chance to walk in the shoes of

a woman engineer for a day by working in groups to design projects and problem solve. The events of the day included making silly putty, creating a burglar alarm, and designing a capsule which would hopefully protect an egg from a 30 foot drop off the Iacocca Hall tower.

SWE members, as well as Dean Wu and Dean Lennon, all contributed to the event by encouraging and promoting the field of engineering to the girls.

□ *Laura M. Ricles*

"A lot of the specific things we do to design the car we learn by ourselves, through reading textbooks and talking to other teams."

- Ryan Hetrick, '07

Formula SAE

Students' Driving Force

When graduating from Lehigh, most students will have a resume and a diploma to show for all the hard work they have put in. For Formula SAE team members, they will have built one race car for each year they were on the team. On average, a member of the team spends 5-10 hours per week on the car, with some members spending as much as 20-40 hours per week!

Since 1994, the Lehigh Formula SAE Team has competed in competitions held by the Society of Automotive Engineers (SAE). At last year's competition, the team won first place for having the most innovative car and second place for the use of composite materials. Team member Ryan Hetrick explains, "The team prides itself on being innovative and leading the competition forward, rather than building the same car year after year." This year, the team will attend the competitions in Michigan and California.

The Formula SAE team numbers between 15-20 students, of which 4-5 are the core design team. Groups of students are responsible for different subsystems—chassis, suspension, drive train, engine, and brakes. While the team has Professor Joachim Grenestedt to advise them, it is the students who do the designing, construction, and testing of the car. Sponsors in industry provide funding, parts and access to equipment not available at Lehigh, as well as advice and technical assistance.

For the hard work and long hours being a member of the team entails, the end of the year brings an aspect of fun—getting to finally drive the car. It is the most experienced drivers who get to drive the car at competition, but when all is said and done, everybody who has worked on the car gets a chance to drive.

□ Karl L. Fetzer

Building to perfection

Scott Shirey, '07, meticulously solders a piece of the car he and his teammates have spent all semester designing and building.

Team pride

The 2007 Formula SAE team have put in numerous hours in order to build a car which will hopefully bring the team gold.

"As a student in the TLT program, I'll be prepared to meet the needs of future students and challenges in the classroom of tomorrow."

- Tim McCutchan
Graduate Student

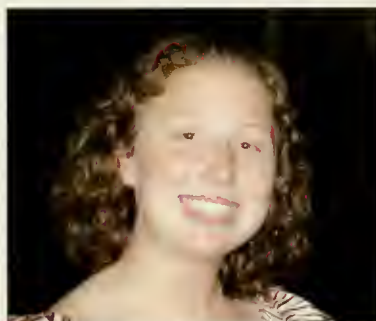

"As a member of the TLT program, I'm not only becoming an expert in the content I'm going to teach, but also in how I'm going to teach it!"

- Scott Wojciechowski, '09

"Lehigh has prepared my classmates and I not only to teach, but to continuously be looking to better our craft."

- Rebecca Resnick,
Graduate Student

Education Center

The College of Education, which currently enrolls 618 graduate students, is located in Iacocca Hall.

USA M LUZZI

College of Education

... the key to education is a commitment to the development of quality research...

Facts

College

- U. S. News & World Report has ranked the College among the top 50 for the past eight years in its America's Best Graduate Schools of Education.
- Lehigh's College of Education conferred degrees for the first time at Saudi Arabia Aramco for students who earned Master's Degrees in Global Leadership in October 2005.
- Since its inception in 2002, the Center for Promoting Research to Practice has received over \$8.0 million in external funding and has expanded its partnerships to include several institutions of higher education, schools across the state, as well as local community organizations.

Teachers in training

Students in the College of Education's five year masters degree program intently listen to advice from their professor, David Snyder. The students are learning about technology based teacher education.

"I hope this gift will help close the achievement gap in our urban schools, with the ultimate goal of improving the lives of inner city students."

- Peter Bennet, '63

Speaking to a captive audience

Dr. Sally A. White, Dean of the College of Education, speaks to her audience about the generous donation for the Center for Urban Leadership.

Largest donation ever received

The donor, who is also a Lehigh alum, Peter Bennett, stands with Dr. Sally A. White, showing off the wonderfully generous donation.

Incubator of Innovation

Center for Urban Leadership

Peter Bennett, the president and CEO of Liberty Partners – a successful Manhattan-based investment company – is known as an expert at identifying worthwhile investment opportunities. The Center for Urban Leadership is a perfect example. The Center is a culmination of a dream of a very successful alum, Peter Bennett '63. He has had a long and distinguished career and is also well known for fixing broken companies and programs that are more concerned with philanthropy rather than making a fast buck. Mr. Bennett graciously donated \$2.25 million on October 13, 2006 to Lehigh. With the help of Dr. Sally White, the Dean of the College of Education, the Center for Urban Leadership was born.

Mr. Bennett was first interested in helping the urban community when he learned of the early successes of the Philadelphia Urban Leadership Program, which was funded three years ago by the U.S. Department of Education, as a joint effort among Lehigh University's College of Education, the National Association of Elementary School Principals, and the Philadelphia School District. Lehigh University has been in the forefront, helping large, disadvantaged school districts attract, develop, and retain individuals for leadership positions.

The Urban Leadership Center is going to be unique and focus its attention on all three aspects involved in the educational process – research, development, and practice. These aid in providing the knowledge and skills that all future leaders will need in order to reform schools across America. The faculty at Lehigh are strongly encouraged to participate in the program, allowing them to use their knowledge and research to help urban leaders.

The Center has been given the nickname "Incubator of Innovation", and is a place to come up with and develop new ideas which can be put into practice. Therefore, urban educational leaders can keep up with the changes that aid in the building capacity in the nation's schools.

□ Lauren B. Ostaszewski

From the President . . .

Congratulations on your graduation from Lehigh. Over the course of this year, I have had the pleasure of meeting many of you. In fact, some of my favorite Lehigh moments have been spent with you – sharing a meal in the residences, cutting the ribbon at Spring Fling, talking with you during my Office Hours, watching you excel on the playing fields and arenas and in the theater and concert hall. I enjoyed learning the Alma Mater with the university choir in my office, joining students, faculty and staff for the March on the Hill, watching you adopt a family during the holidays, and sharing the somber moments of our 9/11 memorial garden dedication.

During your time at Lehigh, you have been fortunate to learn from some of the brightest, and most dedicated people you will ever meet—our superb faculty. I encourage you to stay in touch with the people at Lehigh who made a difference in your years here: those who pushed you, supported you and helped you find your passion for learning. I encourage you to keep that passion alive in whatever you do.

At commencement, I spoke to you about the importance of sharing your time and talents with the world. I reminded you that the diploma you received carries the seal of the university containing the university motto: “Homo minister et interpres naturae.” Loosely translated, the motto means, “Man, the servant and interpreter of nature.” Serving one another and improving the human condition has been part of Lehigh’s legacy since its founding. Today, that legacy, handed down from generation to generation, is entrusted to you. Our commencement speaker, Erik Weihenmayer, encouraged you to reach high to seize hold of adversity and elevate the world around us.

Although I am sorry to see you go, I hope that you carry that message with you and share the Lehigh spirit and your gifts with everyone you meet. I know that wherever you go from here, you will make a difference in the world.

Congratulations and good luck. I hope that the next phase of your journey is filled with excitement, success, and the same dedication that you displayed on campus. We all look forward to hearing about your work in the world and to seeing you when you come back to visit.

Sincerely,
Alice P. Gast

Greek Life

GREEK

a tradition, a bond, a lifetime

Lehigh University has always been known for its strong Greek heritage. With over 30% of the student body population belonging to a greek house, the long lived greek history still remains strong. The good that the Greeks do spreads far and wide beginning in their own house, to campus involvement, to being seen around Bethlehem. During the year, greek houses volunteered hundreds of hours of community service along with organizing multiple on-campus philanthropic events. In the spring semester of every year the greek community runs and organizes an event called greek week. This event involves all greek houses as well as the non-greek population in a week long celebration of Lehigh's Greek history. Most houses on campus host a competitive event which culminates with a Greek Week champion come the end of the week. The Interfraternity Council and Panhellenic Council help to lead the fraternities and sororities become successful campus organizations.

Setting Panhel the Standard

The National Panhellenic Conference's purpose is to promote the values of, and to serve as an advocate for, its member groups. Panhel was founded in 1902 as an umbrella organization.

Panhel's executive board consists of eight executive officers, eight delegates and the presidents of all eight chapters at Lehigh.

Together, the members of Panhel coordinate sorority recruitment, housing, inter-sorority relations and community service activities. Panhel maintains good relations between the member sororities and the university.

This year, Panhel's main event was Women's Health Week. The week was intended to bring the campus together to celebrate women and focus on health issues women face.

Events during this week included a "Car Smarts" car-repair skills seminar, a skin cancer awareness day, an osteoporosis awareness day at The Cup, and self-defense courses.

Women's Health Week culminated with a keynote speaker from Kutztown University. Beth Fisher came to speak to Lehigh women about women's empowerment. Her inspiring speech allowed students to see their sorority membership as something more than what stereotypes may portray. Her goal was to teach students that, as the largest women's group on campus, they have the power to change perceptions and lead by example as modern, intelligent, and respectful sorority women.

Party time!

Some Panhel executive board members take a break from the dance party for the camera. When they're not organizing charity events, they sure know how to have a good time!

Lighting Alpha Chi Omega up the Hill

In October, Alpha Chi Omega held their annual Luminary Project in conjunction with the presentation of "Kristin's Story." October is Domestic Violence Awareness month, and the chapter puts together the Luminary Project each year to raise awareness about domestic violence. Sisters sold luminaries of 5 bags for \$35, 10 bags for \$65, and 15 bags for \$80. The luminaries were set up at sundown in front of each participating house, beautifully lighting the hill. Twenty organizations participated in the event and Alpha Chi Omega sisters raised nearly \$1,500 — an increase from last year's \$1,250. This money was given to Turning Point, a local shelter for battered women and the Alpha Chi Omega Foundation, the sorority's national philanthropy organization which also fights domestic violence.

"Kristin's Story" was the project of VP Finance, Stephanie Papastephanou, who single-handedly attained a grant for their chapter to host the event. They shared this grant with the Delta Delta Deltas of nearby Lafayette. Sisters of both sororities managed to put aside the rivalry and were very successful at planning the event together.

"Kristin's Story" is the story of a mother (Andrea, a Tri-Delta alum) whose daughter (Kristin, a former Alpha Chi) committed suicide after being raped by a male acquaintance. As Andrea showed the audience pictures of her smiling daughter and recounted the events as Kristin fell deeper into depression until she eventually shot herself on New Year's Eve, there was not a dry eye in the audience.

□ *Marissa L. Papaccioli*

548

The girls at 548 will be known for enjoying many things their senior year. One of the most memorable times will be their holiday party and the beautiful real Christmas tree in their apartment.

In the city to celebrate

Hanging out before a 21st birthday celebration in NYC!

Inspire the Women...

Alpha Gamma Delta

Impact the World!

Alpha Gamma Delta at Lehigh University aims to "Inspire the Woman, Impact the World." The women of AGD pride themselves on balancing work with play; a strong commitment to academics is matched with dedication to philanthropy, intramurals and social events.

Philanthropy is extremely important to the sisters of Alpha Gamma Delta. Once again, AGD hosted "Strykes for Tykes" in the fall. Representatives from almost all of the Greek houses came together to bowl at a nearby bowling alley and raise \$1,250 for juvenile diabetes, a major cause of the Alpha Gamma Delta Foundation.

In the spring, Alpha Gam and Sigma Phi

Epsilon fraternity cosponsored their annual softball tournament. Along with other various activities, Greek houses and Lehigh students played in a day-long softball tournament to raise money for Youth AIDS and juvenile diabetes.

Along with many philanthropic events, AGD also holds various sisterhood activities such as dinners at Casa Mia and ice skating. During new member education, Alpha Gamma Delta always has their new members participate in three different activities, one with each of the three upperclassmen pledge classes. This helps integrate the different pledge classes in the sorority, strengthening the bonds of sisterhood!

Seesawing Alpha Omicron Pi Sisters

Alpha Omicron Pi seesawed their way through the night this year in order to raise money for their charity, the American Juvenile Arthritis Organization. The sisters worked together with Sigma Chi to seesaw for 50 consecutive hours. Despite the cold weather, the girls knew their cause was worth it.

AOPi's sisters believe that service to the sorority and the community is important, and the friendships and leadership skills acquired along the way are valued.

AOPi also coordinated Mr. Lehigh, the annual competition where fraternities compete for the ultimate title. The proceeds went to the sorority's charity.

AOPi's mission is to create lifetime friendships, inspire academic excellence and lifelong learning. The sisters achieved academic excellence this fall when they were named the sorority with the highest GPA. AOPi continued to promote strong bonds of sisterhood when they welcomed their newest sisters this spring.

Leading the girls of AOPi is President Brittany Grier, '08.

Heart Alpha Phi to Heart

The sisters of Alpha Phi threw their first ever Red Dress Gala, a traditional fundraiser done by many Alpha Phi chapters. The Red Dress Gala was an evening of dinner and dancing, along with a silent auction to raise money for the Alpha Phi Foundation. This event was held at the Wood Dining room at Iaccoca hall and was attended by sisters, their families, friends and faculty members - all of whom dressed in red. The event was a huge success and was a lot of fun. The sisters are excited to make the Red Dress Gala an annual event.

Another new addition to Alpha Phi's philanthropy this year was Cardiac Care week. This was a week of activities

designed to raise money and awareness for the issue of Cardiac Care. Activities including giving out hershey kisses with cardiac facts attached, giving out red ribbons to support the fight against heart disease, selling heart shaped cookies and visiting the Boys and Girls Club of Bethlehem to do special crafts with the children.

The sisters attend the Boys and Girls Club twice a week and host special holiday events such as a Halloween Haunted House, Thanksgiving dinner, Christmas and Easter parties. The sisters of Alpha Phi have found their strides in philanthropy rewarding and heartwarming.

Celebrating 30

Gamma Phi Beta

Years of Sisterhood

Founded in 1976 at Lehigh University, Gamma Phi Beta celebrated their 30th Anniversary this year. This special occasion was marked by holding a sister/alumni brunch. For this event, the Gamma Phis invited their alumnae back during young alumni weekend for a celebratory brunch. This was followed by tours of the house. Afterwards, members old and new attended the football game at Mountain Top.

"Alumni are the backbone of our house. Without them we would be unable to function as a chapter from year to year," says Gamma Phi president, Megan Schatzman. "Alumni are constantly involved in the house and we keep them

updated on chapter events."

This on-going, close relationship is something which is maintained through the use of the House Corporation Board.

Gamma Phi Beta also held their 2nd Annual Flag Football tournament cosponsored with Delta Phi. It was held October 29th to benefit Chris Pollinger, their cook's paraplegic friend. Ten sororities and fraternities participated, and Chris even made it out to thank the sisters for their support.

Other sisterhood events included a sisterhood retreat to Philadelphia in the fall and a trip to the King of Prussia mall in the spring.

Rocking Kappa Alpha Theta La Casa

Kappa Alpha Theta sisters strive to become well-rounded women and celebrate the academic, social and individual successes of their sisters as they help the community around them.

Theta's main philanthropy event this year was Rock La Casa, a concert held in the fall featuring student bands. This benefitted Court Appointed Special Advocates, or CASA, an organization of trained volunteers who are appointed by a judge to speak up for abused and neglected children in court. CASA programs can help a displaced child find the security needed to grow and reach full potential.

Other philanthropy events include Osteoporosis: Ice Cream Intervention at The Cup, March Madness: Take a Shot for Diabetes, Spooktackular and South Side Sweep.

The Theta President leads the house to fulfill their core purpose and values, which include personal excellence, sisterhood, service and leadership.

Theta also has a unique relationship with their alumnae. Alumni frequently come to help with formal recruitment, assist with practices and with the details of recruitment. Each fall they hold a brunch for their alumni, as well as a tea social event in the spring. They also send a newsletter to alumnae once a semester to keep them updated on their accomplishments.

A Year of Pi Beta Phi Milestones

The sisters of Pi Beta Phi celebrated the 10th anniversary of the PA Kappa Chapter this year. The celebration included a weekend of activities, including a dinner and a ball at the Camden Aquarium. Both alumnae and active sisters were invited to attend the celebration.

Pi Beta Phi is a Gold Chapter at Lehigh University and strives for excellence. The sisters of Pi Phi can be found participating in community service events on and off campus, including Big Brother Big Sister and the Southside Sweep. The girls also participate in intramural sports and on-campus clubs and organizations such as ASA and the Global Citizenship

Program.

Pi Beta Phi has a commitment to academics. The sorority sisters regularly host academic speakers and reward each other for high marks. Faculty are also invited to the sorority for dinner, and sisters send "Pies from the Phi" in appreciation of the faculty's hard work.

The sisters of Pi Beta Phi always find ways to have fun despite their busy lives. They hold many sisters-only events including caramel apple making, trips to King of Prussia and dinners at Buca. The sisters can also be found relaxing on their comfy couches watching *Grey's Anatomy* and *Desperate Housewives*.

All tied up

The brothers of Alpha Chi Rho gather for a picture with faculty and friends.

Playing for Alpha Chi Rho Charity

Alpha Chi Rho does not mess around when it comes to charity, but they do play around. Alpha Chi Rho's most famous event is their annual "Crow-Bowl," a charity football game in which Crow chapters from across the nation participate, including alumnae.

Crow brothers also volunteer their time with Meals on Wheels and the Bethlehem Historic Society, whose purpose is to help maintain historic buildings in the area.

Alpha Chi Rho's mission is to enhance the lifelong intellectual, moral and social development of their members and the surrounding community. The brothers of

Crow believe it is important not to judge others by external factors, but by intrinsic worth. No one is denied membership in Alpha Chi Rho because of race, creed or nationality. Most importantly, the members of Alpha Chi Rho have the paramount duty of promoting brotherly love among members.

Although Crow's charter was taken away by the university this year, the brothers have not let that dampen their spirits. The men will continue to celebrate their brotherhood in their new off-campus houses.

□ Autumn A. Gould

Whatever.

After Alpha Chi Rho's charter was taken away this year, this sign was hung outside the house where the brother's once lived.

Soakin' up the sun

The brothers of ATO sit pool side at their Visto in Alcupulco.

Celebrating Alpha Tau Omega *the Best*

Although Lehigh/Lafayette weekend was mostly about football and fun, it marked an extra-special day for Alpha Tau Omega. On game day, ATO's chef, who has been with them for over 15 years, turned 70 years of age. To celebrate his birthday, brothers hosted a cocktail party and invited all of the alumni. Over 30 alumni attended and enjoyed a chapter room full of food, drink and memories.

Rodney Brocious is, and will always be, a special member of ATO. He is by no means just a chef; he is an integral part of the brothers' every-day lives. If anyone knows what it means to really be a Lehigh ATO, it is Rodney Brocious. His party meant a lot to him, the active

brotherhood and the alumni. Right after the game, brothers returned from Lafayette's stadium to clean and set up the chapter room. The event lasted for over 3 hours, as both Rod and his wife, Linda, came to enjoy the party. The night culminated in tears, pictures and more memories. We hope that he stays with us for at least another year.

Some other notable remarks this past year are ATO's first place finish in intramurals. Also, the brothers were praised at their National Conference for being one of the top Alpha Tau Omega chapters in the country.

□ *Marissa L. Papaccioli*

The Chef

Radney Brocious celebrated his 70th birthday with ATO brothers after the Lehigh/Lafayette football game in a bash that will always be remembered.

Make Beta Theta Pi A Wish...

Founded on October 1st, 1891 at Lehigh, Beta Theta Pi prides itself on building a fraternity that recognizes mutual assistance in the honorable labors and aspirations of life, devotion to the cultivation of the intellect and nourishment of friendships as objects worthy of the highest aim and purpose of effort.

This year, Beta Theta Pi held many successful philanthropic events to benefit the Make-A-Wish Foundation. Beta hosted a four-square tournament in the chapter room and plans to make this an annual event. They also co-hosted a Poker Tournament with Phi Sig.

Additionally, the funk band Post Junction played twice at their house, once in the fall and once in the spring semester in order to raise money for their philanthropic foundation. The house continues to host their signature event during Greek Week: the Beta Bull Riding Competition.

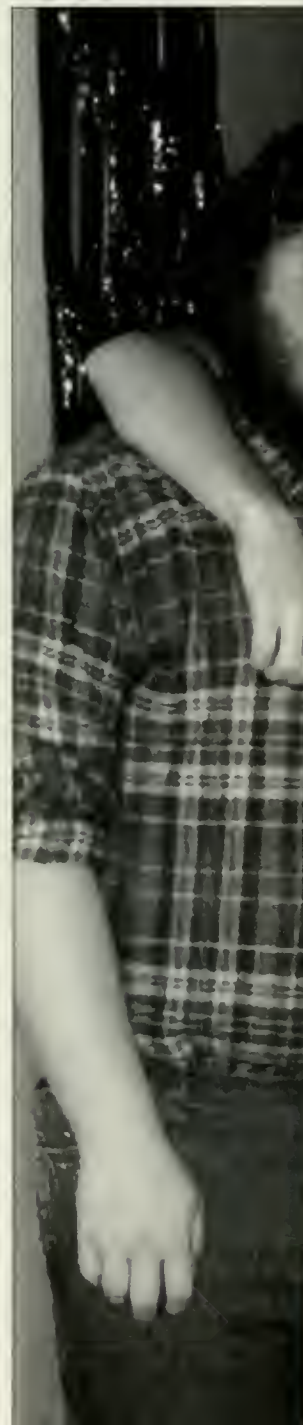

In addition to their philanthropy events, the chapter has a strong bond with both their young and older alumni. Each year, they host the fraternal 50s where the pledge class initiated 50 years ago comes back to the house to be honored by current active members!

Untz Delta Phi Untz

On November 17, 1827, nine men reconvened in North College Hall at Union College in order to lay the foundation of the Delta Phi Fraternity. They consecrated an organization based on study, friendship and lifelong bonds that has lasted to this day.

The Nu Chapter of Delta Phi was founded at Lehigh University in 1884 by six men who felt the desire for brotherhood and companionship. Delta Phi is the oldest continuous national fraternity in the country.

With programs such as the Breast Cancer Walk, Bowling for Kids, and Hoops for Hunger, they have become an asset to both Lehigh University and the city of Bethlehem. This semester, Delta Phi has co-sponsored two major philanthropic events. On October 28, Delta Phi and Gamma Phi hosted "Powder Puff Football" with all proceeds going to a paraplegic best friend of Gamma Phi's cook. The second event was the Delta Phi and Alpha Phi Breast Cancer walk. Over 100 Lehigh students participated in the walk for Breast Cancer awareness.

Every year, Delta Phi goes on brotherhood events in order to bond with their new member class. This year, the brotherhood went to several sporting events and concerts. In an effort to maintain the longevity of Delta Phi and their strong alumni relations, the alumni come to the house annually. The alumni discuss the history, rituals, and ceremonies of Delta Phi to teach the newest class their long lasting traditions.

Recruiting Delta Sigma Phi the Best

Delta Sigma Phi's biggest event and challenge this year was their fall recruitment. As an off-campus fraternity, brothers had to put in extra effort. Brothers were successful in welcoming eight new members into their house. It took the entire house to make recruitment so successful. Delta Sigma Phi doesn't just help themselves to achieve more; they also help others.

The brothers participated in the 9/11 Luminary Project and in Adopt-A-Family. Some of their members showed off their cooking talents at the Healthy Hawks Cook-off while others got involved with the Lehigh community by being ASA members.

As the brothers look forward to their 75th anniversary this coming fall, they keep close ties to their alumni. Each year, Delta Sigma Phi holds a meeting with alumni and invite them to come back and tour the house. They have also held six Alumni Corporation Board meetings this year and invited alumni to their brothers-only Sailor's Ball.

The brothers of Delta Sigma Phi continue their tradition of creating better men by instilling the virtues of culture, harmony and friendship. Their fraternity was the first to accept both Christian and Jewish brothers.

Work hard, Play hard

Work and Play, it all balances out for the brothers of Delta Tau Delta.

Formal fun

Brothers are nothing but smiles as they dance the night away during their end of semester formal.

Swinging Delta Tau Delta Into Action

Delta Tau Delta held their first ever Alumni Golf outing at Wedgewood Golf Course on April 14th. This shotgun-style golf tournament was designed to reconnect Beta Lambda to their alumni from over the years. Aspects of this tournament included a best ball contest, longest drive tournament, and best foursome. Over 30 alumni registered for the event and traveled from all over the east coast to attend. After the golf outing, the alumni and brothers returned to The Lehigh Shelter for a meal and a tour of the recent renovations of the house.

As well as the golf tournament, Delta Tau Delta has held a number of other events this year, such as AOPi and Delts dunk tank to help benefit the Red Cross. They continued by having their annual

Midnight Munchies charity event and their annual Tim Cogil carwash. The brothers of Delta Tau Delta attended their International conference, Karnea, in Indianapolis, IN and their Eastern Divisional Conference at State College, PA where they performed a ritual for all the regional brothers.

Finally, the brothers of Delts have a tradition to participate in the annual ritual of the Mike Guinta Fall Classic. In this contest, members use their wit and knowledge of the chapter to contend against new member classes for the glorious possession of the placard that honors the outstanding brother whose "larger than life" attitude will forever be the inspiration of maturity for their chapter.

Welcome to DU!

The newest members of Delta Upsilon pose for a quick picture in front of their fraternity house.

Building Delta Upsilon Better Men

The brothers of Delta Upsilon work to attain their mission: "Building Better Men" through the promotion of friendship, the development of character, the diffusion of culture and the advancement of justice - the four principles upon which the fraternity was founded.

DU brothers value the importance of giving back to the community. Brothers regularly participate in the ASPIRE after-school tutoring program and volunteer their time playing sports with children and helping them with their homework at the local Boys and Girls Club.

Other recent philanthropic events include DU's annual "Take a Shot for Diabetes" free-throw shooting contest,

Parents Night Out with Alpha Gamma Delta and DU's CPR Certification program.

DU's involvement is not limited to community service. Brothers in the house participate in many campus clubs and organizations such as the Varsity Football Team, Crew, Rugby and Club Lacrosse.

This year, DU had an extremely successful recruiting season. They took prospective brothers to the movies and to all-you-can-eat steak at Gregory's, as well as to paintballing and bowling. Fun events such as these resulted in the initiation of 4 DU brothers during the fall semester and 12 in the spring!

Crazy times

Brothers get together for a crazy photo during a party.

Bump, Set, Kappa Alpha Society Spike!

It's all about brotherhood at Kappa Alpha Society for gentlemen. One of the brothers' favorite bonding activities is having brotherhood volleyball tournaments.

The brothers make great use out of their outdoor sand volleyball court by hosting an annual tournament as one of the events during Greek Week.

The brothers also partnered with Students for Sustainable Development to host a charity tournament. It was \$40 for teams of four, and it had a great turnout. All proceeds went to Students for Sustainable Development to raise money for a water project in the village

of Pueblo Nuevo, Honduras.

After all the hard work KA does for the community, they like to kick back, relax and work on attaining their house's secondary mission: to have fun.

The brothers noted their annual croquet tournaments, polo outings, yacht races and wine and cheese parties at Spanish Villas as some of their most memorable brotherhood activities. The favorite activity by far, however, is hiking Mount Everest with newly initiated brothers.

Kappa Alpha can be remembered for many outstanding qualities.

— Rachel K. Skolnick and Christie L. Jephson

Boys just wanna have fun
KA brothers goofin' around during their formal.

We'll be Kappa Sigma Back...

The Beta Iota chapter of Kappa Sigma has a strong history at Lehigh, spanning back to the 19th century. The brothers hold leadership, fellowship, scholarship and service in the highest of regards.

This year, Kappa Sigma was involved in many philanthropic events. The philanthropy chair, Zach Ross, organized the first Kappa Sigma Holiday Hope Chest. This project allowed students to put together chests of presents for patients who had to spend the holiday season in the pediatric ward and the pediatric unit of the hospital. Seeing the faces of the kids receiving presents was such a great experience that the brothers are planning on making this an annual event. Kappa Sig hopes that one day, every organization on campus will get involved, and they will be able to donate presents to the Children's Hospital of Philadelphia - one of the largest children's hospitals in the country.

Brothers of Kappa Sig also volunteer their time at Fountain Hill Elementary school, helping to run the school's book fair, organizing a family fun night and signing up to be big brothers for students at Fountain Hill. The brothers love working at Fountain Hill because the children mean a lot to them.

While Kappa Sig endured a rough semester and lost their chapter, the brothers have not given up hope. They have greatly enjoyed their time at Lehigh and are in the appeals process to get their chapter back in action. Brothers want future generations of Lehigh students to have the opportunity to benefit from the valuable Kappa Sig experience.

The Drive

Lambda Chi Alpha

to Succeed

On November 6, 1993, Lambda Chi Alpha began an international philanthropy project that has raised more than 24.6 million pounds of food for the needy across North America. Called the North American Food Drive, this annual event has arguably become the largest single-day philanthropic project sponsored by a collegiate organization. Its success is so impressive that Lambda Chi Alpha became the first fraternity to receive the Summit Award from the American Society of Association Executives in 1995—an award presented annually to associations and companies nationwide as part of its Associations Advance America Awards Program. Last year, 123 chapters participated in the North American Food Drive, collecting our largest year total to date—3.315 million pounds of food.

Lambda also participates in other events: Books over Baghdad, which is a book collection for our troops in Iraq; leadership training, during which members attend leadership workshops with the sorority Gamma Phi Beta; and Conversations on Race, which are open discussions held on race relations.

Yearly traditions are a big part of Lambda Chi Alpha. House Appreciation Day is when all the brothers spend time cleaning and fixing up the house together. F.A.R.T.S are Friday Afternoon Recreational Team Sports. Brother dinners are held regularly where all the brothers eat together.

Celebrating 120 Years

Phi Gamma Delta

of Brotherhood

The brothers of Phi Gamma Delta had a lot to celebrate this year. The chapter celebrated its 120th birthday, making it the second oldest house on the Hill. This year also marked the first time in ten years that the brothers beat Lehigh's all-fraternity and all-men's average GPAs, as well as beating the international Fiji average GPA.

It's not all work and no play for Fiji though. Their main event is the annual Frank Norris Pig Dinner, which started in 1893.

The April event starts with a golf outing at one of the local clubs. Meanwhile, other brothers slowly roast an entire pig on their patio, picking off

bits and pieces to sample as it cooks and telling stories. All of the brothers then travel to a nearby hotel where there is a reception, dinner, guest speaker and cocktails. The current brothers network with the visiting alumni, and the new members are able to formally introduce themselves.

The annual pig roast is a great event because it helps raise money for the chapter, keeps the brotherhood close, gets graduates interested in the fraternity, provides networking opportunities, and is simply a great time. After a hard year of work, the brothers of Phi Gamma Delta look forward to their pig roast.

Goofing off

The brothers of Phi Kap relax and show off the child in them.

Discover the Phi Kappa Theta Generosity

The Phi Kappa Theta fraternity was founded in 1959 when two other fraternities, Phi Kappa and Theta Kappa Phi, merged. Both original fraternities had formed when Catholic students were denied membership to existing fraternities at Brown and Lehigh universities. Although rich in Catholic history, Phi Kap is now open to men of all faiths.

The nooks and crannies of the Hill take some time to get used to. Usually by the end of fall semester, any freshman with the slightest interest in Greek life has discovered the location of all the houses. One house that occasionally escapes

notice is Phi Kap. Down a driveway into a little cove is where it is found, full of life. As everyone knows, some of the best places in the world are hidden out of sight.

But after one night of adventures with the brothers of Phi Kap, the house will never be forgotten. The house often hosts band parties, and the brothers can often be found lounging on the lawn or balcony. Celebrating is a must in the good weather, including birthday parties, formal dances and certainly graduation. No time is ever wrong for having fun at Phi Kap.

Yeeee-haw!

Phi Kap brothers show off their favorite country-western style hats.

Building Strong Friendships; Psi Upsilon Maintaining Tradition

Psi Upsilon has been at Lehigh since 1884, and still strives towards building strong friendships and maintaining tradition. For these brothers, “Psi Upsilon is a way of life. It is friendships, brotherhood, leadership opportunities, social functions, community service, academic endeavors, and many other things.”

This year, Psi Upsilon held many philanthropic events to raise money for various organizations. One event the brothers are extremely proud of is the Cans for Habitat program, where all the proceeds were given directly to Habitat for Humanity. The program also aimed toward reversing Lehigh’s enormous environmental impact. Psi Upsilon’s significant contributions made the program’s national honorable mention

possible. The Lehigh Cans for Habitat program earned honorable mention in the nation-wide America Recycles Day competition and earned \$2,000.

The brothers also partnered with Alpha Phi Omega to host a dodge-ball tournament in Grace Hall. The proceeds from this event raised funds for a carnival for local Boys and Girls Clubs at Lafayette College.

The carnival for the Boys and Girls Clubs was a great success. Every year for the past five years, Delta Upsilon at Lafayette has held a carnival for the local Boys & Girls Club. This year Psi Upsilon joined them to help make this annual event even more successful by bringing in the Lehigh community.

Bonding Sigma Alpha Mu Together

The brothers of Sigma Alpha Mu were incredibly busy this year. They participated in many charity events, which allowed them to help others and build a tighter brotherhood.

Some of the events the members of Sammy participated in were Adopt-a-Highway, Chow Down for Charity, playground-building in Philadelphia, a registered Bar Mitzvah party with the Alpha Phi sorority, and Slip-and-Slide bowling held during Greek Week with Alpha Phi.

Besides their many charity events, the brothers also enjoyed many fun bonding activities in order to get to know their new member class and each other better. The brothers attended professional baseball games together, had Friday afternoon roasts, participated in 3-on-3 basketball tournaments, played both football and volleyball and held many house wrestling matches.

Through their many bonding activities, the brothers of Sammy were able to develop friendships that would last a lifetime. This is clear because the brothers already say that their alumni are fabulous. They generously give back to the house and care about the new members. And most importantly, the networking opportunities are endless.

The mission of Sigma Alpha Mu is "to guide each member toward a more meaningful life, to prepare members for responsible fraternity and community involvement and to create social and service opportunities for its alumni." So far, it seems like the brothers are accomplishing every goal.

Building Sigma Phi Epsilon Leaders

Sigma Phi Epsilon will be commemorating their 100th anniversary at Lehigh. To celebrate, they have been holding special alumni events in the tri-state region. These events will culminate next September with a Centennial Gala. Sig Ep will not only be celebrating 100 years on the Hill but also 100 years of brotherhood and service.

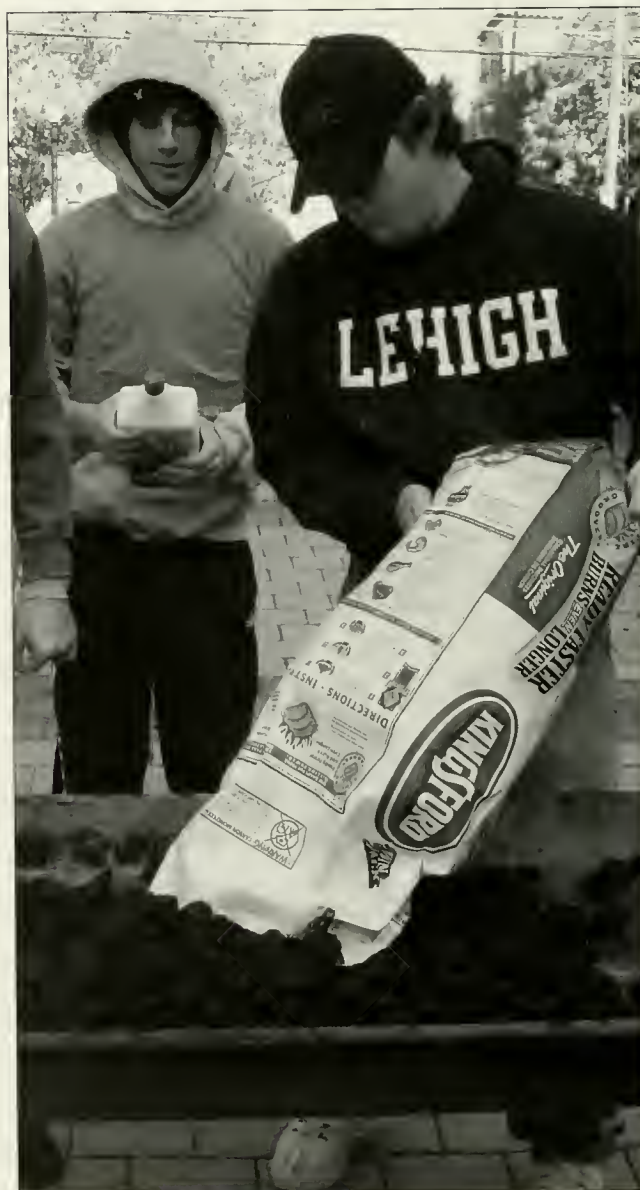

In their mission statement, Sig Ep brothers "are defined by their commitment to academic success, personal development, community involvement and fraternal endeavors."

The importance placed on community service is evidenced by Sig Ep's participation in philanthropic events. This year, Sig Ep raised over \$75,000 for philanthropy. Their most successful event was their 17th annual Election for Cancer Research, which raised \$31,000 for the American Cancer Society. Sig Ep also organized and cosponsored the South Side Sweep, encouraging students to help clean up the streets of South Bethlehem. Other events included a charity softball tournament with Alpha Gamma Delta and a health program, Heart to Heart, with Gamma Phi Beta.

Sig Ep also places emphasis on keeping in touch with their alumni. They held various alumni weekends for graduates during the fall and spring, and had alumni participation in various house renovation projects.

For their efforts throughout the year, Sig Ep was awarded the Quay Cup, an honor given to the best fraternity at Lehigh. Sig Ep also won awards for alumni involvement and risk management.

Brotherhood

Theta Chi

Leadership

The Theta Chi house is a place brothers call home. The brothers regularly participate in social, brotherhood, service and philanthropy events creating unbreakable bonds between each other.

Playing an integral part in Lehigh life is the mission of the brothers of Theta Chi. The Beta Sigma chapter strives for excellence in community service, academics and, of course, partying.

Theta Chi brothers are very involved in on-campus organizations and activities. Participation in Strykes for Tykes and their annual Theta Chi Sweetheart competition are just two examples out of many.

While many fraternities offer a purely

social environment, Theta Chi is more than just a fraternal brotherhood; it is truly a family. The Theta Chi experience transcends the brothers' undergraduate careers as many of them participate in traditions and brotherhood events years after graduation. Brotherhood in Theta Chi lasts a lifetime, not just four years.

Tradition and continuity play an important role in the life of a Theta Chi brother. There are many axioms passed down from year to year, which are shared with alumni from many years past. While tradition is held in the highest regard, the most important thing to the brothers is each other.

Ya dig?

Theta Chi brothers prove how groovy they really are with their afros, chest hair and 70s garb.

Brothers

Theta Xi

Forever

College years at Lehigh are a unique experience, both academically and socially. The fraternity is an extension of this ideal growth and development.

The brotherhood of Theta Xi is based upon the principles of unity, responsibility, spirit and personal development. Theta Xi strives to develop these bonds among our members, and in this way, makes the time the brothers spend together more valuable than a college degree.

Under the noble motto "Juncti Juvant," which translates as "United they Serve," the brothers of Theta Xi have held one thing sacred: their own bonds with one another. Through rocky

seasons and the tranquility of tropical vacations, brothers lock arms and stand their ground.

The other half of their motto is service. Theta Xi values helping the community and has organized and participated in numerous charitable events throughout the school year.

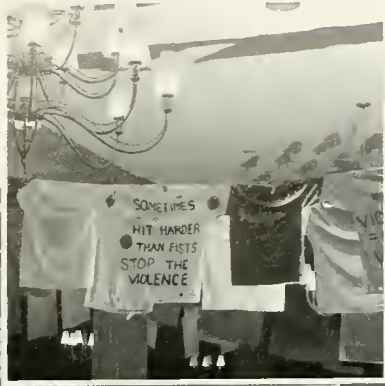

At Theta Xi, the spirit of involvement extends beyond the house. The individual effort and strengths are well demonstrated in the classroom as well as on the playing fields. You name the sport, there is a Theta Xi man on the team. Theta Xi is a proud fraternal order of men.

Extracurriculars - ORGANIZATIONS *finding our niche*

With over 150 clubs and organizations at Lehigh, the ability for the average student to stay busy is ever present. The clubs provide a fun after-class getaway and range from student leadership organizations to multicultural clubs to academic groups. This variety allows for every student to participate in a club that piques their interest. Students that cannot find a club they want to join are urged by the university to start their own. From move-in day in August until the end of the school year in May, the clubs can actively be seen around campus. These organizations help the university define its commitment to the student body by providing a way, besides class, to meet new people and make life-long friends. The following pages show these clubs in action: the events they host, the ones they participate in and the people who make them what they are.

Epitome

The Epitome is the student-run organization responsible for producing a high-quality, historical document representing Lehigh. This exceedingly complex process requires thousands of volunteer hours given by approximately 50 students who are drawn from all years and disciplines.

The 2007 edition is the 131st volume. First published in 1876, The Epitome is Lehigh's oldest existing publication. From the eye-catching cover through the final pages of the senior section, the yearbook is a snapshot in time and remains a record of the university for years to come.

Taking over a full year to produce, students research materials for inclusion on the pages and proof text long after the spring semester is finished.

Beginning with an off-campus yearbook seminar where the division pages, theme and cover are meticulously planned by editors, yearbook production is indeed a daunting task. They share their enthusiasm with co-editors and staff until the conclusion when the book is received from Taylor Publishing and distributed to all who purchased a copy.

We sincerely hope that you appreciate and enjoy all the hardwork, dedication and commitment that was given and involved in the unfolding creativity and sheer determination required to publish the yearbook. We trust you will enjoy and refer to your yearbook long after you graduate from this institution.

Class of '07

The Class of 2007 has had an exceptionally busy year. Working hard both in the classroom and out, the senior class has been preparing for the real world and life after Lehigh. One of our greatest accomplishments this year was our incredible class gift program. Members of the Class of 2007 were able to donate to the parts of Lehigh that they felt the greatest affinity to. Whether it was an athletic team, an academic department, fraternity or sorority, scholarship or even an unrestricted gift to the university, the senior class delivered. With 65 percent participation, the Class of 2007 raised over \$13,000 for Lehigh!

When not taking the world by storm, members of the Class of 2007 also knew how to cut loose and have a great time. The Class Gift Kickoff, the Rally on the Hill, Senior Cocktails at Melt, the Senior Prom at Kirkland Village, and Senior Week in Ocean City, Maryland are just some of the plethora of events that brought our class together this year. Through these events and more we were able to not only get together and have fun but also celebrate an incredible four years at Lehigh.

The pictures on this page capture just some of these moments!

It has been a pleasure serving as your Senior Class Officers and thanks for all the memories!

Erik Weihenmayer

The senior class officers pose with commencement speaker, Erik Weihenmayer, who urged Lehigh graduates to become "pioneers."

Senior class gift kickoff

Tiffany Hong, '07, poses with her friends at the senior class gift kickoff.

Class of '09

It was another rockstar year for the biggest & brightest class at Lehigh. President Scott Wojciechowski, Vice-President Jenna Paradiso, Secretary Alissa Perez, and Treasurer Devin Tyman worked hard to develop new and exciting events not only for the sophomore class, but also the entire Lehigh community.

But these officers could not do it all on their own. Without the help of Team '09, an elite group of 20 diverse '09-ers, events such as the Reunited and It Feels so Good 1959/2009 Meet & Greet, Spirit of Lehigh Shopping Cart Parade, Early Look at Linderman fundraiser, '09 Class Cookout, Music on the Mountain II Karaoke Night and Relay for Life would not have been possible. All just goes to prove there is nothing finer than a Lehigh oh-niner!

The class of 2009 is truly an elite one. With only two more wonderful years left at Lehigh University, the Class of 2009 officers, along with Team '09 and the class members themselves, will be sure to make the best of it.

Let the parade begin!!

ASA's Shopping Cart Float in this year's Spirit of Lehigh Parade, a new event made by '09 for Lehigh-Lafayette Week.

The Class of 2009 executive board

L - R: Scott Wojciechowski, Alissa Perez, Jenna Paradiso and Devin Tyman, taking a well needed break after yet another successful event.

Class of '10

The Class of 2010 officers kicked off the year right with Wing Night, an event that was attended by most of the Class of 2010. The event was held at Hawk's Nest on Thursday night before the Lehigh/Lafayette football game.

In February, the officers and Team '10 organized the first annual "Ten's Got Talent." Phenomenal musical talents were showcased by the freshman class. The class also ran a university-wide volleyball tournament for charity in early April and performed community service work in Bethlehem.

Officers elected for the freshman class were President Tara Goldberg, Vice President Jack Meehan, Treasurer Divya Nayar and Secretary Shannon Patrick. Along with class advisor Nancy Merritt, the officers chose to include a select group of students to help them with their endeavors, known as "Team Ten." This "Team Ten" provides the same ideas and support that Team '09 does for the Class of 2009 and their officers. They look forward to building upon their success over the next three years!

Grill anyone?

The President and Vice President of the class show off their grilling skills at a famous Lehigh tailgate.

The new students

Members of the Class of 2010 enjoy one of their first nights at Lehigh by just hanging out over a nice plate of fries.

Choral Arts

The Lehigh University Choral Arts, under the direction of Dr. Steven "Doc" Sametz, is an ever-growing group on campus. They give four concerts at Lehigh each year and tour internationally. On-campus highlights include the traditional Christmas Vespers in Packer Memorial Church and the performance of major works with the orchestra. This year, the Choral Arts toured in China along with alumni and friends.

The University Choir has been heard in some of the world's most prestigious concert halls, singing in as many as 17 languages. They frequently perform new works written expressly for them. In addition to performances of major works with the orchestra, this year's repertoire included a program entitled *Life is a Cabaret*, an eclectic mix of tangos, jazz and settings of Shakespearean poetry. The University Choir is frequently featured during events such as Founder's Day, first-year student convocation and the dedication of the Alumni Memorial walkway.

The Choral Union, one of Lehigh's most successful community outreach programs, is open to Lehigh students, staff, faculty and members of the local community. The Choral Union performs at Christmas Vespers and in major works from the choral-orchestral repertoire. This year's offerings included Orff's *Carmina Burana* with the Lehigh University Philharmonic Orchestra, Stravinsky's *Symphony of Psalms* and the Fauré Requiem.

Friends forever

Four active members of Choral Arts hang loose on the weekend away from the normal singing setting.

Teaching President Gast

Members of Choral Arts guide Lehigh's new president through a normal meeting of the active club.

Gryphon Society

The Gryphon Society was founded in the year 1957 on the principles of leadership, integrity, fellowship, and excellence. Its founding members believed that the society should provide a social organization for Gryphons as well as a means of discussing pertinent issues that were being faced. The Gryphon Society has upheld these honorable roles in its history and continues to work to expand its role in the Lehigh University community.

The students of the Gryphon Society have dedicated themselves to helping the residents of Lehigh University and the Lehigh community at large. The Gryphon Society shall provide a means of social development for its members through fellowship, goodwill, and recreational activities. These activities serve to foster a stronger bond among the Gryphons and to reach out to others outside the society.

The Gryphon Society works with other major organizations on campus to help with community service projects. This year, students participated in Sigma Phi Epsilon's Election for Cancer Research and headed the Oxfam effort. Additionally, any other community service projects occurring on campus are advertised to all Gryphons. There are also social events each year for all Gryphons, which include volleyball tournaments, group dinners, and a yearly Gryphon formal.

End of the year banquet

All gathered for a last dinner before the semester ends.

Gryphons at dinner at Rathbone

Down for the count

Members of the club fight for the ball as two men are down.

Some friendly play

Men's Club Rugby gets together for an afternoon filled with running and hitting.

Men's Club Rugby

Lehigh University Men's Rugby Football Club is a collegiate member of USA Rugby. In the 2006-2007 season it was a member of the Mid-Atlantic Rugby Football Union (MARFU) and the Eastern Pennsylvania Rugby Union (EPRU) at the Division II level. The goal of the club is to develop students into better rugby players while having a great time.

The past season was a disappointment regarding league matches, but the losses did not diminish the fun had by all. The team was led this past year by the graduating players Drew Garrabrant, Brian Lennon, Nick Lynch, Chris Manahan, Nate McQueen and Jason Tuthill.

In the upcoming 2007-2008 season the team will return to the Division III level of the EPRU and hopes to return to its dominant form. The club won EPRU and MARFU in the 2004-2005 season before being promoted to Division II. Each season (both spring and fall) the team plays five to eight matches against other collegiate clubs.

SWE

Lehigh University's Society of Women Engineers is dedicated to inspiring young women to consider a career in the field of engineering. Since women are such a minority in this field, and many do not even find out what engineering is really like until they have already begun their college education, SWE strives to introduce this possible career path to young women early in their educational careers.

Furthermore, SWE continuously works to further inspire our own female engineering students through events such as seminars, conferences and panel discussions. They work to fulfill the National SWE Mission, which is to "Stimulate women to achieve full potential in careers as engineers and leaders, expand the image of the engineering profession as a positive force in improving the quality of life, and demonstrate the value of diversity."

The whole group

All of this year's members of SWE gather for a group shot after their last meeting.

All day planning

Members of SWE get together to plan for a day of service to Lehigh.

Student Senate

In its 19th year, Lehigh's Undergraduate Student Senate has established itself as one of the best avenues for students to hone and apply their leadership skills. The executive board of Senate consists of a President, Vice President, Treasurer, Secretary and Parliamentarian. Senate consists of 45 members split into five constituencies: namely freshmen, on-campus upperclassmen, off-campus, fraternities and sororities. By having such a diverse group of students represented across all four years, Senate ensures that all groups on campus have a voice.

Senate is structured such that there are four standing committees. The Allocations committee is responsible for funding every club on campus, approving club budgets, and entertaining new budget requests. The Club Affairs committee recognizes and approves clubs on campus. The Bylaws committee is internal to Senate in that it examines our constitution and existing bylaws. Finally, the Public Relations committee is in charge of publicizing all of Senate's events on campus and also publishes and distributes a bi-weekly newsletter throughout campus.

Some of Senate's accomplishments this year included organizing student transportation to NYC during breaks, hosting an off-campus housing forum featuring six local landlords, distributing flash drives to incoming freshmen, incorporating experiential learning classes into the course catalogue and hosting a talk addressing student rights on campus.

Addressing the crowd

During a Senate meeting, a member addresses her peers. All members of Senate do their part to promote positive change.

Focus and commitment

Members of Senate focus during a full Senate meeting. As the governing body over all recognized undergraduate student organizations, much work is required by all members.

Supply Chain

The Supply Chain Management Club was founded to support and expand the understanding of an integral field to students and faculty throughout the business college and around the Lehigh community. From panel discussions to site tours, events are set up in order to connect students in any field to further their knowledge of real world examples of how Supply Chain Management is affecting the current business environment here and around the world.

Supply Chain Management is the systemic, strategic coordination of the traditional business functions within a particular company and across businesses within the supply chain for the purposes of improving the long-term performance of the individual companies and the supply chain as a whole (Mentzer et al. 2001). The Supply Chain Management Club believes that it is their purpose to help students of all majors understand their place in this chain so that they are better prepared to work in an integrated and dynamic environment.

With Supply Chain Management being such an innovative major here at Lehigh, it is great to have a club that helps to supplement the learning process. The club brings an outside-of-the-classroom touch to the new major.

Posing for the camera

Members of the Supply Chain Management Club take a break to pose for a picture.

University Productions is Lehigh's on-campus programming board bringing an assortment of music, comedy, and special events to campus as well as running programs in surrounding areas. It is run mainly by students who determine what concerts, comedians, and movies will be available to the Lehigh community.

In the past, the club has brought acts such as Guster, Talib Kweli, and Cake to Lehigh's campus. Members have seen shows on Broadway, including *The Producers*, *The Lion King*, and *Rent*. University Productions also regularly shows pre-release movies in Kenner Theatre on Friday and Saturday nights, which is a tremendous success among students. Because movies and popcorn are free, the theatre is often a perfect way to end a busy week for students on campus.

This past fall, University Productions brought the Top 40 band The All-American Rejects to Stabler Arena drawing a mix of students and community members alike. The arena was packed for hours before the show and students were ecstatic about the performance. Another activity that the UP sponsors each spring is the culminating event of Greek Week: a large outdoor concert called Sundaze, which is attended by a majority of the Lehigh student body. This year's main attractions included "Hello, Goodbye" and other noteworthy bands. University Productions continues to be the main provider of major on-campus entertainment venues at Lehigh.

Rockin' the free world

Top Left and Middle: All American Rejects put on a stellar show for Lehigh.
Bottom Left: Anna Orchard, '08, Dan Newcombe, '08, Colin McLeod, '08, Marc Sweet, '09, for the All American Rejects setup.

The show must go on

Top Right: Club members are enjoying a Board of Directors Bowling outing.
Bottom Right: Friends are enjoying the concert!

Held accountable

Panels and group projects are a large part of the club's activities designed to prepare members for jobs in the "real world."

Learning from the best

Members of the club enjoy valuable time with one of the many prestigious people that club members are able to learn from in various settings.

Accounting Club

The Accounting Club had another successful year, with outstanding participation from both sophomores and juniors as well as numerous firms that supported the organization. The Executive Board strove to increase student involvement by offering a wide variety of events aimed to increase student knowledge and interest in the vast opportunities available in the profession. The Accounting Club has once again confirmed its standing as a critical resource for business majors developing their careers. It encourages all business majors to actively participate in the numerous events the club offers on and off campus because it is a valuable activity for networking, meeting recruiters, and for starting a career.

Alpha Chi Sigma

Alpha Chi Sigma is a professional chemistry fraternity that seeks to promote the exploration of chemistry and encourage the pursuit of a career in a chemical-related field. It promotes awareness among students through educational programs, community service, and interaction with authorities in the field of chemistry. Their most frequent event is Freeze with Liquid Nitrogen, where they use liquid nitrogen to make ice cream. They do demonstrations during National Chemistry Week, such as Thermite Thursday. They have worked with the Girl Scouts of America, STAR program and local schools to teach students about chemistry and encourage their continued pursuit of science.

Fun with chemistry

Top: Freeze with Liquid Nitrogen: Alex Taylor, '08, and Margaret Lynch, '08.
Bottom: Dan Campbell, '08, having fun.

It's explosive!

Top: The wildly popular explosion for Thermite Thursdays.
Bottom: The club enjoys dinner at the home of Dr. Keith Schray.

Staying busy

Luckshitho Liyanage, '07 lights condles for the initiation ceramany. Members smile for the camera during Cammunity Interaction Day.

Working together

Jessica Rubin, '09 and Ashley Bergomino, '09 make t-shirts with their Greek letters, and volunteers spend their time picking up trosh in Bethlehem.

Alpha Phi Omega
The Alpha Psi chapter of Alpha Phi Omega, a coeducational community service fraternity, has been servicing the campus, community and nation since 1936. This group strives to help each member develop leadership skills, secure lasting friendships, and provide service to others. Alpha Phi Omega has set the standard for campus-based volunteering. The purpose of this fraternity is to assemble college students in a national service fraternity in the fellowship of principles derived from the Scout oath and law of the Boy Scouts of America: to develop leadership, to promote friendship, to provide service to humanity, and to further freedom that is their national, educational and intellectual heritage.

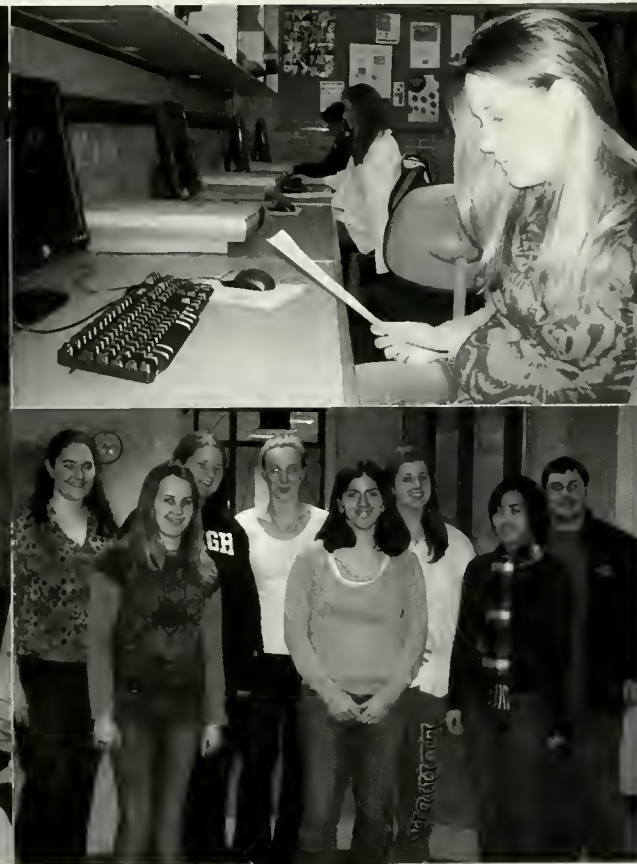

Amnesty International

Amnesty International is a worldwide organization aimed at the preservation of internationally recognized human rights. On campus, AI focuses on campaigns that interest its members and supports those campaigns by inviting guests to speak on campus, writing letters to comfort victims and petitioning to have victims released. Amnesty International does not support or oppose any government or political system, nor does it support or oppose the views of the victims whose rights it seeks to protect. It is concerned with the protection of the right of individuals to peacefully exercise freedom of expression, opinion, belief and association.

Type it up

Members of Amnesty International work at their computers to stand up for basic human rights for all people.

Accomplishing goals

Hard work helps the Amnesty International Club in their attempt to free prisners across the world. Members of the club break from this work to toke a group photo.

Anime Eki

Where once there was boredom, there is now Anime Club, a closely-bonded group of anime aficionados that transcends social constraints and pursues the ideal of a better world through Japanese animation. Restrained only by the human imagination, anime has taken us from feudal Japan to parallel worlds, distant planets, apocalyptic futures and back again. At Anime Club, members watch and discuss their favorite films and series twice a week, and whether it be awe for an action/drama or hilarity in the face of a great comedy/romance, they are always up for sushi and a good time with good friends.

Sharing the love

Members of the Anime Club embrace in hugs during a club gathering.

Group shots

During group events, members of the Anime Club stop what they're doing to pose for pictures.

ASCE

The American Society of Civil Engineers is a national society of engineers with a chapter at Lehigh open to all civil engineering majors. The mission of Lehigh's student chapter of the American Society of Civil Engineers is to continue the learning process about civil engineering and applications outside the classroom and to stay abreast of current happenings in related industries. Its purpose on campus is to give students a chance to network at events such as their annual career fair and outings with the Lehigh Valley younger members chapter. They also work to promote department camaraderie with the national steel bridge competition, weekly happy hour, and the traditional Friday morning breakfast and coffee in historic Fritz Laboratory.

Smile for the camera

The Lehigh Chapter of the ASCE smiles in a group photo. ASCE encourages the development of a professional consciousness and allows members an opportunity to become acquainted.

A dinner out

A group of the the Asian Cultural club members get away from Lehigh for a nice night out to dinner.

Having a great time

This year's new members of the ACS go out far a great night together.

Asian Cultural Society

The Asian Cultural Society is not only a cultural club, but also a strong advocate of interaction with others within the Lehigh student body to foster understanding and acceptance of not only Asians, but other races as well. Through various events like Fusion, our talent show in which other groups like ISA and CSSA have also participated, and East Coast Asian American Student Union, we have attempted to spread awareness of our culture as well as bond with others in the group. Through grueling dance practices, Chinese take-out, bowling nights and other activities, we have truly enriched our four years of college.

AIS

The Association of International Students is an organization geared towards creating a sense of community for International Students and American students alike. This has been an important year for our fledgling organization, as we were functioning with limited funding. However, with the help of other organizations such as the Office of International Students and Scholars, the Global Union and the World Affairs Club, it has successfully funded many activities for members and the general Lehigh public alike. Some of its activities included a discussion on the hunger issues faced by East Africans, a trip to Princeton University to hear former President Kagame speak about rebuilding Rwanda, a kick-off barbeque, game nights and helping out at the International Bazaar.

Picnic

AIS welcomes the many exchange students to Lehigh with a delicious BBQ.

International Bazaar

Members from the AIS gather together at the International Bazaar for food and fun under the sun.

ASA

The Association of Student Alumni is a diverse group of students who serve as the face of Lehigh to prospective students, current students, and alumni. ASA unifies Lehigh's campus and inspires Lehigh spirit through such activities as the First-Year/Alumni Rally, Lehigh Under the Stars, Rally on the Hill, and the Hawk's Nest and Pink Ladies spirit groups. New events this year were the Community Garden, Terror at Twilight (a horror movie shown on Goodman Campus) and Dance til Dawn (a fundraiser for St. Jude Hospital). This was the first year that all members of ASA were tour guides.

Many faces of ASA

Top: Alumni Involvement Chair Kim Folkl, '08, President Laura Stoffel, '07, and Vice President Cheryl Koplan, '08.
Bottom: ASAs at their first formal at the Croyalo Factory.

Giving back to the community

Top: Chris Schoell, '10, Jessica Rubin, '08, Tiffany Scheff, '08, Charlie Cornish, '10, and Leigh Kelly, '09.
Bottom: ASAs plant flowers in the new community garden.

Best Buddies

Best Buddies is a non-profit organization that helps enrich the lives of community members with intellectual disabilities through friendship building, mentoring and support. The chapter is composed of approximately 25 Buddy Pairs (a college student and an adult member of the community with an intellectual disability) as well as 20 student members that attend group events and provide support for the club. Past events include: Lehigh's athletic events, performing arts, bowling and mini-golf trips, barbecues, holiday parties, dances, community service projects, fundraisers, and the regional Best Buddies Friendship Ball.

Buddy directors

President of the '06-'07 year was Alexandro Gonim, '07. President of the '07-'08 will be Ali Horkins, '09.

Making new friends

Top: Jenny Lofaro, '09.
Bottom: Ali Horkins, '09, with their new buddies

BSU

The Black Student Union is a social and political organization that creates awareness about things that affect the African-American community. Historically, BSU's were started at the height of The Black Power Movement to empower African-Americans on college campuses. Today the BSU at Lehigh still tries to embrace the original ideas of the BSU's of the past and to involve other racial and ethnic groups. BSU spreads diversity through equality and respect for all people on Lehigh's campus and beyond. They strive to create an organization that will generate dialogue among the students about the social and political environment at Lehigh. They have events such as lectures, trips, speakers, and discussions to enforce their beliefs.

Officers

Top: Newly elected President, Calvin John Smiley, '08, with Kathleen Cleaver.
Bottom: Historian, Jason Russell, '07.

Woman Power

Top: Breana Love, '07, served as a dedicated secretary since Spring 2005.
Bottom: Sonyo James, '07, served as president for two years.

Cheerleading Club

The Lehigh cheerleaders are energetic and athletic students who are devoted to the traditions of Lehigh and its school spirit. They enjoy the benefits of cheering for Lehigh's Division I football and basketball teams, whose fast-paced and competitive games always draw large crowds. Throughout both seasons Lehigh cheerleaders work hard to entertain these crowds, performing cheers, dances and advanced-level stunts. Football season is rich in tradition with games like Lehigh-Lafayette, the nation's most played college football rivalry. Lehigh cheerleading offers the chance to build friendships, team camaraderie and the opportunity to experience Lehigh's athletics at its finest!

Ready girls?!?!?

The cheerleaders of Lehigh University ramp up the spirit of the winning Lehigh football team.

The entire cheerleading squad

Right before a game, the entire cheerleading squad, all old and new members, get together for a group shot.

Chi Epsilon

Chi Epsilon is an honors fraternity devoted to maintaining and promoting civil engineering as an ideal profession. Besides academics, inductees must have sound character and a curious mind. Above all, members are required to excel in the three items of Chi Epsilon's motto Chi Delta Chi: Conception, Design and Construction. In November, Chi Epsilon participated in an International Can Project. In the competition, the cans were donated to a local food shelter. The group made an excellent rendition of the Petronas Twin Towers in Kuala Lumpur, Malaysia, and the \$100 prize for third place was given to charity.

The Chi Epsilon Transit

The Chi Epsilon Transit is a major symbol of our organization and is well known to all.

Chi Epsilon New and Old Officers

Top: Chi Epsilon Group Photo: Grant Flathmeier, '06, Mark Coreya, '07, Joseph Stondley, '07, Grad student Daniel Cook [Back row] Kerri Whilden, '07, Anthony Battistini, '07, Jamielo Drici, '06 [Front row]

Club Baseball

Over the last few years, the Lehigh Club Baseball program has grown to become one of the most successful student organizations on campus. In 2004, they joined the National Club Baseball Association and increased their game schedule from 8 to 24. The current roster includes 35 athletes who are unable to make the commitment required for varsity yet seek the opportunity to play competitive baseball. For the second year in a row, club baseball was played all year round. The Lehigh Club Baseball team had numerous goals to accomplish: new and improved equipment, an increased game schedule, sponsors, fund-raisers, and more.

Group shot

Members of the baseball club get together before a day of excitement on Goodman campus.

Always a fun time

A few intense baseball players pose for the camera after a long day of great baseball playing.

	Philosophy	

Club Basketball

Club Basketball, which is composed of both a traveling team and an in-house league, was created to give students the opportunity to improve their skills and have fun. The traveling team holds tryouts and provides a competitive setting that is not as demanding as the varsity team. Along with winning, their goals include meeting other students and staying in shape. The in-house league, which began in 2006, is active throughout the year. Two to three games are played every week, and it is open to all Lehigh students.

Taking the shot

During Club Basketball games, members of the team attempt to put points on the board.

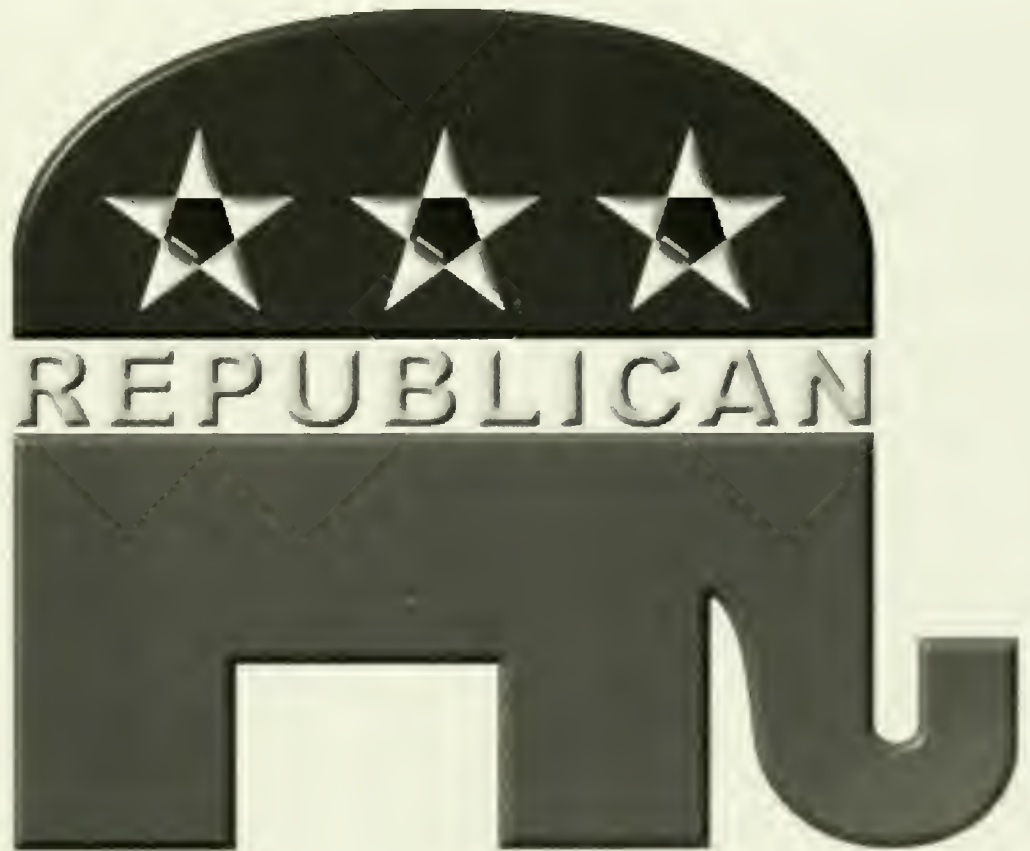

Team shot

The Club Basketball team poses for a group shot after a game in Grace hall.

College Republicans

The mission of the Lehigh College Republicans is to promote political discourse and to foster academic freedom. The College Republicans club promotes the traditional principles of the Republican Party. It applies these principles in support of various candidates and issues, including those on the Lehigh campus. College Republicans serves as a forum to advance conservative ideas and ideals on the Lehigh Campus. They register people to vote, engage in debates and assist in local Republican elections. Professor Amidon, their advisor, does his part to guide the club in the "right direction."

A vicious cycle

On long road biking trips, it's always a good idea to stop for an occasional break.

On the open road

Teammates enjoy the individual challenge that biking offers and the fact that they ride together as a team.

Cycling Club

The Lehigh University Cycling Club was created to provide a social and competitive platform for cyclists of all abilities. The club consists of approximately 25 undergraduate and graduate students ranging from novice to expert. Members are active in training and racing year-round, with mountain biking season in the fall and road biking in the spring. Lehigh travels to compete against universities in the Eastern Collegiate Cycling Conference (ECCC), which spans from Delaware to Maine. Their main objectives is to compete at a high level throughout the year and to qualify as a team for the collegiate national championships.

Dance Team

The Dance Team is an organization of talented dancers that strives to provide quality entertainment at school events. Performances include the freshman pep rally, Parent's Weekend football game, Lehigh vs. Lafayette bonfire, home basketball games, and more. This was their third season without a coach, and the team is headed by captain Dana Borriello and co-captain Cristina Ulloa. This fall, they instituted their first annual Dance-A-Thon in honor of the Autism Society of America and raised about \$500. They were really excited for this year as they planned on entering new endeavors, such as the UDA national competition. They hope you enjoy their performances and thank you for your continuing support!

Dancing frenzy

The dance team enjoys performing at football games (above) and hanging out together as a group.

Break it down

Top: The dancers show their moves at a Lehigh basketball game, and below they perform at the very first Dance Til Dawn.

All smiles

The Dental Society poses with a local dentist, one of many whom are valuable mentors for club members.

Community outreach

Both learning about dentistry and volunteering in local clinics are important to society members.

Dental Society

The Dental Society provides opportunities for students interested in dentistry to explore the many offerings of the dental profession. The society researches and performs interactive presentations to both Lehigh University and Bethlehem elementary students on the importance of dental hygiene. Members of the society also volunteer at local dental clinics and offices, observing a variety of dental procedures performed using both traditional and new technological techniques. Guest speakers also come to present useful information about applying to dental schools, dental school life and the future of dentistry. In all, the society provides a means for its members to delve into the dental field.

Echoes

The Echoes are Lehigh's premiere female cappella group, and the 2006-2007 school year marked their fourth year of existence. It was a big year that included a fall tour to Washington, D.C. and many other off-campus performances, near and far. In December, they held their first-ever solo concert for a packed Lamberton Hall and raised \$500 for Turning Point of the Lehigh Valley. The Echoes also partnered with Melismatics and A Whole Step Up for the 3rd Annual A Cappella Invitational Concert and an end-of-the-year concert in Zoellner Arts Center's Baker Hall.

Do you hear what I hear?

New members of the Echoes receive congratulations at a club dinner.

Lovely ladies

Many members of the Echoes become great friends through participation in the club and get to know girls from all different parts of Lehigh.

EMS

Lehigh University Emergency Medical Services is a volunteer organization that exists to provide emergency medical care, without cost, to Lehigh University's students, faculty, and staff. This service is provided 24 hours a day, 7 days a week. It is a completely student run organization that works closely with and is advised by the Lehigh University Police Department.

LUEMS is a BLS QRS (Basic Life Support, Quick Response Service). This service does not transport patients; they provide the initial assessment and treatment of the patient before care is transferred to an outside ambulance service, typically the City of Bethlehem or Bethlehem Township Paramedics. Each crew that responds has at least two members who are licensed Emergency Medical Technicians (EMT-B). In addition to responding to emergency calls, LUEMS provides stand-by coverage to campus events, such as sporting events and university productions, for the safety of the participants and guests.

This past year, LUEMS has continued to provide emergency care for the Lehigh community. They continue to work with the LUPD to ensure the safety and well-being of the campus.

Saving others

These are three key members of the Lehigh EMS who help take care of the student population.

Equestrian Club

The Equestrian team competes in 10 horse shows per year in Zone Three, Region Four, of the Intercollegiate Horse Show Association. Team members compete against 10 schools in the region including Princeton, Lafayette, Rutgers and Kutztown. This year the team placed third in Region Four behind Kutztown and Princeton. Over the past three years four riders have qualified for the national championships and many riders won the Reserve Champion for the open division at Nationals. The club also plans trail rides and other horse-related events and holds several fundraisers throughout the year, including Money for Manure.

The leaders

Top: Captains, Jill Dauglass, '07, and Jackie Annatone, '07.

Bottom: Megan Marse, '07, over fences.

Everyone squeeze together now

Top: The entire team at our final show of the year in March.

Bottom: L to R - Megan Marse, '07, Jill Dauglass, '07 and Jess Herlihy, '09.

Fencing Club

Fencing is a fast-paced and mentally challenging sport that is sometimes referred to as "physical chess." Sport fencing is different from what is commonly seen on television. The Fencing Club at Lehigh has active members in all three weapons categories: foil, epee and saber. It welcomes fencers of all skill levels interested in learning the sport and has recently joined the United States Fencing Association and aims to be more competitive in the future. The club is strong and exciting with great potential to grow and thrive in the Lehigh community.

The whole gang

All the members enjoy one of their last meetings of the year and get together for a group shot.

On guard

Two intense fighters that participate in the fencing club go at it at a normal club meeting.

Role playing games

Dressed up in Star Wars costumes or playing a game of cards, the Gaming Club is always having a good time.

Card games

Members of the Gaming Club partake in some intense card games. The club plays host to scores of avid gamers.

Gaming Club

Years ago, in the darkest corners of Lehigh's campus, a mad scientist was experimenting in his lab. A concoction was formed that created an earth-shattering explosion. Out of a fissure in the earth's mantle crawled the Gaming Club. The scientist stared at his creation in bewilderment, wondering what madness he had unleashed. The creature slouched into the only home it could find: the bowels of the Ulrich Student Center. In the spring, it rallies its followers to take over the UC for a weekend for the annual EPiC Gaming Convention. There, it bides its time, awaiting the Robot Revolution and playing countless board, video, and table-top games in the meantime.

LU Golf Club

The Lehigh University Golf Club was organized to bring student golfers together. The club is comprised of 38 members who play weekly during the golf season. During the 2006-2007 school year, the Golf Club held several campus-wide events. In October, with the cooperation of Phi Gamma Delta, they held the 3rd annual Fiji Fall Classic to benefit the Red Cross. This event had over 100 participants from more than 20 different campus groups. In the spring the club sponsored a golf tutorial for students. The goal of the program was to introduce golf etiquette to students for use when the situation arises in the business world.

Taking a break

Men of the LU Golf Club stand for a photo on the course. The club hosts a variety of charity fund-raisers with several national golf associations.

Under par

Ladies from the LU Golf Club pose for a picture. Members of the club wish to promote a general interest in golf for everyone.

Green Action Club

Green Action is Lehigh's environmental club. It is dedicated to defending the planet Earth and spreading environmental awareness on campus. It is constantly involved in "greening" Lehigh's campus through recycling, alternative energies and the initiation of more sustainable practices. This year, Green Action put together an environmental proposal which was submitted to President Gast, celebrated a Green Week each semester and became a part of the Global Union. Green Action aims to raise environmental awareness, preserve nature and celebrate the beautiful world around us.

Chug

A member of the Green Action Club does his part to promote recycling.

Reduce, reuse, recycle

Members of the Green Action Club pose for pictures. The club promotes environmental causes through education, protests, and direct action.

Gymnastics Club

The Lehigh Gymnastics Club is a group of fun-loving, athletic students who enjoy doing gymnastics. They travel to Parkettes National Gymnastics Training Center in Allentown for group lessons and club training workouts. Club members are of all experience levels, ranging from beginners who want to learn gymnastics to gymnasts that have competed at high levels for many years. They delight in the opportunity to exercise, enhance their gymnastics skills and spend time with each other. They are planning to compete as soon as possible or in the upcoming years as the club grows in size and talent.

Stretch

Morgan Capezzero, '06, Kenzie Bartlett, '10, Katie Bartkovitz, '10, and Brian Walker, '07, do heel stretches. Capezzero and Bartlett do full scales on the beam.

Flexible gymnasts

Katie Bortkovitz, '10, Morgan Capezzero, '06, Radek Kolecki, '09, and Brianne Moses, '10, do bridges. Capezzero does a double stag handstand on the beam.

Joking around

The club's two senior members, Tommy Gentis, '06, and Anthony Prousi, '07, enjoy each other's friendship while joking around during a meeting.

Recipe for friendship

Members of the club take a break from participating in the Iron Chef Competition to smile for a picture.

Hellenic Club

The Hellenic Club is the cultural epicenter of Greeks at Lehigh. It is a club celebrating the vibrant, rich and traditional (as well as modern) Hellenic life. They practice and perform traditional dances that have been part of the very fabric of the Greek culture since its inception thousands of years ago. During International Week every November, as well as the International Bazaar in the spring, they serve delicious ethnic food that students from all other clubs, nations, backgrounds and tastes have come to love and expect from their organization.

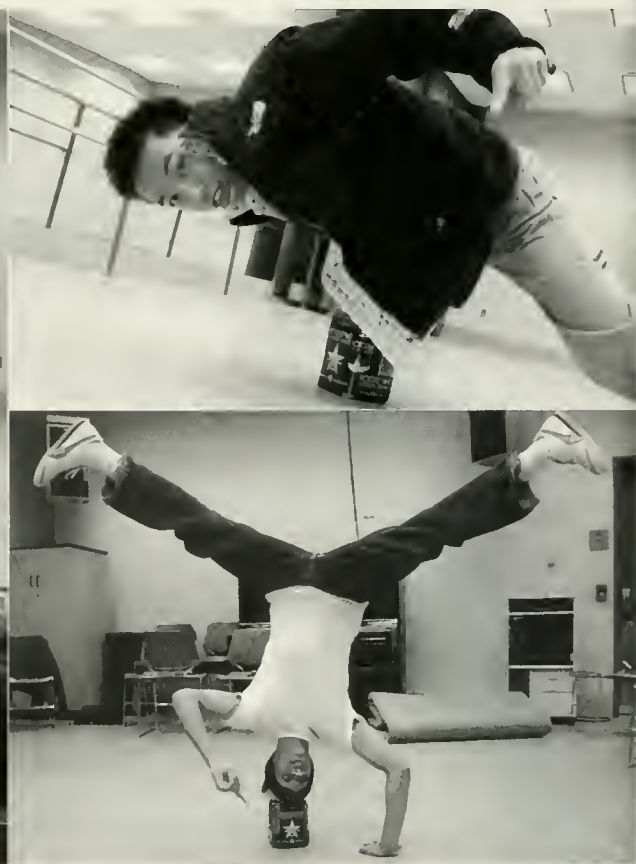

Hip Hop Club

The Hip Hop Club is a laid-back club focused on break dancing. They usually perform at ACS Fusion, Talent Show, International Bazaar, NSBE Fashion Show, and sometimes participate in performances with the dance team. This year the club was led by President Mithun Patel, Vice President Jason Keung, Treasurer James Chen, and Secretaries Adam Yeung and Radek Kolecki. Many people come and go for a taste, and they welcome people to try it and learn whatever they want from them. This club was originally started by Wilson Antoine in 2003. Since then, the club has come a long way.

Showing their skills

The Hip Hop Club performed at Rolly on the Hill, a campus-wide event before the Lehigh-Lafayette game.

Hip Hop, they don't stop

Club members pose with Rockstar energy drinks while break dancing and creating original moves.

Ice Hockey B Team

Lead by President and Captain Matt Wolf and V. P. and Assistant Captain Vince Amoroso, the B team joined the Delaware Valley Collegiate Hockey Conference (members of the Atlantic Coast Hockey Association) for the inaugural season in 2005, their second season in the league. During the 05-06 season, they achieved a 9-9 record and won their first playoff game before falling to the eventual league champions in the second round. This season they overcame injuries and adversity, finishing the season at a hard fought record of 4-12-2.

Defending the zone

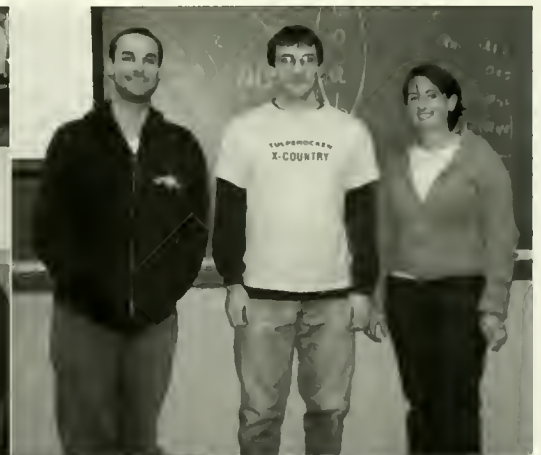

Team members block their opponents from scoring while keeping the puck moving on offense.

Team pride

Throughout the season, the team fought their way to a successful season with leading scorers Matt Wolf (graduate student) and Vince Amoroso, '09.

IEEE

Lehigh University has the world's oldest IEEE student branch, which was originally chartered October 2, 1902, as a student branch of the American Institute of Electrical Engineers. Its antecedent society was formed in 1884 as the Lehigh Electrical Society in the Department of Physics and Electrical Engineering. The student branch exists to foster the professional development of engineering students in electrical and computer engineering and provides a mechanism for interaction of students and engineering professionals via technical meetings and social events. Membership in the student branch is composed primarily of students in electrical engineering and computer engineering.

Common bonds

Members enjoy each other's company at the annual Spring Social, chatting about their experiences as engineers and eating pizza.

Leadership

Tap: Leaders Jim, Ben, and Sara successfully organize events for the club members to socialize and meet business owners for job opportunities.

I.I.E.

The Lehigh Chapter of the Institute of Industrial Engineers (IIE) is a school chapter of the national IIE organization. IIE's mission is to provide leadership to developing industrial engineers. This year, its chapter goals were to help the educational experience of all students within the Industrial Engineering department and to set a stronger foundation for our future membership. It also sponsored plant tours to B. Braun Medical and Binney & Smith, which were planned with professors to coincide with their teachings at the time of the tour. IIE also held their annual Career Quest Workshop, in which IIE Professionals spoke with students about the interviewing process and critiqued their resumes.

I.S.A.

The Indian Students Association (ISA) is a large multicultural club that focuses on spreading the culture of India across the campus and promoting diversity in general. With the membership and dedication growing yearly, the ISA's major cultural show of the year, Diwali, has become one of the largest club-organized cultural shows on campus. The club also visits local elementary schools and high schools to increase awareness across the community. The ISA has many student-choreographed dance troupes that perform in venues anywhere between Bethlehem and Philadelphia.

Performances

The club performs numerous times during the year including at Upper Darby (above) and during Spectacular Spectacular (below).

All decked out

Top: Leela, a dance troupe, is a part of ISA.
Bottom: Diwali performers in costume.

Interpreters Association

The purpose of the Interpreters Association is to promote diversity on campus by translating various documents from diverse lingual backgrounds. The Interpreters Association tries to bring understanding of issues, especially the ones with controversial nature, to the campus by amalgamating opinions from individuals of various lingual and cultural backgrounds and exposing the conglomerate to the student body of Lehigh. The group wishes to bring to light more issues for debate and exposure by translating the articles from some of the major newspapers and magazines, such as the New York Times and the Time Magazine.

Sun and Hana on Sun's birthday

Sun Hwang, '07, the president, takes a picture with Hana Lim, '09, the secretary, during his birthday party.

Party anyone?

Members enjoy a barbecue outing during March, under chilly weather conditions.

Investment Management

The Lehigh University Investment Management Club allows for students to experience real world investing first hand. The club invests and manages a \$120,000 portfolio and tracks current and potential positions. It encourages students to follow current events not only in finance, but also in the geo-political sector as well. Finally, the club brings in speakers from various industries and helps students obtain internships and jobs in the financial services field.

Members with the adviser

L - R: Jason Devlin, '07, Brian Papek, '08, Bridget Clancy, '08, Professor David Myers, Jash Kuzan, '07, Will Shlosh, '07, Sam Shikior, '07.

Jazz it up

This Spring, all four jazz ensembles performed various pieces at their concert. Each group contains members of every class.

Practice makes perfect

The Jazz Ensembles do a great job of creating authentic jazz music in the 21st century. They practice one to two times a week to perfect their pieces.

Jazz Club

The Jazz Ensemble, Jazz Band, and Studio Jazz Lab Orchestra, under the direction of Bill Warfield, rehearse and perform music from jazz greats such as Hank Levy, Sammy Nestico, Pat Metheny and Jim McNeely. The groups are comprised of selected students representing a diverse group of majors and musical backgrounds, as well as faculty and community musicians. The ensembles rehearse weekly and perform a concert each semester. Students also have the opportunity to venture into the studio to record selections from each year's repertoire; every few years these recordings are compiled and produced on CD.

Kappa Kappa Psi

The Kappa Gamma chapter of Kappa Kappa Psi, the National Honorary Band Fraternity, had a great year serving our university bands, traveling to other chapters, and visiting its favorite restaurant, Cracker Barrel. Their service projects this year included helping out at a high school band festival, cleaning the score library, providing some much needed food after rehearsals, and cleaning up the rehearsal space for the Marching 97. They also welcomed a fantastic Nu class of six into their membership in late March.

The newest "Nu" class

Top: The newest members of Kappa Kappa Psi were welcomed into the Nu Chapter of the fraternity by their Bigs.

New year, new family

Big Brother Karl Fetzer, '07, with his Little, Libby DeFeo, '10, with their clay creation. This was one of the first activities that the new Big-Little pair had to accomplish.

K.S.A.

Korean Student Association is a cultural gathering of Korean/Korean-American students to preserve tradition and to promote the cultural awareness at Lehigh University. During the fall, the members interacted during activities such as intramural soccer and an outdoor barbecue. These activities provided opportunities for members to interact with each other and the student body, and the enjoyment brought the members closer. They were excited to participate in the 20th annual International Bazaar during the spring to share their food, culture, and tradition with not only the student body, but also with the Bethlehem community.

Celebrating together

Club members celebrate birthdays (lower left) and the International Bazaar (upper left) with pride in their heritage.

Winter excursions

The club took a snowboarding trip. It was a great experience and it allowed everyone to get to know each other much better.

LU's Finest

LU's Finest Step Team is a dance club that uses dancing to make music. The rhythmic beats produced by the stomping of their feet and clapping of their hands is a tradition that has been passed down through generations of people, originating from Africa. The club brings people of different races and backgrounds together to perform and have fun. They had the privilege to perform at several colleges in the area, Rally on the Hill, and the largest talent show of the year, Spectacular Spectacular. They also were featured on PBS 13 to show how Stepping affects college life. Their motto is: "Stepping is Paramount."

Work it out

LU's Finest preforms at Rally on the Hill, getting the whole school pumped for the Lehigh-Lafayette game the next day.

Stepping in style

This year's team includes Sonya James, '07, Nicole Teasley '07, Corrie Rich '07, Olivia Vellios, '08, Callie Roberts, '09, Donia Jarrar, '08, Brittany Lewis, '09, Vanessa Alvarado, '09, Whitney Pryor, '08, Tara Stottmyer '07, Shaneka Duren, '10, Chiquita Geldorp, '08, Caitlin Colvin '07, Mardesse Clark, '10, Niki Lee '10 and Jessica Jean, '10.

Marching 97

This year, the Marching 97 is celebrating 100 years of band at Lehigh! And boy, did they celebrate! Not only did they enjoy more brews, brats, and balls than ever, but they single-handedly “brought sexy back” with the return of 226. The Marching 97 remains undefeated at the Lehigh football games and will continue to yell “Lafayette’s socks” whenever possible. To keep from falling through the ice, they will come back next year with more psych-psychery than ever. They’re looking forward to a great season with our new Executive board, and, as always, with the scrumtralescent Al Neumeyer.

Music masters

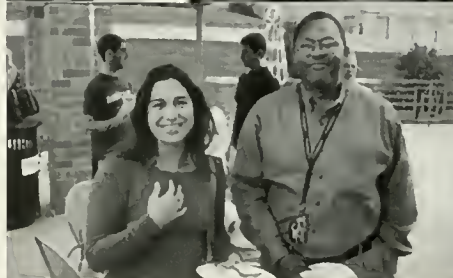

The Marching 97 are a tight group of students who share their school spirit through the art of music. Their enthusiasm pumps everyone up for the big games.

Bring in the band

Adam Luttrull, '10, smiles with his instrument during one of the band practices. The Marching 97 perform at every Lehigh football game.

Marketing Club

Founded in December 2001, the Lehigh University Chapter of the American Marketing Association (Marketing Club) has a mission of educating the Lehigh community in the field of marketing. Through numerous speakers, exciting field trips, and other club activities such as barbecues and networking parties with other clubs, the Marketing Club strives to maintain an active presence at the University. With over 40 members, the Marketing Club is one of the largest organizations in the business school and was deemed the “3rd Most Outstanding Student Organization” by the Student Senate Allocations Committee for the 2001-02 academic years.

New faces

Students and faculty alike enjoyed a barbecue at the beginning of the year.

Exploring the business world

The whale club visited the TRL studios in New York City. They often take trips to factories to expand their knowledge of the marketing world.

On the rocks

The Melismatics arrange all their music themselves, and sing songs from artists like Justin Timberlake, Queen, and Ben Folds.

Making music

The Mels have a fall and a spring concert each year and host Lehigh University's A Cappella Invitational along with Lehigh's other a cappella groups.

Melismatics

Lehigh University's premiere a cappella group, the Melismatics, are a full-blown cover band without the instruments. Founded by Anita Green and Hayley Teich in 2001, and composed of both male and female members, the Mels entertain audiences with their rich sound, energized performances and some of the most amazing a cappella arrangements of today's popular songs. The Mels's set lists are limited only by a song's ability to be arranged. If they can arrange it, they will sing it! All of their arrangements are composed and taught by their own members, making them a completely student-run group.

Men's Club LAX

The Men's Club Lacrosse team is a group of Lehigh students who either played lacrosse in high school and want to continue or played at the varsity level and have opted for a somewhat more laid back level. It is a member of the NCLL, an intercollegiate men's club lacrosse organization that includes teams such as Princeton, Villanova, Ohio State, Penn State, Lafayette, and Towson. The team is comprised of about 40 guys who practice about twice a week, playing games in the fall and spring. Having been competitive in the playoffs two of the last four years and making it to the semifinals in 2003, they hope to continue a tradition of success while still having a good time.

Spring 2007 Schedule

Day	Date	Time	Opponent	Location	Outcome
Sun	3/04/07	5:00 PM	at Millersville	Pucillo Field	L 0 - 1
Tue	3/13/07	3:30 PM	at Albright	Shirk Stadium	W 12 - 0
Sun	3/25/07	4:00 PM	vs. Princeton	Lafayette College	W 1 - 0
Sun	3/25/07	6:00 PM	vs. Lafayette College	Lafayette College	L 3 - 5
Sat	3/31/07	2:00 PM	at Kutztown	Lytle Field	W 6 - 5
Sat	3/31/07	4:00 PM	vs. Franklin & Marshall	Lytle Field	W 1 - 0
Sat	4/14/07	12:30 PM	vs. Bucknell	Lehigh	W 7 - 5
Sat	4/14/07	4:30 PM	vs. East Stroudsburg	Lehigh	W 10 - 0
Sun	4/15/07	2:00 PM	vs. Wilkes	Ulrich Complex	W 1 - 0

Mustard and Cheese

The Mustard & Cheese Drama Society was founded in 1884 by Richard Harding Davis and Charles Belmont Davis. Since then, M&C has been committed to supporting Lehigh theatre and encouraging theatrical projects within Lehigh and its community. Throughout the school year, M&C sponsored many of the Diamond and Black Box shows. It also organized events such as Wing Night, a trip to Grey Gardens in New York City, play readings, improv shows, and portions of the Say Word! Hip Hop Theatre Festival. Their future goals include bringing theatre into the lives of the student body and sparking interest and participation in theatre at Lehigh University.

Acting and the board

Top: Three active members of the M&C Drama Society prepare for a big scene.
Bottom: The new board of the M&C gets ready for a fun year.

Preparation and the group

Top: One M&C member helps another actress by doing the costume makeup.
Bottom: Everyone prepares for a jam-packed year of excitement.

Outing Club

The Lehigh Outing Club is a group of students who enjoy learning about and participating in outdoors activities. The group has members of all ability levels who are interested in a variety of activities. The club seeks to provide a forum where students can meet one another through mutual interests and form and strengthen bonds and friendships. It runs many different trips throughout the year. In the fall the Outing Club battled the rapids down the Lehigh River. Other trips included snow shoeing, skiing and snowboarding at Blue Mountain and hiking in different locations. The biggest trip the club had was camping at Lake George.

Rock climbing

Matthew Varrelman (above), '10, and Craig Ungaro (below), '09, make their way up the wall.

Lehigh rafting

Paintball Club

The paintball club had another great year in 2006. It had more members, more funding and more trips than ever before. For the first time in the club's history the weather actually seemed to be in its favor. The October Skirmish USA trip was one of the best trips they have ever had, across the board: no rain, no lost equipment and no surprise blizzards. Everybody really enjoyed themselves. In the spring they ran two more trips.

The three-year tenure of President Michael Szedlmayer ended in May 2007. He thanks everyone who has been a part of the Paintball Club and wishes good luck to those who take up the reins.

Isn't this nice?

Top: Active member of the paintball club prepares for a hidden attack.
Bottom: The entire group gets together for a picture before the war begins.

Fun in the wilderness

Top: A lone ranger pushes forward after losing most of his team.
Bottom: One group leaves their position, moving on to the next battleground.

Phi Sigma Pi

Phi Sigma Pi National Honor Fraternity (Co-ed) is based on a tripod of scholarship, leadership, and fellowship. The brothers of the chapter, Delta Chi, exemplify these qualities, combining the acquisition of knowledge and the fostering of leadership and fraternal fellowship through both charitable and social events. This fall, they hosted their second annual kickball tournament, and alumni weekend, which included a pot luck dinner and tailgate BBQ. The brothers are firmly committed to involvement in the community, and this year they helped out at Boys and Girls Clubs. Delta Chi wishes all of their graduating seniors the best of luck and welcomes all of their wonderful new brothers.

Outside and inside

The group and the trip

Top: The entire new PSP group gets together for an awesome picture before beginning one of their events.
Bottom: Members gather around an exhibit while on a trip.

Philharmonic

After a very successful tour through South Africa performing five concerts the Philharmonic returned to the states ready to start another concert season. The 100-member orchestra welcomed back returning members and held auditions for new freshmen. This year, the orchestra worked with some of the world's best conductors in challenging and exciting concerts including Carmina Burana with Lehigh Choral Arts, Brahms, Beethoven, and Bach conducted by JoAnn Falletta. LPO: Unplugged II, and The French Connection featuring Stravinsky's Firebird Suite.

Special thanks to Linda Ganus, Tina Schwarz, and Professor Salerni for their continued support for the orchestra.

Musical talent at its best

Top: Musicians Tracy Smith, Ashley Steen, and Rebecca Merala.

The Sound of Music

Top: The viola section is all smiles about practicing.
Bottom: The orchestra prepares for one of its many performances.

Pi Tau Sigma

Pi Tau Sigma is an International Mechanical Engineering Honor Society, instituted to establish fellowship among members and to benefit those studying Mechanical Engineering. The core values are integrity, service and leadership. Lehigh's Theta Chapter hosts activities such as the pre-career fair dinner to allow society members to dine with engineering companies, weekly review sessions for underclassmen, and a yearly trip to a local engineering firm for insight on engineering applications. Pi Tau Sigma also elects a mechanical engineering professor of the year and has annual pizza parties with the mechanical engineering faculty. The

Professor of the Year was Dr.

Honor in engineering

Quick, quick, slow

Justin Wilson (right), '07, shows how it's done.

Fun in the sun

Daniela Coro, '08, president of the S.A.L.S.A. hangs out with friends at the International Bazaar.

S.A.L.S.A.

The South American and Latin Student Association provides students an opportunity to learn more about the rich and diverse culture that extends from Mexico to Argentina. Its mission is to promote diversity and understanding by increasing interaction between the Latino population and Lehigh. They organize events such as pizza party discussions, Latin movie nights, and their most attended event, salsa dancing. Salsa, Merengue, and Cumbia lessons are taught by volunteers and advanced dancers and are open to anyone. They also prepare Latin food, hold cultural immersion programs, and discuss global Latin American issues during International Week and at the International Bazaar.

Snowboarding

The Lehigh University Snowboarding Club is a recreational organization comprised of approximately 60 Lehigh students created so that snowboarders of all skill levels can get together and help improve each other's abilities. Some of the members compete in races and boarder cross competitions throughout the season, while others just like to join in on their twice-weekly trips to local mountains such as Blue Mountain or Camelback. Although the club consists mainly of snowboarders, there are a few skiers who also enjoy coming on the trips for a less competitive atmosphere.

Hitting the slopes

An active member of the snowboarding club gets on the mountain after the first snow fall of the season.

Let it snow

The Snowboarding Club enjoys the camaraderie of their trips to local mountains as they get to know each other.

Formal dinner

The members of SHPE enjoy a nice dinner.

S.H.P.E.

Lehigh University's student chapter of SHPE values heritage, social responsibility and the desire to promote equality of all people through the use of science and technology. They are committed to increasing educational opportunities, promoting professional and personal growth, and engaging in educational, business and governmental issues. Currently, the chapter implements numerous social and educational programs. Among these are Salsa with Salsa, an event that gives students the opportunity to learn salsa and to enjoy a buffet of Hispanic food, and Calle Nueva, a block party that showcases the talent of South Side Bethlehem and provides a forum to enjoy the best aspects of the Latino culture.

Spanish Club

The Spanish Club is devoted to bringing cultural diversity to Lehigh University. In September, they celebrate Hispanic Recognition Month with free traditional Spanish food, music and activities. They are dedicated to exposing members to all aspects of the Spanish culture; they have held meetings at the local Spanish restaurant, La Lupita, and have had movie nights with Spanish snacks. They planned a trip to a museum, which features artists such as Dali and Frida Kahlo. Lehigh University's Spanish Club congratulates the class of 2007 and wishes them luck in all of their future endeavors!

Culture and friendship

Top: Spanish cultural display in the Global Union lounge.

Bottom: Smile, giggle, and share the culture.

Social gathering

The Spanish club members enjoy a day of gathering at the Global Union lounge in Coxe Hall

Fun activities

Spectrum group pictures

Top: Stanislav Tsanev, '08, Derek Matyas, '10, Richard Sypek, '08 Chris Diggs, '07, Michelle Harris, '09.

Bottom: Group picture of the members.

Spectrum

Spectrum acts as a safe-space environment for lesbian, gay, bisexual, transgender, and questioning (LGBTQs) students, and their allies, to explore their identities and form a community. It provides a great avenue for students to come together, meet one another, and have a good time. Events include National Coming Out Day Awareness, Annual Illusions Drag Show, guest performers and speakers, movie nights, Thanksgiving and Halloween celebrations and weekly social meetings. Additionally, Spectrum attends similar events of other LGBTQA organizations at other universities.

Medical Society

The Lehigh Student Medical Society was founded to foster camaraderie among pre-medical students and provide them with an opportunity for medical experience. Starting in 2002, they have held regular meetings with medical students and admissions officers as guests and have developed a volunteering program for club members at St. Luke's Hospital. The October 2006 teddy bear drive collected over eighty stuffed animals that were delivered to pediatric patients at St. Christopher's Hospital for Children in Philadelphia. The trip to the Mutter Museum at the College of Physicians in Philadelphia and watching Grey's Anatomy after meetings has allowed LSMS members to spend time together.

A trip to Philadelphia

Members of the Lehigh Student Medical Society took a day trip to Mutter Museum at the College of Physicians in Philadelphia.

At the gate of the museum

The members posed in front of the gate to have something to remember the day by.

Swing Club

You'll find this group up and dancing all night long. Monday night lessons give everyone a chance to pick up a few moves. Group performances year round and on-campus dances with some of the best bands around invite all of Lehigh to jump, jive and waltz with some amazing dancers from other colleges, Philadelphia, and New York City. Hopping all over the swing dance scene, weekend trips to Philly and local colleges guarantee that the LU Swing Club never misses a beat. So grab your dancin' shoes and go join them – the best is yet to come! They are one of the best college groups around!

Swingin' in the new year

Club members dance the night away in Lambertan accompanied by a live band. The club holds monthly dances and practices every Monday night.

It don't mean a thing, if it ain't got that Swing

Bottom: Members of LU Swing perform at the Spirit of Lehigh parade on the University Walkway.

Tae Kwon Do

The Lehigh Tae Kwon Do team, led by Coach Motoo Yasui and President Ryan Vernooy, trains at the Lehigh Valley Tae Kwon Do School. The intense training that each competitor endures allows them to make a strong showing at the collegiate tournaments. Their first competition was held at Cornell University, where Ryan Vernooy and Jim Blaney fought their way to a third place standing. The Lehigh Tae Kwon Do team also made a strong showing in the second half of the year in the New York University tournament. Every competitor on the team fought with the intensity and determination that we are taught in practice, and they geared up to compete in two more tournaments this year.

Concentration is key

Members show their skill level by performing various tasks, such as breaking wooden boards.

Ready to fight

Alex Shaffer, '08, James Blaney, '08, Ryan Vernooy, '09, and Tabin Ahmad, '08, stand at attention during their annual belt testing in December.

New members

A group of new Tau Beta Pi members get together for lunch.

Tau Beta Pi

Tau Beta Pi, the national engineering honor society, is the nation's second oldest collegiate honor society. It was founded at Lehigh University in 1885 by Edward Higginson Williams, Jr., to mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character in engineering, or by their attainments as alumni in the field of engineering, and to foster a spirit of liberal culture in engineering colleges. Tau Beta Pi provides professional development to its members and is active in community service in Lehigh and Bethlehem. The chapter prepared a bid to host the Tau Beta Pi National Convention, which drew about 700 participants to the Lehigh Valley.

Tennis Club

The Traveling Tennis Team includes many talented players that have a strong interest in tennis. In the fall, the team played numerous dual matches against other colleges and universities. In the late fall, the team also participated in the regional tennis tournament for all middle-state colleges and universities. As a result, Lehigh University placed second in the tournament which qualified the team to go to nationals, which was held in North Carolina, and everyone received a trophy. The team has a very strong bond and always welcomes new members every fall.

Winning smiles

The team poses for a group shot after the Campus Championship competition.

Serving up success

This year's team ended the season with plenty of wins under their belts. The travel team is ranked 15th in the nation.

Right of the Press

September 2006

Armenian Genocide: Common Sense, Please

Ronnie Craig Ann

As a continuation to the ongoing controversy caused by two articles that appeared in last year's *Lehigh Patriot* (formerly the *Last Right Wing Conspiracy*), author and professor Peter Balakian came to Lehigh's campus on September 14th to talk about the irrefutability of the 1915 Armenian Genocide.

Decades of the genocide's denial by the Turkish Government manifested itself locally when Lehigh's Turkish Students Club responded in anger to an article written by an Armenian student. That article sought to convince its readers to advocate for official recognition of the events surrounding the massacre of over a

The Bergen County, New Jersey-raised Balakian is an English professor at Colgate University and is the author of two books on the matter. Of Armenian descent himself, Balakian claims to have "never debated the Armenian Genocide," insinuating that there is not much to debate in the first place.

He began his hour-long talk with an open letter to the Turkish Students Club, well aware of their counter-informational drive prior to the actual lecture. Balakian pointed out that as of today, sixty Turkish writers are under fire from the Turkish government for describing the events in a manner contradictory to the government's own accounts.

Turkey claims that there was a tremendous loss of life on both sides due to an Armenian insurrection. Balakian suggested that a government that does not allow for

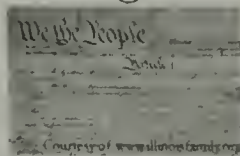

cause international shame and embarrassment.

"What's controversial in Turkey isn't controversial in the rest of the world." This is true. Professor Balakian and the majority of people that know what happened in 1915 and the years leading up to it consider it genocide, hands down.

The reason why the Turkish Students Club can confidently object is because the facts that they use work in their favor. So how does one persuade the impressionable Lehigh student into believing one side or the other, when fact is pitted against fact?

I know some of these facts can easily be fabricated or used completely out of context. Can we reasonably expect the middle-ground Lehigh student to verify each piece of "evidence" thrown at him? The intrepid among us may, but let's

America's Religion

Jeff Shaw

September 17 marked the 219th anniversary of the signing of the Constitution of the United States. In the two centuries since its creation the U.S. Constitution, with its subsequent amendments, has become one of the most respected

The Lehigh Patriot

The Lehigh Patriot was founded in 2003 as the *Vast Right-Wing Conspiracy*. In January 2006, the name was changed to The Lehigh Patriot. The Patriot is a monthly political newspaper that seeks to stimulate political debate on campus. It also seeks to sponsor speakers that will further promote political understanding and discussion among Lehigh students. The purpose and aim of The Lehigh Patriot is to serve as a forum for the political and social writings and opinions of Lehigh University, to foster debate and discussion, and to work against political apathy.

Turkish S. A.

The Turkish Student Association brings Turkish undergraduates together and educates the Lehigh community about Turkish culture. This year, TSA had its traditional Ramadan Dinner to share the experience of fasting, assisted the Admissions office in recruiting students from top high schools in Turkey, and sponsored Paul McCarthy's lecture, "Why the Armenians Were Moved." The club also worked with the graduate Turkish Club to organize a Turkish Night, which included a dance show and Turkish music, and hosted a Food Event in the International Bazaar. TSA is proud of how well their efforts have been received by the Lehigh community and even the Turkish embassy.

Surprise talent

Grad Student Nikos Papaioannov, in his first year on the team, managed to score 18 goals at Champs.

A rebuilding year

After an unfortunate seeding and difficult bracket in the Mid-Atlantic Conference Championships, the team finished 7th but looks enthusiastically to next year.

Waterpolo

With players hailing from Greece, France, California, Missouri, and Hawaii, polo players share a love for a seemingly bizarre sport. In its fifth season, the club became more competitive by playing against colleges throughout the state. Led by seniors John Kupstas (First Team All-Conference), Claude Kershner, Eryn Gaul, and graduate students Nicole Woomer and Nikos Papaioannov, the team continues to be the highest ranked co-ed team in the Mid-Atlantic Region among a league of all-male teams and boasts a winning record. With no juniors this year, the team enjoyed the development of sophomores Alex Seipp and Tom O'Donnell, freshmen Libby DeFeo and Mike Fedorka, and goalie Thomas Boinot.

WLVR

WLVR 91.3 FM is Lehigh's campus radio station, broadcasting 20 hours a day and in "automation" overnight. It is completely student-run by volunteers and one staff advisor. The station's programming is streamed worldwide through the website, www.wlvr.org. In the spring, 74 hours of student programming occurred each week, supplemented by staff volunteers who also have a passion for radio broadcasting and dedicate two hours a week. The staff is not limited to certain playlists or "top 40" song requirements, allowing staff to supply their own music. After being runner-up in years past, this year, WLVR won the 2006 Lehigh Valley Music Awards for "Best College/Community Radio Station." WLVR continues to gain listeners both on and off campus.

Behind the scenes dedication

Students and staff who contribute their time to the station are dedicated to running quality programs on WLVR airwaves.

Women in Business

The mission of the Women in Business organization is to support and promote women entering the business world and those who are already established within it.

The club achieves this goal through planning, promoting, managing, and participating in events, enabling club members to develop strong communication, interpersonal, project management, and networking skills. Career panels are held multiple times a year. Professionals who are established within the various business fields come to Lehigh to share their experiences and words of wisdom with students.

Women's Rugby

Women's Rugby plays games in the fall and spring. The team is comprised of 30 girls who travel to schools around eastern Pennsylvania. After 12 of the 15 starting players graduated last year, a great rookie turnout helped bring new talent and potential to the team. Although the overall record was 1-4 this fall, the team showed a lot of improvement as the year progressed, continuing to develop skills and having fun. Graduating only two seniors this year, they hope to strengthen the connection between all the team members and build on the ability to play together. Overall, they look forward to a promising future in the upcoming season and for years to come!

Tons of fun

Teamwork is important in any sport, and women's rugby exemplifies that here.

Having a ball

Top: Two seniors of the team, Alex Ganim & Kristo Kobeski.
Bottom: Lauren Noce, '08, runs with the ball.

Women's Soccer Club

The Women's Club Soccer team is comprised of talented, dedicated soccer players that seek a balance between competition and fun. The team plays in intercollegiate games and participates in tournaments, with a 2006 record of 5 wins and 2 losses. The 2006 season was the first year that tryouts were held, increasing the competitiveness and dedication of players. The team was led by two senior captains, Tori Federico and Lauren Wexler, but practices were run with input from the whole team. Each player improved both her personal and teamwork skills, making the season a success. In the spring semester, the players met for informal indoor games in Grace Hall to keep up their skill level and have some fun.

Practice makes perfect

Two dedicated members of the soccer club enjoy an early morning practice on Goodman campus.

Everyone together

The entire women's soccer club takes a group shot after a long day of playing.

World Affairs Club

The World Affairs Club is an academic and social organization that strives to educate students and the Lehigh community on issues related to current world events. The club has four elements: academic, social, publication, and Model UN. All International Relations majors are members of the club, and anyone else interested in current affairs is encouraged to participate and attend WAC events. The 2006-2007 academic year was one of WAC's most active years, with a wide variety of events including film series, lectures, lunch discussions and visits by the Syrian and Slovenian ambassadors.

Syrian ambassador

Top: WAC was a co-sponsor of many events, including a visit by the Syrian ambassador.

Beads for life

At the International Bazaar, the WAC sold jewelry made by Ugandan women who beaded the jewelry out of recycled materials (magazine and newspaper articles) to help pay for health care, education for their children, and food.

Living it up

STUDENT LIFE

in the Lehigh community

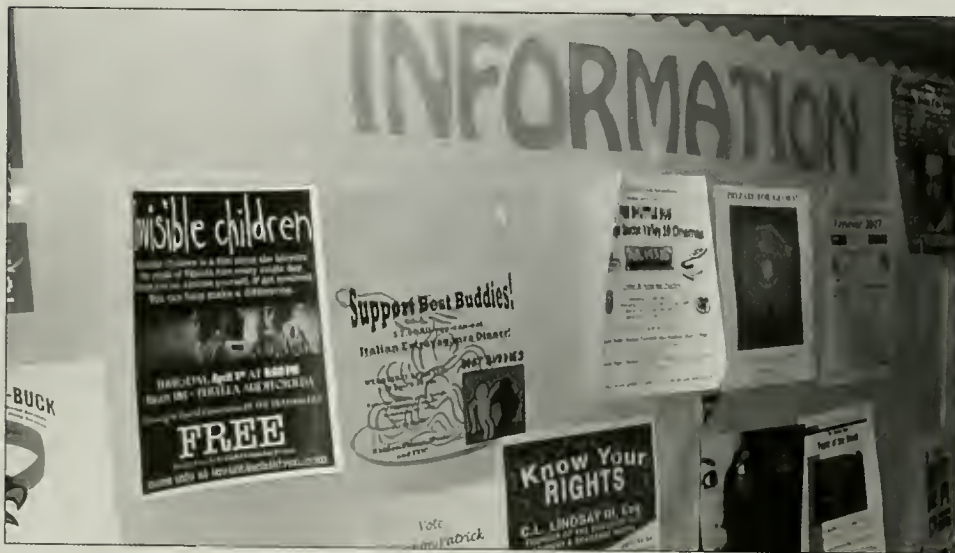

Lehigh's ambitious past building programs have left students who wish to live on-campus with an array of modern living quarters. Architecturally, our campus varies from the tennis community layout of Trembley Park, to the Brutalist concrete lines of the Centennial complex, to the neo-gothic Freshman Quad. With most dorms, suites, and apartments ranging in age from five to sixty years old – all with cleaning services and security provisions, dorm life isn't as dreary as the northeast Pennsylvania's dark winters and overcast summers. Recent policy changes, in addition to the adaptation of the RHA to select student demands has fostered community living options, such as CHOICE substance-free housing, and the environmentally friendly green house. Existing special-option housing such as ROTC and UMOJA remain, as well. Next year, Lehigh has revealed that the living options have further broadened, with the addition of the South Mountain College program. This, in concert with our extensive community of Greek housing and off-campus athletic and multi-use housing ensure that, with a bit of research, the average Lehigh student goes beyond simply living on campus.

Cabin Fever

Living in freshman housing is many students' first experience living away from home and each dorm has its various pros and cons. Despite being far away from "the hill", Lower Cents does manage to have its own beach. Upper Cents' proximity to Rathbone often appears advantageous to freshmen at the beginning of the semester, but toward the end they begin to rue its closeness and are glad that Taylor gym is only a flight of stairs down the hill.

In the heart of freshmen housing is Richards. With its 3:1 boy to girl ratio, Richards may appear favorable to incoming female students, but another pull is its large doubles and the secret, infamous, extra large rooms. Dravo is known for being the highest freshman dorm on the hill and these students tend to climb the most stairs to get back to their dorm. After all, "it's all downhill from here." McClintic-Marshall, or M&M, is known for its eventful study lounges, as M&M-ers are often awake at all hours of the night; they do live in "the sweetest place on earth."

□ *Amanda R. Howland*

Moving Up

As freshmen, our choices are limited in where we live. More often than not, we are stuck in tiny rooms that are the size of our closets back home. Thankfully, more options become available with each year at Lehigh.

In the second year, apartment-style housing is a popular choice. Campus Square, Sayre Park, Trembley Park, and Warren Square are all on-campus apartment housing. However, space is scarce and the lucky ones can win an apartment through the lottery.

For the select few, they can move into a more comfortable space with larger bedrooms, kitchens, and living rooms. Many of the apartments have grills outside so you can invite your friends and enjoy a BBQ. You can even play volleyball in Sayre Park.

At the end of the year, many students opt to stay in their apartments for the subsequent year. How can you complain against reasonable rent and better conditions than most off-campus housing?

□ *Regina R. Du*

Shane M. Tanaka

Striking Out on Your Own

As an upperclassman, you have the choice of finding your own place off-campus or maybe you are one of those who were unlucky in the housing lottery. Either way, renting a place is a whole new experience.

Most don't have a meal plan anymore so either you must eat out or start cooking. There are no more gryphons looking over your shoulder so you can make the rules, whether that is parties that last into the wee morning or getting a cat.

Rent is much less than the dorms or the on-campus apartments. However, the condition of much off-campus housing needs to be improved to put it mildly. Students complain about the broken windows or the landlords that never come to fix anything. However, decent living quarters are out there if you are willing to pay the extra \$100-200 a month.

Whether you live in the dump or a beautiful apartment, having your own place is another unforgettable experience in college.

Love or Hate?

It's an experience every college freshman has to go through - the dreaded first roommate.

More important than what classes you take, or worrying about getting lost in Southside Bethlehem, is whether you get along with your roommate. Hoping you don't get stuck with the creepy weirdo who doesn't shower and eats his own boogers, you nervously anticipate the first day of orientation. Most students found that they ended up getting along with their roommates, and that having a roommate really helped the transition from high school. Kim Donovan, '09, commented, "Having a roommate also makes it less lonely and starts you off with one kind of forced friend so that you're not completely alone."

Students also had to learn to compromise with their new roommates on everything from sharing items, to rules about quiet time. Generally, roommates had a common courtesy of asking to borrow something when it came to sharing, and quiet hours were always worked out between one another. Basic communication also worked if someone had a lot of work, when other roommates wanted to watch TV.

All in all, once the basics were covered, roommates got to know one another throughout the year, and ended up having a few funny stories to show for it. Donovan confessed, "My roommate was the first person to ever notice that I talk in my sleep so she would tell me all the weird stuff I said the next day."

At the end of freshman year, a lot of roommates go their separate ways. A number of students move into greek housing, others just grow into different groups of friends. Dissimilar interests also sent roommates separate ways. Looking back on it, upperclassmen in general haven't gotten together with their old roommates due to different groups of friends, but they still keep in touch every once in a while to catch up.

A first roommate experience can be complicated and frustrating, but in the end, through the first week of 4 o'clocks or the weekend of Lehigh/Lafayette, everyone has someone to share that memorable first year with.

□ Sarah R. Leidy

Kristino is awesome! We got along so well. If she didn't become a gryphon, we would have continued being roommates.
- Jennifer Deng, '07

He introduced me to many aspects of American culture, including becoming addicted to video games!

- Song Phon, '08

"My roommate was so nice and welcoming. She definitely made the transition to college easier for me."
- Laura Ricles, '09

On a Hungry Hunt

It's inevitable: after a long night of partying with your best friends, trekking up and down the hill, hosting a movie session in your room, or even, although a remote possibility, doing homework, hunger will eventually take over. Eleven, twelve, even one a.m., you'll be fine, but then, suddenly, your stomach starts to grumble. When was the last time you ate anyway? Six o'clock dinner at the Bone? Seven hours without nourishment is unacceptable. It's time to find a midnight snack.

For convenience of location, one's own kitchen is the obvious best bet. But in dorms, the kitchens seem to be only stocked with two-year-old, half-consumed gallons of milk and empty bottles of ketchup, and fraternities and sororities – well, the kitchens are practically a war zone after a party. One can always go for a late night at Pandinis or a classy sit-down meal at the Hawk's Nest.

But, undoubtedly the best place for midnight snacking is Pantry One, the king of all 24-hour convenience stores. Sodas, chips, donuts, and candy galore, and a sandwich menu that might even rival that of the Goose; no person has ever seemed to leave P-I at two in the morning empty handed.

Lindsey M. Sutkus

"Food just tastes so much better when it's in the middle of the night."

- Nicole Falcone, '08

Shane M. Tarraka

Fresh Powder!

Let it snow, let it snow, let it snow!

The fluffy white flakes that have the power to instantly add magic to our campus grounds also have the power to evoke feelings of happiness and cheer in us all. As soon as snow begins to descend, not only is winter finally in full swing, but students are infused with a carefree attitude. No matter what reports may be due or what tests need to be studied for, everyone drops the tasks at hand to frolic in the winter wonderland.

For some students, it's the first time their eyes behold snow. For others, snow is a simple and beautiful reminder of pleasant childhood memories. In a sense, snow is a return to a time when our lives were not as hectic or demanding.

We throw all our present troubles aside to join others in reveling in the soft powder. Some of us do so by making snowmen and snow angels, others dare to snowboard on our notoriously steep slopes and others like myself claim a trash can lid, jump on and slide down the hills screaming at the top of our lungs. Although we may enjoy the first signs of winter in different ways, we can all agree that it has the power to bring us all together for a few magical moments.

Signed, Sealed, Delivered

The Ulrich Student Center is always bustling with activity. There are students eating at Subversions, doing homework, or most importantly checking their mail. Students check their mailboxes numerous times a week, hoping to see a flash of pink signifying a package or a letter from a recognizable address. Even though your mailbox is usually filled with off-campus food menus, university notices, and invitations to join groups, it is exhilarating to find a piece of actual mail in this age of modern technology.

Ulrich is particularly busy during lunch hour where you will definitely see familiar faces. The line to sign off on the pink package slips is at least ten people deep between noon and one o'clock. The post office also has stamps and envelopes to buy for when you need to send something out. Mail is a great link to the outside world.

□ Meredith J. Caplan

Spring Break

So many choices - topical oasis, ski sanctuary, European adventure...

Like the old childhood rhyme goes- "No more school, no more books...", spring break means a time of freedom if only for a week. The books and worries are left behind and everyone slaps on a big smile and jumps into a car, train or plane to their destination of choice. Spring break can be a time to kick back and relax on-campus or back at home while the jet setter in some of us compels us to fly off to places in the states or abroad to find peace, relaxation and good times.

Some choose the traditional spring break vacation package and spend their week in tropical Cancun or Bermuda and others opt for more remote and cooler locales like Colorado. Those who travel to tropical paradises mingle with fellow collegiate students to soak up rays during the day and party like a rockstar at night. The adventure seekers who spend their week skiing in places like Colorado for instance, find that they may not be willing to part with winter just yet as they sip their cocoa in some snow covered lodge.

Other students decide to devote their free week to the greater good and perform community service. Spring Serve is an increasingly popular option for Lehigh students who wish to bring joy to other's lives during their school-free week. These students travel together to various locations within the United States and engage in a variety of service tasks. Although other students may question why someone would sacrifice their week off to do community service, those involved do not see it as a sacrifice. Spring Servers return with a sense of pride, appreciation and most times, new friends.

□ *Jackeline L. Leon*

A series of great adventures and tons of fun, except the flight over - don't take US Air, that's the advice.

- Luna Xu, '07

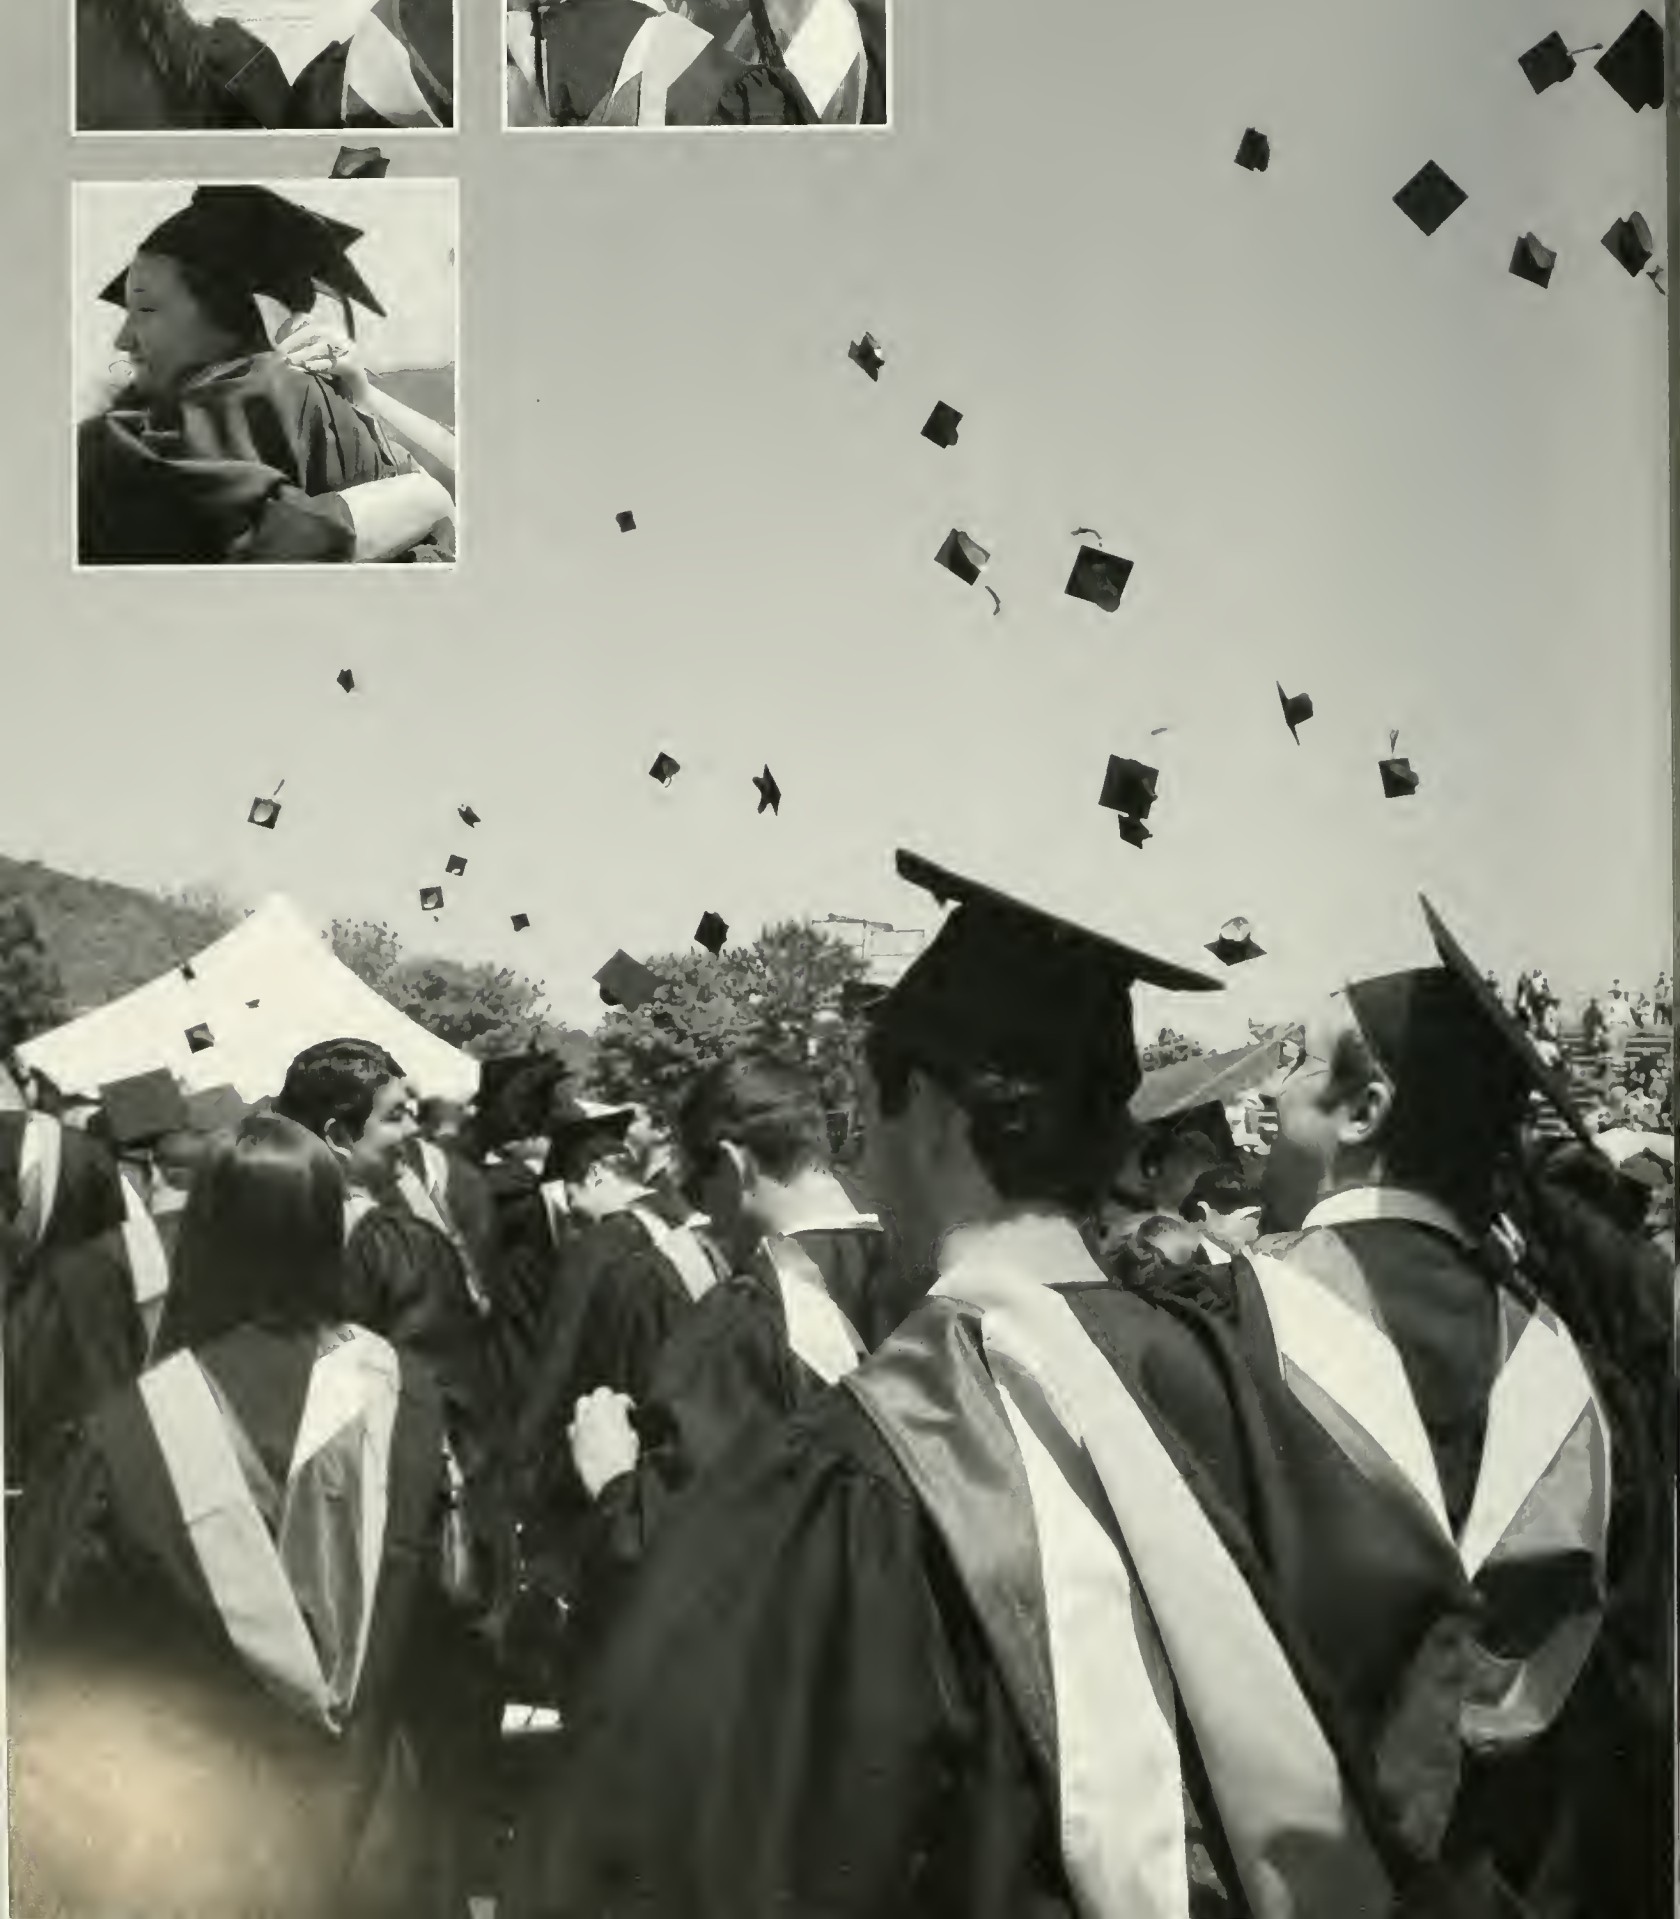

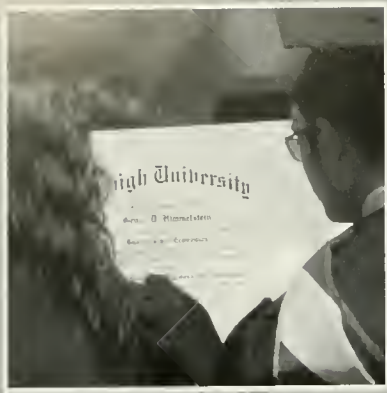

NSCS had a great time in New Orleans because volunteering with Habitat is for a great cause and with great people.

- Justin Wilson, '07

Snowboarding, skiing and hanging out in Colorado with my closest friends! Does it get any better than that?!

- Brian Gerard, '07

Moving forward,

GRADUATES

first steps toward the future

Consider the granddaddy of collegiate clichés - how do you define success? Is it a derivative of your peers', parents', or keynote speaker's interpretation? Of course, the arrangements for your proverbial next step have been made: opportunities ascertained and assessed, criterion evaluated, and choices made. With any luck, such choices were yours, and lying in whatever new bed you've made for yourself will be a comfortable experience. For those not yet ready to swim in the deep end, or those who are still thirsty for whatever post-graduate education program suits their fancy, the end has not yet come. Yet others will choose later in life to return to school, while the bulk of us either frame our diplomas and sit, or drop out and wish we had finished what we started. Unlike high school, where most students start and finish as a unified body, university life provides variations on that classic tune. Three and five year programs punctuate the traditional four-year bachelors, and unique dual-degree and cooperative education curricula provide for the changing landscape of world market demands. In addition, graduation rates at private colleges and universities stay steady at just over 50%. If you've made it thus far, smile for the photographer, throw the mortarboards, and enjoy your well-earned success.

Moving on to the Next Chapter

1,735 students graduated at this year's commencement ceremony

The 139th Lehigh commencement ceremony was held under blue skies and a pleasant breeze. 1,170 bachelor degrees, 520 master's degrees and 84 doctoral degrees were conferred. It was the first year that the annual alumni reunion was held during graduation weekend, and the Class of 1957 welcomed Lehigh's newest alumni.

Senior class President Nickita Nickitas spoke about the importance of failure, and how it plays a part in success. He spoke about his own experiences and advised his peers to not be afraid of taking risks and failing because we cannot succeed without trying.

Erik Weißenmayer, the first blind person to climb Mount Everest, was this year's commencement speaker. In his address, he told inspirational stories and urged the members of the Class of '07 to "climb high." He shared his experience with six blind Tibetan teenagers and how they trained to climb Mount Everest. His message was that leadership skills can be passed to those around us, and his closing message was for the

graduates to be "pioneers" and "elevate the world around us."

At her first Lehigh commencement, President Gast challenged the Class of '07 to "make in a difference in the world." She suggested that graduates should not only think about improving the human condition in terms of their career but also their free time. Dr. Gast referred to many alumni and students who do so not only in the United States but also abroad such as in Cambodia and Africa. Along the same lines, Patrick Belmont, Ph. D graduate, urged everyone to, "Go do great things and do them with passion," earlier in the day.

The ceremony ended with the traditional handing out of the diplomas. Each person's name was called, and the graduate walked on the stage for a handshake with either President Gast or Provost El-Asser. Amid cheers and applause, each person walked down the aisle to receive his/her diploma. Singing of the alma mater followed, and finally, the graduates threw their caps in the air as the new Lehigh alum.

□ *Regina R. Du*

Kim, You promised you would never grow up, and here you are... Time has flown by and you have grown into a caring, intelligent, hardworking, beautiful young woman who brings smiles to the faces of all you meet. Your love, compassion and thoughtfulness have enriched our family. We are so proud of you. May your future be filled with love, happiness and dreams that come true.

All Our Love,
Mom, Chris, Joey and Jenny

Kim Marie Gonzales

Calvin K. Luyando

Wow! So much has happened in the blink of an eye! You have grown into a wonderful young man full of personality, intelligence and love.

We are so proud of you!!

**Love,
Mom, Dad and Jorel**

Congratulations David!

David Moscow

***Keep your eye on the ball,
and just be you.***

*Love,
Mom, Dad and Julie*

Perry Gold

**YOU CHARTED YOUR OWN COURSE.
YOU FOLLOWED YOUR DREAMS.
PAT YOURSELF ON THE BACK, SON.
THE WHOLE FAMILY BEAMS.**

**LOVE,
MOM, DAD AND DARA**

TO OUR BRITTANY!

Brittany K. Doyle

*Graduation is here at last
Lots of memories from the past
What a difference you will make
Follow your heart that's all it takes*

YOU MAKE US PROUD!

*Love,
Mom, Dad, Jordan, Devin, Mam & Pap!*

Congratulations Christina!

Christina A. Kazakia

*Keep climbing your peaks honey!
We love you and are proud of you.
Galateia, Mom and Dad.*

Congratulations Scott!

We are so proud of you and of the fine man that you have become. Scott, you are a wonderful person and are capable of achieving your aspirations and dreams. We wish you happiness and success.

*Love you so much,
Mom, Dad, Lisa*

Scott Goodman

*Congratulations
Eric
and the class of
2007*

Eric Giambrone

*As you pass one of life's great milestones, may the journey ahead
be like a downhill run in fresh powder.*

*Love,
Mom, Dad, Kathryn and Lucy*

Brian Ade

*Believe in your dreams.
We believe in you.*

*All our love, always,
Mom, Dad, Emily & Alex*

CONGRATULATIONS DAN!

Daniel S. Cocco

*We love you and are very proud of you.
Love,
Mom, Dad, and Gary*

Congratulations, Robyn

Robyn Friedman

**You are one of our richest treasures
because you fill us all with pleasure.
Follow your dreams and always believe in
yourself.**

**We love you forever and always.
Mom, Fred, Matthew, Michael, Andrew,
all your grandparents and Casey.**

Dear Evan,

Congratulations! We are so very, very proud of you and of all your achievements. It feels like time stood still from kindergarten till now, for in a parent's heart their child is always "a child." Today, with great joy and immense pride in our hearts we celebrate the man you have become. We have always admired your independence and have been in "awe" of your confidence and optimism in life.

Today, all your hard work, dedication, focus and persistence have paid off and you can be very proud of your abilities and capabilities.

Evan, you have made so many of our dreams come true! We pray that all of your dreams come true, that you continue to strive for all your goals with the same passion that you live your life.

We wish you personal and professional health, wealth and happiness! With our LORD leading and your heart following, we look forward to the future and the success that is yours to attain!

*With all our Love,
Baba & Mom*

Evan Gentis

**Good luck Alessia
in medical school!**

Love,
Your sister Nicole and your brother John

Alessia Carluccio

Congratulations John

We are so proud of you. May all your dreams come true.
Our Love Always,
Mom, Dad and Daniel

John Ricciardi

Josh

**We're very proud of the
terrific person you are!**

Congratulations

**We love you
Dad, Mom, Nic & Ant**

Joshua Warner

MICHAEL ANGIS

Congratulations Mike!

Your family is so very proud
of the accomplished man
you have become.
Way to go!

Much love always

Lauren Kaczka

Congratulations Lauren

We are very proud of all
you have accomplished - All
our love and support with
your future endeavors.

Mom, Dad and Katie

Scott Panthaky, B.S.M.E.

Engineer from the beginning;
sincere thanks to Lehigh for fueling the fire!
YOU MAKE US SO PROUD (AND RELIEVED!)!!

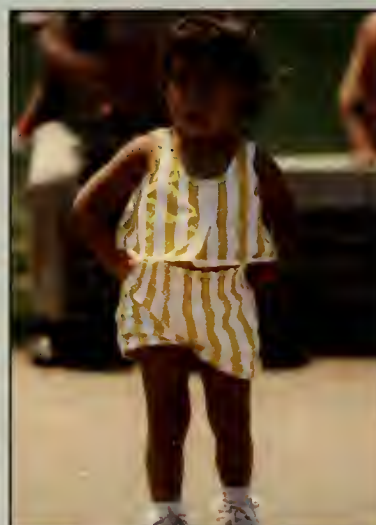

Love,
Mom, Jer-Bear & Dad

From small beginnings, grow great (and still small) things.

Kimmy-La,

***Congratulations! We wish you and the Class of 2007 the best of luck! May
you continue to grow and make us proud! We love you!***

Love,
Dad, Mercy, Chris, Joe, Jen, Marc and Matt

Kim Gonzales

You stand at the threshold of your future. Though I will always be here to advise you, support you, to applaud and comfort you, I cannot make the journey for you. It is your time to carve a place in the sun. Be true to your character and find wisdom in

honor and humility. Be gentle, gracious, courageous and open. Judge only with your heart; find peace within your soul. Do all this, and your time on earth will be well lived.

Love,
Dad

Danielle Jessie Schefer

Dressed for Success

Benjamin Katz

Ben,
We are so proud of
you. Congratulations.

Love,
Mom, Dad,
and Alexis

Congratulations, Andrew!

Andrew Malleris

We are so very proud of you and all that you have achieved. A wonderful future awaits you.

Love,
Mom and Dad

Congratulations on your graduation, Sam!

Samuel Shikiar
Investment Club President

You have made us both so incredibly proud! Wherever life may take you, always know we'll both be solidly behind you.

All our love, Mom and Dad
(and Tinky too!)

Samuel Shikiar

Katie,

You have never ceased to amaze us. We are so proud! Congratulations on your graduation from Lehigh!

*Love always all ways,
Dad and Mom
Ed, Brian, Mark, Maureen,
Erika, Aishleen, Danny and Duce*

Kathleen Radetich

David,

Mazal Tov on your graduation from Lehigh! You turned a dream into a reality and so much more. Continue to be the mensch that you are.

*We Love You,
Mom, Dad, Evan & Alex*

Congratulations & Mazal Tov David, and to your fellow graduates. I wish you success in all of your future endeavors.

*Love,
Grandma Flo*

David Falk

David,

Congratulations on achieving this milestone in your life. "God Speed" and "Good Luck" in all your future endeavors.

*Love,
Grandma and Grandpa*

CONGRATULATIONS ROBERT!

WE ARE VERY PROUD OF YOU.
WE ARE PRAYING THAT ALL YOUR
DREAMS COME TRUE.

LOVE,
MOM, DAD AND KRIS

Robert Such

CONGRATULATIONS VINNIE!

You continue to exceed our expectations and have brought us such joy. Now spread those wings and soar to new challenges and successes. May you continue to receive God's many blessings. Praying that all your dreams come true!

Love always,
Mom, Dad, Kristin & Jenny

Vincent Christopher Sica

Jeffrey Brian Benfield

We change the world not by what we say or do
But as a consequence
Of what we have become...

We are so very proud
Of what you have become, Jeff.

Love, Mom, Dad and Jen

Caitlyn Naddaff

Congratulations Caitlyn!

You are our pride and so much more!

Continue to strive and you will soar!

We love you!

Mom, Dad, Chip and Kathleen

Emma Lehrer

To our Emma,

From a little doll to an accomplished woman. You have made us all so very proud.

Love,

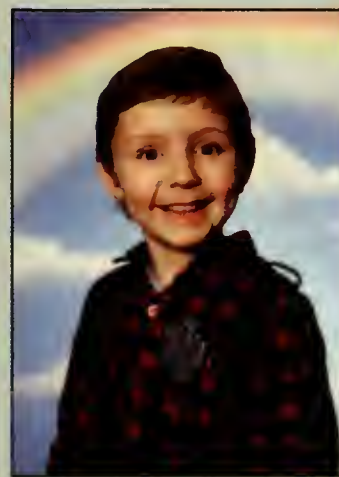

Mom, Sasha, Dad, Amy, Misha, Bubbie, Zaydie, Pepere & Cathy

Rachel Caras

Rachel you will always be our shining star. We are so proud of you.

**Love,
Mom & Dad**

Travis Eisemann

Travis,

You have a very bright future. You can do anything you want to. As you live up to your potential, you will do great things. We are very proud of you.

Love,

*Mom, Dad, Jesse,
and your entire extended family.*

Carly, Emily, Jenna, Jord, and Robyn,

"Don't want to get sentimental,
But both of us understand,
We never have to say goodbye,
Just see you later" - Elton John

You have taken care of me this past year - from giving me a bed to cry in to a couch to sleep in and always entertaining me. You are five of the most unique, hilarious, and kindest people I know. I appreciated you caring for me and taking me under your wing this past year at Lehigh. Although we may not be blood related, I consider all five of you my older sisters. You guys better come visit me next year!! I love you.

Love,

Jenny Peïssis

p.s. "If peeing your pants is cool, consider me Miles Davis."

Carly, Emily, Jenna, Jord, and Robyn

Michelle,

It seems like yesterday when I was writing a similar letter to you in your high school year-book. However, in the past four years, you have become more mature, established a large group of life long friends, and increased your sense of independence. Therefore, I know when you get out into the real world you will be able to succeed in all your goals. I am fortunate enough to have an older sister I am extremely proud of and can call my best friend. We have managed to conquer an awkward stage, the obstacles in high school, dad's bad jokes, and mom's long stories. I am grateful that you have always been there by my side. Although, I am sad that you will not be a stumble away next year, I am so glad that I was able to experience college with you for one year. You truly made it great. I may be a drive away, but I am still always a phone call away. Happy Graduation! I love you.

Love,
Jen

Michelle Peissis

ROBBY,
CONGRATULATIONS
ON YOUR GRADUATION!

Robert Rotfeld

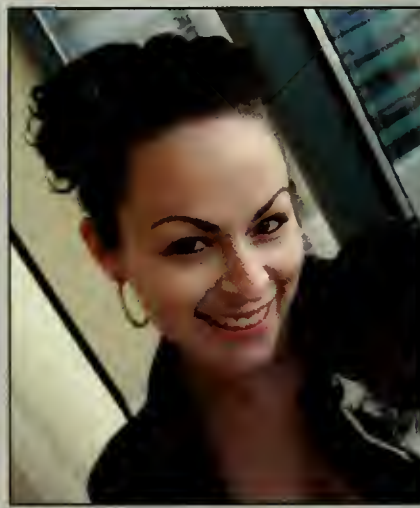

WE ARE SO PROUD OF YOU!
ALL OUR LOVE,
MOM, DAD AND CARLY

Siddharth Pisharody

*You went to a distant land, but
delightful emails & lively chats made
us feel close to you. We are proud of
your achievements, dedication & ability
to surpass your own goals. May all
your dreams come true.*

*Love
Mom, Papa & Adu*

Aimee Pearlman

Our beautiful Aimee,

You have always been our dream come true and now it is your
turn for all of your dreams to come true. We are so proud of you and
your accomplishments.

We love you,
Mom, Dad, Jason and Jessie

Matt LaMonica

Life is full of great memories. Congratulations as the next adventure begins.

Love, Dad, Mom, Mark and Christine

Matthew LaMonica

Congratulations Dave!

David L. Schlumpf

We are so proud of all your accomplishments.

With love,
Mom, Dad, Craig and Mita

Congratulations Sara

Sara M. Bertsch

**We are so proud of
your accomplishments!
Follow your dreams.**

**Love,
Mom & Dad**

Congratulations Len!

Len DonDiego

**We are so proud of
you!**

**Lots of love,
Mom, Dad, and Laura**

A STRONG LEGACY

We wish to acknowledge two Lehigh men
separated by a century, but joined by a common vision
about the role of technology in our world
and the opportunities it represents.

—*The Glancy Family*

Alfred Robinson Glancy
Lehigh Class of 1903
Great-grandfather of
Andrew Roby Glancy

A mechanical engineer
who became a General
Motors vice president,
a distinguished World
War II brigadier general,
a Lehigh trustee and
recipient of
an Honorary
Doctorate
from Lehigh.

Andrew Roby Glancy
Lehigh Class of 2007
Great-grandson of
Alfred Robinson Glancy

A Science, Technology
and Society major
who has worked to
promote the use of
environmentally
friendly fuels,
and to raise
awareness of
fuel alternatives
at the university.
Ready to face
this generation's
challenges.

**Congratulations to the Boys of East 5th Street:
Steve, Alec, Dave W., Matt, Mike M., Mike Z.,
Dave G., and Blake**

Stephen Marino

Lots of hard work in the classroom
and on the field.
Many good times and great friends.
Cherish the memories
and embrace life.
We are proud of all of you!

The Parents

Congratulations Leigh!

Leigh Gilson

**We are so proud of you. You
always make us smile!**

**All our love,
Mom, Dad, Billy, Jackie,
and Brendan**

CONGRATULATIONS HEATHER!

We are proud of your
accomplishments and growth into
the best daughter and sister one
could ever wish for.

We love you!
Clay, Laurie & Keith Hamasaki

Heather Hamasaki

Oh, the places you'll go!

Brad Woodward

Congratulations Bryant!

We are very proud of you.

**Congratulations to you and your Delta
Tau Delta Brothers on Graduation -
May all your dreams come true!**

**Love,
Dad, Mom & Jonathan**

Bryant Goehring

Congratulations Robert!

*Keep your dreams. Live them with abandon. The
moderately composed know none so lovely as the
divinely extravagant.*

Neil Martinique

Wishing you a future of dreams come true.

With love and pride.
Mom and Dad

Robert Zoppel

Congratulations Beth!!

We are proud of all your accomplishments
and wish you happiness in all your life
endeavors.

Love,
Mom, Dad, Carolyn and Tommy

*"The mind is not a vessel to be
filled, but a fire to be kindled."*

Plutarch, On Listening to Lectures

Elizabeth Ann Sterling

Jose,

We are very proud of your will to achieve but more so because it will never overshadow your kind and generous spirit. God bless you on your journey,

Love,
Mom, Dad, Nick and Amy

Jose Olivero

Dear Sean,

As we celebrate your graduation from Lehigh, our wish for you is that you will always have:

*Enough success to make you proud,
Enough trials to keep you strong & humble,
Enough Irish luck to make you smile at life,
Enough faith to believe in God's blessings,
Enough of all life's treasures to keep you truly happy.*

At age seven you said, "I'm going to go to Lehigh like Grandpa Don." Now you're graduating. You're blessed with a strength and desire to achieve. You work hard, dream big, and accomplish all! Keep it up! Keep Running! Congratulations!

Our love,
Mom, Dad, Tim, and Molly

Sean Swift

Congratulations Matt!

Matthew T. Lagowski

We always knew you had a future in engineering!
We are so proud of you!
Good luck in the future.

Love,
Mom, Dad, Jill and Ann

For information on how to become a Patron or Sponsor for the 2008 yearbook, please call the Epitome office at 610.758.4185 or visit us on the web at www.lehigh.edu/epitome.

*Where the Lehigh's rocky rapids
Rush from out the West,
Mid a grove of spreading chestnuts
Walls in ivy dressed.
On the breast of old South Mountain
Reared against the sky,
Stands our noble Alma Mater,
Stands our dear Lehigh.*

*Like a watchman on the mountain
Stands she grandly bold,
Earth's and Heaven's secret seeking,
Hoarding them like gold.
All she wrests from Nature's storehouse
Naught escapes her eye,
Gives she gladly to her dear ones,
While we bless Lehigh.*

*We will ever live to love her,
Live to praise her name,
Live to make our lives add luster
To her glorious fame.
Let the glad notes wake the echo,
Joyfully we cry:
Hail to thee, our Alma Mater;
Hail, all hail, Lehigh.*

Colophon

Volume 131 of the Epitome yearbook was produced at Lehigh University, 33 Coppee Drive, Bethlehem, PA 18015. It was printed by Taylor Publishing Company of Dallas, Texas: 1550 W. Mockingbird Lane, Dallas, Texas, 75235. Tim Lynott and Ed Patrick served as local sales representatives. Seana Litt served as local technical and design consultant. Jan Meyers was the designated plant software and computer support. Pam Ringold served as the account executive. The 2007 yearbook sold for \$75.00, including shipping and handling. Pennsylvania residents were charged an additional 6% for sales tax. The book consists of 368 pages and the total press run was 1200 books.

Cover: The cover, which uses process color, is a matte lithocote. The background color is a Taylor Process Color X9249. The font is Zapfino. The photo was taken by DaVor Photography. The cover was designed by Stephen Williams but the photo and color was decided on by the editorial board and prepared using Adobe Photoshop CS2.

Endsheets: The endsheets use process color and are printed on white index paper. Each section name uses Futura font.

Typography: All body copy is Garamond 12 point text and nearly all captions use Futura 8 point text. Sub-headlines and folio text use Futura. The names below the senior portraits in the Graduates section are Garamond. All headlines use Zapfino font.

Color: The first 112 pages of the book use process color, as do pages 321 to 368.

Paper Stock: The entire 368 pages of the book are printed on 100# matte paper.

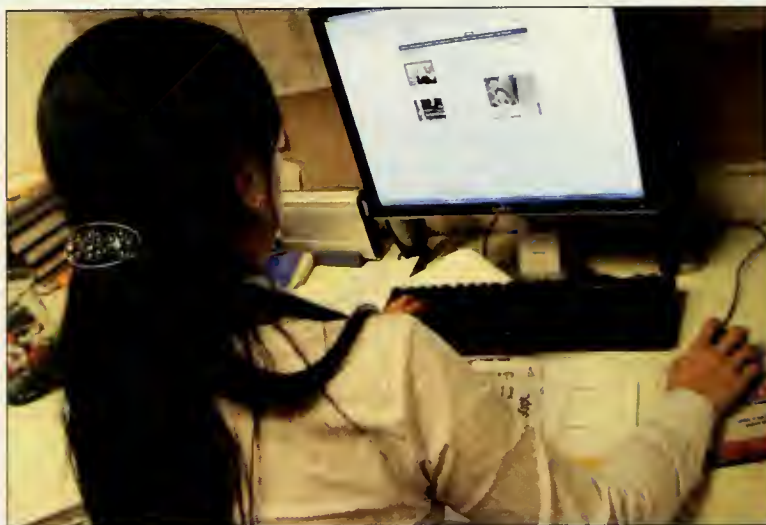

Design: Templates for each section layout were modified from Taylor templates with design ideas developed by section editors and staff. Section editors and staffs completed the layouts by selecting photos, editing them, soliciting information, and writing copy and captions. All pages were created on PCs using Adobe InDesign CS and Adobe Photoshop CS2. Pages were submitted PDF form on CDs.

Photography: Professional photography services were provided for the Epitome by DaVor Photography, a division of Herff-Jones: Box 8507, 654 Street Road, Bensalem, PA 19020-8507. The local sales representative was Mark Huff. DaVor handled senior portraits. Uncredited photos in the Opening section, Features section, Sports section, Living section, Graduates section, and Closing section were taken by DaVor. Uncredited photographs in the Greek section and Organizations section were submitted by the respective organization being represented on the page. All other photos were taken by the Epitome photography staff using digital cameras and are so credited. The photographs repeated on the endsheets and divider pages were taken by either by the Epitome photography staff or DaVor Photography.

Finance and Operation: The Epitome is an entirely student run publication and does not receive funding from the university. Each sorority and fraternity paid a fee for space in the book. The Lehigh Student Senate paid for each organization to have a half page, and organizations could purchase additional space with their own funds. Other funds were generated from book sales, senior portrait sitting fees, parent advertisements, living advertisements, and generous donations from parents, families, and friends of the university.

New Beginnings The Epitome 2007

In many ways, this year's book was a new beginning. As editor-in-chief, I stepped into this position with only vague idea of what needed to be done, and almost every section had new editors. However, the staff was amazing, and in the end, I am proud to present our 2007 yearbook.

The process started in Washington, D.C. where we decided on the staff, brainstormed theme ideas, and learned about staff retention for starters. Excited and ready to get started, we returned to Lehigh with a plan to complete the book. We had one of the biggest staffs this year with 50 students, and in the first meeting of the year, we could barely all fit in the room! While we started off slow, everything eventually came together as we decided on a theme, worked on layouts, and completed the book page by page.

I would like to begin by thanking everyone at Taylor Publishing Company who aided us step by step along the way. A special thank you goes out to Seana Litt for her personal visits and technical expertise, Ed Patrick for his suggestions in deciding on a theme, and Tim Lynott for his willingness to help in any way whether it be setting up a meeting with a designer or putting up with all my changes in the yearbook order. In addition, I would like to thank Stephen Williams for designing our beautiful cover, endsheets, and divider pages.

The book would not nearly be as eye catching if not for the photography of DaVor. Their coverage of sporting events and the senior portraits was indispensable. We would personally like to thank Mark Huff for his artistic ideas and especially his work in the senior portraits.

In addition to those at Taylor and DaVor, the efforts of Matthew Millheim, Natasha Burns, Gretchen Stamm are much appreciated. I could not have finished the book without your help.

Finally, but certainly not least, I wish to express my sincerest gratitude to the staff who spent numerous hours for this publication. I know some even spent weekends and parts of their summer in devotion to this book. Also, I cannot begin to thank Linda Lipko and Diane Dymek for their support and help. Without them, this book would not be possible.

Congratulations to the Class of 07 and best of luck in the future!

Regina Du
